The Issue Price (as determined by our Company in consultation with the Lead Manager as stated in the chapter titled '*Basis for Issue Price*' beginning on page 102 of this Draft Prospectus) should not be taken to be indicative of the market price of the Equity Shares after such Equity Shares are listed. No assurance can be given regarding an active and/or sustained trading in the Equity Shares or regarding the price at which the Equity Shares will be traded after listing.

#### GENERAL RISKS

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Issue. For taking an investment decision, investors must rely on their own examination of the Issuer and this Issue, including the risks involved. The Equity Shares offered in the Issue have not been recommended or approved by the Securities and Exchange Board of India ("SEBI"), nor does SEBI guarantee the accuracy or adequacy of the contents of this Draft Prospectus. Specific attention of the investors is invited to the section titled 'Risk Factors' beginning on page 17 of this Draft Prospectus.

#### ISSUER'S ABSOLUTE RESPONSIBILITY

The Issuer, having made all reasonable inquiries, accepts responsibility for and confirms that this Draft Prospectus contains all information with regard to the Issuer and this Issue, which is material in the context of this Issue, that the information contained in this Draft Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Draft Prospectus as a whole or any of such information or the expression of any such opinions or intentions, misleading, in any material respect.

### PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

All references to "India" are to the Republic of India and all references to the "Government" are to the Government of India.

### FINANCIAL DATA

Unless stated otherwise, the financial data included in this Draft Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled *"Financial Statements as Restated"* beginning on page 194 this Draft Prospectus. Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act, and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1 of each year and ends on March 31 of the next year. All references to a particular fiscal year are to the 12 month period ended March 31<sup>st</sup> of that year. In this Draft Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company's financial data. Accordingly to what extent, the financial statements included in this Draft Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Draft Prospectus should accordingly be limited.

Any percentage amounts, as set forth in "*Risk Factors*", "*Our Business*", "*Management's Discussion* and Analysis of Financial Condition and Results of Operations" and elsewhere in this Draft Prospectus unless otherwise indicated, have been calculated on the basis of the Company's restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled "*Financial Statements as Restated*" beginning on page 194 of this Draft Prospectus.

#### **CURRENCY OF PRESENTATION**

In this Draft Prospectus, references to "Rupees" or "Rs." or "INR" are to Indian Rupees, the official currency of the Republic of India. All references to "\$", "US\$", "USD", "U.S. \$" or "U.S. Dollars" are to United States Dollars, the official currency of the United States of America.

All references to 'million' / 'Million' / 'Mn' refer to one million, which is equivalent to 'ten lacs' or 'ten lakhs', the word 'Lacs / Lakhs / Lac' means 'one hundred thousand' and 'Crore' means 'ten million' and 'billion / bn./ Billions' means 'one hundred crores'.

### INDUSTRY AND MARKET DATA

Unless stated otherwise, Industry and Market data and various forecasts used throughout this Draft Prospectus have been obtained from publically available information, Industry Sources and Government Publications.

Industry Sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Draft Prospectus is reliable, it has not been independently verified by the Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on

various factors, including those discussed in the section titled "*Risk Factors*" on page 17 of this Draft Prospectus. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Draft Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

### FORWARD LOOKING STATEMENT

This Draft Prospectus contains certain "forward-looking statements". These forward looking statements can generally be identified by words or phrases such as "aim", "anticipate", "believe", "expect", "estimate", "intend", "objective", "plan", "project", "shall", "will", "will continue", "will pursue" or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following:-

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors/areas in which we operate;
- Increased competition in the Industry which we operate;
- Factors affecting the Industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled "*Risk Factors*" and chapter titled "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" beginning on pages 17 and 228 respectively of this Draft Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Draft Prospectus. Neither we, our Directors, Lead Manager, Underwriters nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the LM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

### SECTION II – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act and restated in accordance with the SEBI (ICDR) Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled "Our Business" beginning on page 137, "Our Industry" beginning on page 108 and "Management's Discussion and Analysis of Financial Condition and Results of Operations" beginning on page 228 respectively, of this Draft Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively;
- Some events may have material impact qualitatively instead of quantitatively;
- Some events may not be material at present but may have material impact in future.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Draft Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled "*Definitions and Abbreviations*" beginning on page 3 of this Draft Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

### **Internal Risks**

#### **Business Related**

1. There are certain tax related proceedings and claims involving our Chief Executive Officer and the same are pending at different stages before the Judicial / Statutory authorities. Any adverse rulings by such authorities against our chief executive officer may have an adverse material impact on our business operations.

Our Chief Executive Officer (CEO) Mr Tejus Kapadia is involved in the proceedings under Customs Act, 1962 and is in the process of filing appeal in the High Court against the Commissioner of Customs (Import), Nhavasheva in the matter relating to differential amount of Customs Duty in one of the High Seas Sale transaction done by his proprietary concern. Further, Notices have been issued under Income Tax Act, 1961 for the payment of outstanding demand which are pending with Income Tax Department; any adverse decision in such proceedings may adversely affect our business operations. Also, there is no assurance that in future, we, our promoters, our directors or group companies may not face legal proceedings; any adverse decision in such legal proceedings may impact our business. For further details in relation to legal proceedings involving our Company, Promoters, Directors, Group Companies see the chapter titled "*Outstanding Litigation and Material Developments*" on page 240 of this Draft Prospectus.

Except as mentioned above, there are no legal proceedings by or against our Company, Directors, Promoters or Group Companies. A classification of legal proceedings is mentioned below:

## 2. Textile Industry is an extremely competitive industry and we face risk of duplication of our products which may affect demand for our products

Our products are based on fashion as well specific needs of customers. We also undertake research activities with our yarn suppliers to ensure that varied range of fabrics are produced. Our purchase and sales model includes various intermediaries who may connect with our competitors and share details of the specialties of our products. We may not be able to protect our trade secrets and may not be able to detect the same as well. We have not entered into any non-disclosure agreements with our intermediaries and thus our efforts towards our marketing and manufacturing research activities may be leaked to other players in the market. This may affect the demand and exclusivity of our products and make us subject to fierce competition thereby adversely affecting our business, financial condition and results of operations.

### 3. Our Company has purchased second hand machinery from overseas vendors.

Our Company owns certain second hand machines purchased from overseas vendors. Our Company may not have been able to obtain adequate warranty/ guarantee from the vendors of such machines. Our Company may not, also, be able to source replacements / spare parts for such machines easily or at all, as and when required. This may result in delay/stoppages of our business operations. We may also have to look for replacement of such machines entailing substantial capital expenditure. Any such adverse developments may have a material and adverse effect on our financial condition and results of operations.

Also the speed and efficiency of a second hand machine differs from that of a new machine. The quality and precision of knitting of fabric is partially dependent on the speed of operation of machines. It may be possible that our process of knitting and quality may be affected by usage of such second hand machinery thereby affecting our sales and results of operations.

### 4. Our trading activities contribute majority of our revenue from operations.

Our Company is engaged in manufacturing as well as trading of yarn, grey cloth and fabrics. As at December 31 2015, March 31, 2015 and March 31, 2014 our turnover from trading operations contributed to 89.89%, 85.06% and 87.24% respectively of our total revenue from operations. As the fundamental law of trading demands huge dependence on suppliers, our trading operations shall remain vulnerable to the extent of such dependence. Any irregularities, shortfall in supplies, delays in trading cycles, inability to procure or deliver the traded goods may adversely affect our financial condition and results of operations.

## 5. We generally do business with our customers on purchase order basis and do not enter into long-term contracts with most of them.

Our business is dependent on our continuing relationships with our customers. Our Company neither has any long-term contract with any of customers nor has any marketing tie up for our products. Any change in the buying pattern of our end users or disassociation of major customers can adversely affect the business of our Company. The loss of or interruption of work by, a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

## 6. Any fluctuation in the prices and demand of our basic raw materials i.e. Synthetic Yarn will affect our manufacturing costs which could adversely affect our revenues and results of operations.

We have no control on the prices of Synthetic Yarn which is our basic raw material and also forms part of our export sales. The prices of yarn could fluctuate due to limited availability and demand. Such fluctuations in prices of raw material and our inability to negotiate at optimum market rates may affect our profitability. We typically do not enter into any long term supply agreements with our suppliers. We may be unable to control the factors affecting the price at which we procure our raw material. Upward fluctuations in the prices of raw material may thereby affect our margins and profitability, resulting in a material adverse effect on our business, financial condition and results of operations.

## 7. Underutilization of capacity of our existing manufacturing facility may adversely affect our business, results of operations and financial condition.

The capacities of various product types at our manufacturing plant have not been fully utilized over the last three financial years, the details of which are as follows:

Duoduot Nomo	Actual				
Product Name	2012-13	2013-14	2014-15		
Knitted Fabrics (kgs)	556670.22	289313	483352		
Sized Beam Yarn (kgs)	9204.05	8455	10248		
Grey Cloth (mtrs)	350105.25	47284	0		

\*Above data Includes figures for capacity utilised for job-work contracts as well.

Our Company currently has installed production capacity of about 6 Lakhs kgs p.a. of knitted fabrics, which is currently being under utilised. Due to lack of working capital and financial capabilities, we have not been fully utilising these capacities and we cannot assure that we shall be able to utilize our existing or proposed manufacturing facilities to their full capacity or up to an optimum capacity. Non-utilisation of the same may lead to loss of profits or can result in lower than expected margins, and may adversely affect our business, results of operations and financial condition. Our management aims to enhance utilisation of existing production capacity which again is subject to several variables like availability of raw material, power, proper working of machinery, orders on hand, supply / demand, manpower, etc.

8. We require high working capital for our smooth day to day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favourable terms at a future date, may have an adverse effect on our operations, profitability and growth prospects

Our business demands substantial funds towards working capital requirements. In case there are insufficient cash flows to meet our working capital requirement or we are unable to arrange the same from other sources or there are delays in disbursement of arranged funds, or we are unable to procure funds on favourable terms, at a future date, it may result into our inability to finance our working capital needs on a timely basis which may have an adverse effect on our operations, profitability and growth prospects.

Trade receivables as % of total current assets	74.37%	62.82%	81.11%	72.25%	85.42%	73.02%

Summary of our working capital position is given below:

Our Working capital requirements are in line with the industry standards. The textile industry is working capital intensive and involves a lot of investment in trade receivables and inventory. We intend to continue growing by reaching to other geographical areas. All these factors may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled "*Objects of the Issue*" beginning on page 96 of this Draft Prospectus.

### 9. Ours is a High Volume-Low Margin Business

Our Company is into the growing phase of business cycle. Our inability to regularly grow our turnover and effectively execute our key business processes could lead to lower profitability and hence adversely affect our operating results, debt service capabilities and financial conditions. Due to the nature of the products we sell, we may not be able to charge higher margins on our products. Hence, our business model is heavily reliant on our ability to effectively grow our turnover and manage our key processes including but not limited to raw material procurement, timely sales / order execution and continuous cost control of non core activities. For the period ended on December 31, 2015 and for the financial year 2014-15, 2013-14 and 2012-13 our revenue was Rs. 6,533.21 lakhs, 10,471.50 lakhs, 10,426.78 lakhs and 9,586.25 lakhs respectively. Our Profit before Tax Margin and Profit after Tax Margin were lower than 1% for

each period. As part of our growth strategy, we have already initiated steps for increase our revenue of operations, and cater to wider markets. Our growth strategy is subject to and involves risks and difficulties, many of which are beyond our control and, accordingly, there can be no assurance that we will be able to implement our strategy or growth plans, or complete them within the timelines. Further, we operate in a dynamic industry, and on account of changes in market conditions, industry dynamics, technological improvements or changes and any other relevant factors, our growth strategy and plans may undergo changes or modifications, and such changes or modifications may be substantial, and may even include limiting or foregoing growth opportunities if the situation so demands. For further details regarding the discussions and explanations for our past results, please refer to the chapter titled "Management's Discussions and Analysis of Financial Condition and Results of Operations" beginning on page 228 of this Draft Prospectus.

## 10. Our dependence on imported raw materials may affect our profitability. We are also subject to risks arising from exchange rate fluctuations.

Our raw material requirement is met by procuring the same from international suppliers. Presently, we are the authorized representative of an Indonesian supplier, for the sales of yarn in the Surat textile market. There is a possibility that we may lose this advantage if our international supplier enters into such exclusive supply agreements with our competitors. Our dependence on imports may adversely affect our profitability in case there may be a strain in trade relations of India with any of the supplying countries from where raw materials are imported or the suppliers face any sort of problems due to internal issues of producing countries.

We incur expenses in foreign currencies during the normal course of business for purchasing products from our global suppliers at mutually agreed prices. Further, on the export of our products we receive sale proceeds in foreign currency. Changes in value of currencies with respect to the Rupee may cause fluctuations in our operating results expressed in Rupees. The exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in future. Fluctuations in the exchange rates may affect our Company to the extent of cost of goods and sales in foreign currency terms. Any adverse fluctuations with respect to the exchange rate of any foreign currency for Indian Rupees may affect our Company's results of operations.

### 11. Disclosure relating to Promoter Group of our Company does not include entity(ies) in which certain of our Promoters' relatives may have an interest.

Our Promoter Group includes persons who by virtue of being relatives fall under the definition of "immediate relatives" but, as such, do not form part of the "Promoter Group" of the Company. Moreover, the said relatives do not own any shareholding in our Company.

Relationship with Promoter	Rohitkumar Kapadia	Ilaben Kapadia

Sister	Surekhaben Marfatia	Daxaben Sutaria
Spouse's Brother	Munnesh Choksi	-
Spouse's Brother	Kamal Choksi	-

There is an informal business disassociation with the aforesaid relatives and our Promoters vide declaration cum affidavit dated May 27, 2016 has submitted that information related to business/financial interest held by the said relatives is not accessible for the purpose of disclosure in this Draft Prospectus. Therefore, the disclosures made in this Draft Prospectus are limited to the extent of information that has been made available by our Promoters in relation to Promoter Group.

## 12. Currently we have an aggregate outstanding export obligation of Rs. 516.04 Lacs, which needs to be fulfilled between the years 2018 to 2021. Failure to meet export obligation would entail payment of the amount of duty saved together with interest.

Currently, we have an outstanding export obligation of Rs. 516.04 Lacs which needs to be fulfilled between the years 2018 to 2021. This amount pertains to various procured capital assets imported at concessional rate of import duty under the EPCG scheme. For further information of details of the licenses and outstanding export obligations please refer chapter titled "Our Business" beginning on page 137 of this Draft Prospectus.

## 13. In previous years, our Company had ventured into diversified business avenues but has not continued into such business ventures at present.

Our Company had ventured into sale of diamonds in the Financial Years 2011-12 and 2012-13 and had purchased stock of chemicals in in the Financial Year 2011-12. We have not been able to achieve success in these lines of business and such operations do not form part of the core business of our Company. Although the Company had generated revenue from such operations in previous years, we will not be continuing into these businesses other than for sale of stock in possession, if any. Also, we may not be able to sell such stock at profitable prices which may cause our Company to incur losses.

### 14. Negative trend in the Synthetic Textiles Sector has been impacting and contributing to the stagnation in growth prospects of our business operations.

As per a past and recent market reports, due to market conditions of the synthetic textile sector such as continuing overcapacity, falling capacity utilisations, dumping from China, and continuously falling raw material prices (led by crude prices) are the major reasons for a continuing negative outlook for this sector. These reasons have impacted our revenue from operations over the years as disclosed in the table below which clearly depicts stagnancy in the revenue generated by our Company from sales of synthetic textiles. Although the adoption of synthetic and blended garments is picking up which may positively drive the consumption and demand of the products of this sector in the medium term of FY 17. (Source: India Ratings & Research-Outlook Report-FY17 Outlook: Textiles)

Summary of our revenue from operations over the years is given below:

## 15. The shortage or non-availability of power facilities may adversely affect our manufacturing processes and have an adverse impact on our results of operations and financial condition.

Our manufacturing processes requires substantial amount of power facilities. The quantum and nature of power requirements of our industry and Company is such that it cannot supplemented / augmented by alternative / independent sources of power supply since it involves significant capital expenditure and per unit cost of electricity produced is very high in view of increasing oil prices and other constraints. We are mainly dependent on State Government for meeting our electricity requirements and get power supply by M/s. Dakshin Gujarat Vij Company Limited. Since we are majorly dependent on third party power supply; there may be factors beyond our control affecting the supply of power. Any disruption / non availability of power shall directly affect our production which in turn shall have an impact on profitability and turnover of our Company.

### 16. Our future growth may be restricted by our limited manufacturing capacity of our facility.

Our manufacturing facility situated at Surat enables us to produce knitted fabrics which constitute the entirety of the volume of sales from manufacturing. As on date of this Draft Prospectus, we have warping machines to produce beams and knitting machines to convert beams into fabrics, which are running close to their installed capacity. If we are unable to expand the manufacturing capacity in our manufacturing facility, we may not be able to tap growth opportunities in the domestic as well as international textile market. However our management believes that we have sufficient area which can be utilized for installing additional capacity and our Company can increase the manufacturing capacity by buying new machineries as and when required. To enable the same, we may be required to avail further credit and loan facilities from banks and/or financial institutions in the future.

#### 17. We are subject to certain restrictive covenants in debt facilities provided to us by our lenders.

We have entered into agreements for availing debt facilities from lenders. Certain covenants in these agreements require us to obtain approval/permission from our lenders in certain conditions. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain consents necessary to take the actions that we believe are required to operate and grow our business. For further details in this regard, please refer to chapter titled '*Financial Indebtedness*' beginning on page 237 of this Draft Prospectus.

## 18. Our Promoter and shareholders have provided personal guarantees and securities to certain loan facilities availed by us, which if revoked or released may require alternative guarantees and securities, repayment of amounts due or termination of the facilities.

Our Promoter and shareholders have provided personal guarantees and securities in relation to certain loan facilities availed of by us. In the event that any of these guarantees are revoked or securities released, the lenders for such facilities may require alternate guarantees or securities, repayment of amounts outstanding under such facilities, or may even terminate such facilities. We may not be successful in procuring alternative guarantees or securities satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which may not be available on acceptable terms or at all and any such failure to raise additional capital could affect our operations and our financial condition.

## 19. Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

# 20. We require a number of approvals, NOCs, licences, registrations and permits in the ordinary course of our business, some of approvals are required to be transferred in the name of Titanium Ten Enterprise Limited from Titanium Ten Enterprise Private Limited pursuant to name change of our company and the failure to obtain or apply for change of name for them in a timely manner may adversely affect our operations.

We require a number of approvals, licenses, registrations and permits for our business. Additionally, we may need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course. Approvals like TAN and Professional Tax Registration Certificate are currently not traceable by the company. Any failure to renew the approvals that have expired, or to apply for and obtain the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that

have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. Further a complete series of approvals may be and is required to be obtained for our manufacturing unit. For more information, see chapter titled "*Government and Other Statutory Approvals*" beginning on page 247 of this Draft Prospectus.

Also, we were a private limited company in the name of "Titanium Ten Enterprise Private Limited" which was carrying business of manufacturing of knitted fabrics and trading of Textile related products. As per Companies Act, 2013, a private limited company can be converted into public limited company. After complying with the relevant procedure of Companies Act, 2013, the said private limited company was converted into a public limited company. After conversion there was change of name of the company from "Titanium Ten Enterprise Private Limited" to "Titanium Ten Enterprise Limited.". We shall be taking necessary steps for transferring the approvals in new name of our company. In case we fail to transfer/obtain the same in name of the company same may adversely affect our business or we may not be able to carry our business

If we fail to obtain/convert any applicable approvals, licences, registrations and permits in a timely manner, we may not be able to expand our business on time, or at all, which could affect our business and results of operations In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business, financial condition, results of operations and prospects. We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action.

The material approvals, licences or permits required for our business include trade licence, Export licences, labour related approvals, excise and tax laws, environment laws and shops and establishment licences, as applicable. See chapter titled "*Government and other Statutory Approvals*" beginning on page 247 of this Draft Prospectus for further details on the required material approvals for the operation of our business. Any failure to apply for and obtain the required approvals, licences, registrations or permits in a timely manner, or any suspension or revocation of any of the approvals, licences, registrations and permits would result in a delay in the our business operations which could otherwise adversely affect our financial condition, results of operations and prospects.

## 21. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It also is possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

## 22. Our operations may be adversely affected in case of industrial accidents at our production facility.

Usage of heavy machinery, handling of sharp parts of knitting machinery by labour during production process or otherwise, lifting of heavy rolls of fabric by humans, short circuit of power supply for machines, etc. may result in accidents and fires, which could cause indirect injury to our labour, employees, other persons on the site and could also damage our properties thereby affecting our operations. Further our plants and machinery and personnel may not be covered under adequate insurance for occurrence of particular types of accidents which could adversely hamper our cash flows and profitability.

## 23. Our results of operations may be materially adversely affected by our failure to anticipate and respond to changes in fashion trends and customer preferences in a timely manner.

Our results of operations depend upon the continued demand by customers for our products and design. We believe that our success depends in large part upon our ability to anticipate, gauge and respond in a timely manner to changing fashion trends and customer's demands and preferences and upon the appeal of our products. If we are unable to anticipate customers preferences or industry changes, or if we are unable to modify our products on a timely basis, we may lose customers or become subject to greater pricing pressure. A decline in demand for our products, or a misjudgement on our part could, among other things, lead to lower sales, excess inventories and higher markdowns, each of which could have a material adverse effect on our reputation, results of operations and financial condition.

## 24. Conflicts of interest may arise out of common business undertaken by our Company and our Promoter Group Entities.

Our Promoter Group Entities, M/s. Titanium Venture, M/s. Tejus and M/s. Kapadia are authorized to carry out business similar to that of our Company. As a result, conflicts of interests may arise in allocating business opportunities amongst our Company and our Promoter Group Entities in circumstances where our respective interests diverge. In cases of conflict, our Promoters may favour other companies in which our Promoters have interests. There can be no assurance that our Promoters or our Promoter Group Entities or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition.

## 25. Our lenders have charge over our movable and immovable properties in respect of finance availed by us.

We have secured our lenders by creating a charge over our movable and immovable properties in respect of loans / facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were Rs. 1,219.71.44 Lakhs as on December 31, 2015. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations. For further information please refer chapter titled *"Financial Indebtedness"* on page 237 of this Draft Prospectus.

### 26. Introduction of alternative technology may reduce demand for our existing products and may adversely affect our profitability and business prospects

End products made by using our synthetic yarns, yarn beams and knitted fabrics are majorly used by dyeing entities. Our customers may decide to seek alternative technology coupled with the development of more alternatives in types of yarn, cloth and fashion/trend prevailing in the market which may adversely affect the demand for our products, our business and profitability if we are not able to respond to these changes. Our ability to anticipate changes in technology and to develop and introduce new and enhanced products successfully on a timely basis will be a significant factor in our ability to grow and to remain competitive. We cannot assure you that we will be able to achieve the technological advances that may be necessary for us to remain competitive or that certain of our products will not become out of trend. We are also subject to the risks generally associated with new product introductions and applications, including lack of market acceptance and delays in product development. Further, any substantial change in the spending habits of consumers who are end users of where our products are used, business of our customers will affect which in will affect the demand for our products. Any failure on our part to forecast and / or meet the changing demands will have an adverse effect on our business, profitability and growth prospects.

## 27. Continued operations of our manufacturing facilities are critical to our textile business and any disruption in the operation of our facility may have a material adverse effect on our business, results of operations and financial condition.

Our manufacturing facility is subject to operating risks, such as availability of machinery, breakdown, obsolescence or failure of machinery, disruption in power supply or processes, performance below expected levels of efficiency, labour disputes, natural disasters, industrial accidents and statutory and regulatory restrictions. Our machines have limited lives and require periodic cleaning as well as annual over hauling maintenance. In the event of a breakdown or failure of such machinery, replacement parts may not be available and such machinery may have to be sent for repairs or servicing. We have not entered into any technical support service agreements for the maintenance and smooth functioning of our equipment's and machineries. This may lead to delay and disruption in our production process that could have an adverse impact on our sales, results of operations, business growth and prospects.

## 28. Fabric is a highly inflammable commodity. Any fire mishaps or accidents at the Company's facility could lead to property damages, property loss and accident claims

Fabric being a highly flammable commodity, every stage from procurement, processing, storage and transportation to trading is fraught with an imminent danger of an instant fire. The risk of fire hazard is increased due to increased automation and use of large volume of air for material handling. Any spark generated can not only generate fire but also the same could propagate to other machines through spread of fire by fabric's flammability. Though we have taken insurance policy to cover damage caused by fire however, the cover may not be adequate to the loss suffered.

## 29. Our Group Company M/s. Orange Polymers Limited has not made certain requisite filings under various Statutory Acts applicable to it for the past few years.

Our Group Company, M/s. Orange Polymers Limited has not made certain requisite filings under various Statutory Acts applicable to it for the past few years. At present, the Company is a Dormant Company as per data available with the RoC. We cannot guarantee that this Company will not be subject to any penalties for the said violations in future. Such non-compliances by our Group Company may have an adverse impact on our reputation and business operations.

## 30. Our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits and terrorism. In the event of the occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.

Our Company has obtained insurance coverage in respect of certain risks. Our significant insurance policies consist of, among others, standard fire and special perils, earthquake (fire and shock), etc. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits, losses due to terrorism (except as provided in the marine cargo insurance). There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

## 31. In previous years, our Company had ventured into diversified business avenues but has not continued into such business ventures at present.

Our Company had ventured into sale of diamonds in the Financial Years 2011-12 and 2012-13 and had purchased stock of chemicals in in the Financial Year 2011-12. We have not been able to achieve success in these lines of business and such operations do not form part of the core business of our Company. Although the Company had generated revenue from such operations in previous years, we will not be continuing into these businesses other than for sale of stock in

possession, if any. Also, we may not be able to sell such stock at profitable prices which may cause our Company to incur losses.

## 32. Our Company is dependent on third party transportation providers for the delivery of raw materials/ finished Products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations

Our Company uses third party transportation providers for delivery of our raw materials and finished products. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. These transportation facilities may not be adequate to support our existing and future operations. In addition raw materials/ finished products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations.

Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure and port facilities, or other events could impair ability to procure raw materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

## 33. Our Company has not complied with certain statutory provisions under Companies Act and other laws. Such non-compliances/lapses may attract penalties.

Our Company has not complied with certain statutory provisions such as the following:

- Provision of Section 58A of the Companies Act, 1956 with respect to availment of unsecured loans from persons other than the directors of the Company during the past.
- Non-provision of Gratuity in accordance with The Payment of Gratuity Act, 1972. However in restated financials, provision of Gratuity has been made.

Also, our Company has erroneously filed certain forms with RoC and made delayed filing of some forms under the Companies Act. However, efforts have already been made to rectify certain errors by filing the requisite RoC forms for the same. Such delay/non-compliance may in the future render us liable to statutory penalties.

## 34. There are no supply agreements for the major raw materials with our vendors/suppliers. Our Business may be adversely affected if there is any disruption in the raw material supply or due to non availability of raw material.

We do not have written agreements with our vendors/suppliers and operate on a purchase order system. Due to the absence of any formal contract with our vendors/suppliers, we are exposed to the risks of irregular supplies or no supplies at all and delayed supplies which would materially affect our results of operations.

In the event of any disruption in the raw materials supply or the non availability of raw material from alternate source, the production schedule may be adversely affected impacting the sales and profitability of the Company.

## 35. Our industry is labour intensive and our business operations may be materially and adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.

We believe that the industry in which we operate faces competitive pressures in recruiting and retaining skilled and unskilled labour. Our industry being labour intensive is highly dependent on labour force for carrying out its manufacturing operations. Shortage of skilled / unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. Our Company has not employed any contract labourers and are thus dependent on daily wage workers We have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past, however there can be no assurance that we will not experience any such disruptions in

the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

## 36. We are dependent upon the growth prospects of the synthetic fabric industry, where finished products such as apparels are made by using our products.

Our Company broadly falls under the textile industry of which we undertake the manufacture and trading in yarns and fabrics. Synthetic yarns face competition from cotton yarns which are substitutes of our products. Our products are used generally in the apparel and garments industry and thus cater to the requirements of the textile industry at large, thus any slowdown in the growth rate or downward trend in any of these industries directly or indirectly impact our own growth prospects and may result in decline in profits and turnover of sales.

37. Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.

The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and manufacture inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory.

## 38. Compliance with, and changes in, safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.

Due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. We are also subject to environmental laws and regulations, including but not limited to:

- a. Environment (Protection) Act, 1986
- b. Air (Prevention and Control of Pollution) Act, 1981
- c. Water (Prevention and Control of Pollution) Act, 1974
- d. Hazardous Waste Management & Handling Rules, 2008
- e. Other regulations promulgated by the Ministry of Environment and Forests and the Pollution Control Boards of the state of Gujarat.

which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our business

The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and management time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly the Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non - compliance, other liabilities and related litigation, could adversely affect our business, prospects, financial condition and results of operations.

## 39. Our Company is dependent on third party transportation providers for the delivery of raw materials / finished products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations

Our Company uses third party transportation providers for delivery of our raw materials and finished products. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. These transportation facilities may not be adequate to support our existing and future operations. In addition raw materials / finished products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations.

Further, disruptions of transportation services due to weather – related problems, strikes, lockouts, inadequacies in the road infrastructure and port facilities, or other events could impair ability to procure raw materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

#### 40. Quality concerns could adversely impact our business.

The business of our Company is dependent on the trust our customers have in the quality of our products. Any goods sold by us to our customers, which do not comply with the quality specifications or standards prevalent in the business or market segment, may result in customer dissatisfaction, which may have an adverse effect on our sales and profitability.

### 41. Our ability to pay any dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirement and capital expenditures

The amount of our future dividend payments, if any, will depend upon our Company's future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends.

### 42. Our liabilities are not covered by insurance policies, which may expose us to substantial costs that could adversely affect our business, financial condition and results of operations.

Our Company has obtained insurance coverage against certain eventualities including against earthquake, fire and shock. Mishaps or accidents at our Company's facilities may lead to property damages, property loss and accident claims. Further we do not have insurance policies for risks like product defect/liability risk, loss of profits, losses due to terrorism, etc. If we suffer a significant uninsured loss, our business, financial condition and results of operations may be materially and adversely affected.

# 43. Our success depends largely upon the services of our Directors and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.

Our Directors have built relations with clients and other persons are connected with us. Our success is substantially dependent on the expertise and services of our Directors and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for Key Managerial Personnel in the industry is intense. We cannot assure that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

## 44. Our trademark is not registered under the Trade Marks Act and our ability to use the trademark may be impaired

Our Company's business may be affected due to our inability to protect our existing and future intellectual property rights. Currently, we do not have a registered trademark over our name and logo under the Trade Marks Act and consequently do not enjoy the statutory protections accorded to a trademark registered in India and cannot prohibit the use of such logo by anybody by means of statutory protection. If our trademark is not registered it can allow any person to use a deceptively similar mark and market its product which could be similar to the products offered by us. Such infringement will hamper our business as prospective clients may go to such user of mark and our revenues may decrease.

### 45. Our Company has unsecured loans which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. Post disassociation the loans have been repaid to group

As on December 31, 2015, our Company has unsecured loans amounting to Rs. 61.36 lakhs from our Directors and Promoters that are repayable on demand to them. Such loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lenders at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows.

For further details of unsecured loans of our Company, please refer 'Annexure VII' 'Details of Long Term Borrowings as Restated' of chapter titled – *"Financial Statements as Restated"* beginning on page 194 of this Draft Prospectus.

### 46. Our success depends largely upon the services of our Directors, Promoters and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company

Our success is substantially dependent on the expertise and services of our Directors, Promoters and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for Key Managerial Personnel in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

## 47. In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company

Our Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and Key Managerial Personnel may also be interested to the extent of their shareholding and dividend entitlement in our Company. For further information, see "*Capital Structure*" and "*Our Management*" on pages 74 and 172, respectively, of this Draft Prospectus.

48. Our lenders have imposed certain restrictive conditions on us under our financing arrangements. Our Company has not received "No-Objection" certificate from some of our lenders to undertake this Issue. Non receipt of such "No Objection" certificate could lead to non compliance of the terms of loan agreements entered into by our Company with said lenders.

We have entered into agreements for availing debt facilities from lenders. Certain covenants in these agreements require us to obtain approval/permission from our lenders in certain conditions. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain consents necessary to take the actions that we believe are required to operate and grow our business.

Further, as on the date of the Draft Prospectus, we have not received "No Objection" certificates from the lenders. We cannot assure you that the lenders will grant us the "No-Objection" certificate for this Issue. Non-receipt of such "No Objection" certificate could lead to non-compliance of the terms of loan agreements entered into by our Company with the lenders.

For further details in this regard, including approvals obtained from our lenders for this Issue, please refer chapter titled '*Financial Indebtedness*' beginning on page 237 of this Draft Prospectus.

## 49. Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

## 50. Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

After completion of the Issue, our Promoters and Promoter Group will collectively own 73.01% of the Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

# 51. We have not made any alternate arrangements for meeting our capital requirements for the Objects of the issue. Further we have not identified any alternate source of financing the 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the issue. We meet our capital requirements through our bank finance, debts, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we

have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled "*Objects of the Issue*" beginning on page 96 of this Draft Prospectus.

52. Within the parameters as mentioned in the chapter titled 'Objects of the Issue' beginning on page 96 of this Draft Prospectus, our Company's management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.

We intend to use fresh Issue Proceeds towards, working capital needs, general corporate purposes and to meet the issue expenses. We intend to deploy the Net Issue Proceeds in financial year 2016-17 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the fresh Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled "*Objects of the Issue*" beginning on page 96 of this Draft Prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company's Board of Directors. The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled '*Objects of the Issue*' beginning on page 96 of this Draft Prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. However, the company shall comply with Section 27 of the Companies Act, 2013 before varying the Objects of the Issue. The Audit Committee will monitor the utilisation of the proceeds of this Issue.

## 53. We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

#### **Issue Related**

## 54. After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- a. Volatility in the Indian and global capital market;
- b. Company's results of operations and financial performance;
- c. Performance of Company's competitors;
- d. Adverse media reports on Company or pertaining to the Industry in which we operate;
- e. Changes in our estimates of performance or recommendations by financial analysts;
- f. Significant developments in India's economic and fiscal policies; and
- g. Significant developments in India's environmental regulations

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no

assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

#### 55. The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price

The Issue Price of our Equity Shares has been determined by fixed price method. This price is be based on numerous factors (For further information, please refer chapter titled *"Basis for Issue Price"* beginning on page 102 of this Draft Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance

### 56. You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Issue until the Issue receives appropriate trading permissions

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Draft Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

## 57. Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

## 58. There are restrictions on daily / weekly / monthly movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time

Once listed, we would be subject to circuit breakers imposed by all stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time, and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result

of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

#### **External Risks**

### **Industry Risks**

## 59. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

#### **Other Risks**

## 60. The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.

A majority of the provisions and rules under the Companies Act, 2013 have recently been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in draft prospectus/prospectus, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in forward dealing. To ensure compliance with the requirements of the Companies Act, 2013, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention.

The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such provisions due to limited jurisprudence on them. In the event, our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. We may face difficulties in complying with any such overlapping requirements. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013 which are yet to come in force. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

#### 61. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realised on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax ("STT") has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India, if securities transaction tax has been paid on the transaction. Any gain realised on the sale of shares held for more than 36 months to an Indian resident, which are sold other than on a recognised stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realised on the sale of

equity shares held for a period of 36 months or less which are sold other than on a recognised stock exchange and on which no STT has been paid, may be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

# 62. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Prospectus.

As stated in the reports of the Peer Reviewed Auditor included in this Draft Prospectus under chapter "*Financial Statements as Restated*" beginning on page 194, the financial statements included in this Draft Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Draft Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Draft Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI (ICDR) Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Draft Prospectus should accordingly be limited.

# 63. Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- excise duty on certain raw materials and components;
- central and state sales tax, value added tax and other levies; and

• Other new or special taxes and surcharges introduced on a permanent or temporary basis from time to time.

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

### 64. The nationalized goods and services tax (GST) regimes proposed by the Government of India may have material impact on our operations.

The Government of India has proposed a comprehensive national goods and service tax (GST) regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Given the limited liability of information in the public domain covering the GST we are unable to provide/ measure the impact this tax regime may have on our operations.

# 65. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies

could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

# 66. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and Textile industry contained in the Draft Prospectus.

While facts and other statistics in the Draft Prospectus relating to India, the Indian economy and industry in which we operate has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled *'Our Industry'* beginning on page 108 of the Draft Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

# 67. Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.

The Indian securities markets are smaller than securities markets in more developed economies and the regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the more developed economies. Indian stock exchanges have in the past experienced substantial fluctuations in the prices of listed securities. Further, the Indian stock exchanges have experienced volatility in the recent times. The Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading and limited price movements. A closure of, or trading stoppage on the SME Platform of BSE could adversely affect the trading price of the Equity Shares.

# 68. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic, social and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

# 69. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection / tax clearance certificate from the income tax authority. There can be no

assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

# 70. The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

# 71. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

## 72. Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

#### SUMMARY OF INDUSTRY

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and industry sources. Neither we nor any other person connected with the Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly, investment decisions should not be based on such information. You should read the entire Draft Prospectus, including the information contained in the sections titled "Risk Factors" and "Financial Statements as Restated" and related notes beginning on page 17 and 194 respectively of this Draft Prospectus before deciding to invest in our Equity Shares.

#### INTRODUCTION: TEXTILE INDUSTRY

The history of textiles in India dates back to around 3000 BC where the use of mordant dyes and printing blocks was prevalent. The diversity of fibres found in India, intricate weaving on its state-of the art manual looms and its organic dyes attracted buyers from all over the world for centuries. However, the industry faced a setback during British colonisation, when the industrial policies destroyed the innovative eco-system and left it technologically impoverished. Independent India saw the building up of textile capabilities, diversification of the product base, and the emergence of the industry, once again, as an important global player.

The Indian textiles and apparels industry is one of the oldest industries in India having evolved impressively from a domestic small scale industry to one of the largest in the world with a massive raw material and textiles manufacturing base. It is also one of the largest and most important sectors of the Indian economy in terms of output, foreign exchange earnings and employment thus contributing greatly to the exchequer. The sector has a unique position as a self-reliant industry, from the production of raw materials to the delivery of finished products, with substantial value-addition at each stage of processing. Its vast potential for creation of employment opportunities in the agricultural, industrial, organised and decentralised sectors & rural and urban areas, particularly for women and the disadvantaged is noteworthy. Thus, the growth and all round development of this sector has a direct bearing on the development of the economy.

In 2013 the Indian textile industry contributed about 14% to the Index of Industrial Production, 4% to the country's GDP and 17% to the country's export earnings. Around 8% of the total excise revenue collection is contributed by the textile industry. The industry currently estimated at around US \$108 billion, is expected to reach US \$ 141 billion by 2021. Given these facts and the strong backward and forward linkages of the sector with other manufacturing industries, the industry is of high focus for the Government and Industry.

#### **TEXTILE AND APPAREL INDUSTRY - OVERVIEW**

The textile and apparel industry can be broadly divided into two segments yarn and fibre, and processed fabrics and apparel. India accounts for ~14 per cent of the world's production of textile fibres and yarns (largest producer of jute, second largest producer of silk and cotton, and third largest in cellulosic fibre). India has the highest loom capacity (including hand looms) with 63 per cent of the world's market share.

The domestic textile and apparel industry in India is estimated to reach US\$ 141 billion by 2021 from US\$ 67 billion in 2014. Increased penetration of organised retail, favourable demographics, and rising

income levels are likely to drive demand for textiles. India is the world's second largest exporter of textiles and clothing.

Textile and apparel exports from India are expected to increase to US\$ 82 billion by 2021 from US\$ 40 billion in 2014. Readymade garments remain the largest contributor to total textile and apparel exports from India. In FY15 the segment had a share of 40 per cent of all textile and apparel exports. Cotton and manmade textiles were the other major contributors with shares of 31 per cent and 16 per cent, respectively.

Rising government focus and favourable policies is leading to growth in the textiles and clothing industry. Foreign direct investment (FDI) in textile sector increased to US\$ 1,587.8 million in FY15 from US\$ 1,424.9 million in FY14. The Ministry of Textiles is encouraging investments through increasing focus on schemes such as Technology Up gradation Fund Scheme (TUFS). To promote apparel exports, 12 locations have been approved by the government to set up apparel parks for exports. As per the 12th Five Year Plan, the Government plans to provide a budgetary support of US\$ 4.25 billion to textiles. Free trade with ASEAN countries and proposed agreement with European Union will also help boost exports.

#### GLOBAL ECONOMIC ENVIRONMENT

#### **GLOBAL ECONOMIC OVERVIEW**

The global macroeconomic landscape is currently chartering a rough and uncertain terrain characterized by weak growth of world output. The situation has been exacerbated by; (i) declining prices of a number of commodities, with reduction in crude oil prices being the most visible of them, (ii) turbulent financial markets (more so equity markets), and (iii) volatile exchange rates. These conditions reflect extreme risk-aversion behaviour of global investors, thus putting many, and in particular, commodities exporting economies under considerable stress.

One important positive outcome in 2015 is the modest pickup in the growth of some of the advanced economies. However, growth in emerging market and developing economies declined for the fifth consecutive year. As a result, overall global economic activity remained subdued in 2015. In its latest Update of the World Economic Outlook (WEO), published on 19 January 2016, the IMF projected growth in the global economy to improve from 3.1 per cent in 2015, to 3.4 per cent in 2016 and further to 3.6 per cent in 2017. Growth in advanced economies is projected at 2.1 per cent in 2016 and to continue through 2017 at the same rate.

The slowdown and rebalancing of the Chinese economy, lower commodity prices, and strains in some large Emerging Market and Developing economies (EMDE) are likely to continue to weigh on their growth prospects in 2016–17. Assessments indicate that mixed inflation developments in the EMDEs reflect the conflicting implications of weak domestic demand and lower commodity prices versus marked currency depreciations over the past year. The WEO update also indicated that India and the rest of emerging Asia are bright spots, with some other countries facing strong headwinds from China's economic rebalancing and global manufacturing weakness. World trade volume growth projections have been placed at 2.6 per cent and 3.4 per cent respectively for 2015 and 2016, which is much lower than what was estimated earlier in WEO in October 2015.

#### **GLOBAL OUTLOOK FOR GROWTH**

One important positive outcome in 2015 was the modest pick-up in growth in some of the advanced economies. It might be recalled that after falling in 2009 due to the 2008 global financial crisis, growth in emerging and developing economies rebounded in 2010 and 2011. While advanced economies also exhibited a recovery in 2010 thanks to the large stimuli, global growth continued to be tepid relative to the average of the decade ending 2006, largely on account of the slowdown in advanced economies. Spill over effects of the crisis may have been large, prolonged and bi-directional, given that the global integration is far greater than in the prior decade. This has made the

task of projecting global economic outlook arduous. This uncertainty has led to the International Monetary Fund (IMF) revising the global growth outlook in its World Economic Outlook (WEO) four times a year since 2009.

In its latest WEO Update, published on 19 January 2016, the IMF has projected growth in the global economy to go up from 3.1 per cent in 2015 to 3.4 per cent in 2016 and further to 3.6 per cent in 2017, slightly lower than the projection published in October 2015. Growth in advanced economies is revised by 0.2 percentage points in 2016 to 2.1 per cent, to continue through 2017. Growth in the US is expected to remain resilient owing to strengthening of the housing and labour markets. Growth in the euro area is expected to increase due to stronger private consumption supported by lower oil prices and easy financial conditions is expected to outweigh the weakening in net exports. Growth in Japan is also expected to consolidate in 2016, on the back of fiscal support, lower oil prices, accommodative financial conditions, and rising incomes.

Overall global economic activity remained subdued in 2015, as growth in emerging market and developing economies (EMDE) declined for the fifth consecutive year and recovery in advanced economies was modest. This is also attributable to the changing composition of the global economy and relative point contributions to global growth. The fall in the contribution of the EMDEs is not being made good by the advanced economies. A recent feature is that the Chinese economy is gradually slowing down and is transitioning from investment demand to consumption demand and from manufacturing to services. The concern over the spill over's of subdued global growth to other economies through trade channels and weaker commodity prices is manifest in diminishing confidence and increasing volatility in financial markets. In addition, a dual monetary policy-a gradual tightening in monetary policy in the US in the backdrop of its resilient recovery and easy monetary policy in several other major advanced economies has led to continued uncertainties and poses challenges for the year ahead. In the case of EMDEs, growth remained subdued at 4 per cent in 2015, but is projected to increase to 4.3 per cent in 2016 and 4.7 per cent in 2017. The slowdown and rebalancing of the Chinese economy, lower commodity prices, and strains in some large emerging market economies will continue to weigh on growth prospects in 2016-17. Assessments indicate that mixed inflation developments in EMDEs reflect the conflicting implications of weak domestic demand and lower commodity prices versus marked currency depreciations over the past year.

The 19 January WEO Update also indicated that India and the rest of emerging Asia are bright spots, albeit with some countries facing strong headwinds from China's economic rebalancing and global manufacturing weakness. The IMF's growth forecast for India is 7.5 per cent in 2016 and 2017 and this surpasses the projection of 6.3 per cent and 6.0 per cent respectively for China. The level of global economic activity has a significant and direct bearing on the growth prospects of the emerging economies through trade channels. As per the Update, world trade volume growth projections have been placed at 3.4 per cent and 4.1 per cent respectively for 2016 and 2017 lower by 0.7 percentage points to 0.5 percentage point respectively from WEO, October 2015. The World Bank's Report on Global Economic Prospects (January 2016) also estimated that India will grow by a robust 7.8 per cent in 2016 and 7.9 per cent in the following two years. Compared to other major developing countries, the report maintained that India is well positioned to withstand near-term headwinds and volatility in global financial markets due to reduced external vulnerabilities, a strengthening domestic business cycle, and a supportive policy environment.

#### **REVIEW OF MAJOR DEVELOPMENTS IN INDIAN ECONOMY**

In the Advance Estimates of GDP that the Central Statistics Office (CSO) released recently, the growth rate of GDP at constant market prices is projected to increase to 7.6 per cent in 2015-16 from 7.2 per cent in 2014-15, mainly because private final consumption expenditure has accelerated. Similarly, the growth rate of GVA for 2015-16 is estimated at 7.3 per cent vis-à-vis 7.1 per cent in 2014-15. Although agriculture is likely to register low growth for the second year in a row on account of weak monsoons, it has performed better than last year. Industry has shown significant improvement primarily on account of the surprising acceleration in manufacturing (9.5 per cent vis-à-vis 5.5 per cent in 2014-15). Meanwhile, services continue to expand rapidly.

- Even as real growth has been accelerating, nominal growth has been falling, to historically low levels, an unusual trend highlighted in the Mid-Year Economic Analysis (MYEA), 2015-16.
- According to the Advance Estimates, nominal GDP (GVA) is likely to increase by just 8.6 (6.8) percent in 2015-16.
- In nominal terms, construction is expected to stagnate, while even the dynamic sectors of trade and finance are projected to grow by only 7 to 73/4 percent.
- Inflation remains under control The CPI-New Series inflation has fluctuated around 51/2 percent, while measures of underlying trends—core inflation, rural wage growth and minimum support price increases—have similarly remained muted. Meanwhile, the WPI has been in negative territory since November 2014, the result of the large falls in international commodity prices, especially oil. As low inflation has taken hold and confidence in price stability has improved, gold imports have largely stabilized, notwithstanding the end of a period of import controls
- Similarly, the external position appears robust. The current account deficit has declined and is at comfortable levels; foreign exchange reserves have risen to US\$351.5 billion in early February 2016, and are well above standard norms for reserve adequacy; net FDI inflows have grown from US\$21.9 billion in April-December 2014-15 to US\$27.7 billion in the same period of 2015-16; and the nominal value of the rupee, measured against a basket of currencies, has been steady. India was consequently well-positioned to absorb the volatility from the U.S. Federal Reserve actions to normalize monetary policy that occurred in December 2015. Although the rupee has declined against the dollar, it has strengthened against the currencies of its other trading partners.
- The fiscal sector registered three striking successes: on-going fiscal consolidation, improved indirect tax collection efficiency; and an improvement in the quality of spending at all levels of government.
- Government tax revenues are expected to be higher than budgeted levels. Direct taxes grew by 10.7 per cent in the first 9 months (9M) of 2015-16. Indirect taxes were also buoyant. In part, this reflected excise taxes on diesel and petrol and an increase in the Swachh Bharat cess. The central excise duty collection from petroleum products during April to December 2015-16 recorded a growth of 90.5 per cent and stood at Rs.1.3 lakh crore as against Rs. 0.7 lakh crore in the same period last year. Tax performance also reflected an improvement in tax administration because revenues increased even after stripping out the additional revenue measures (ARMs). Indirect tax revenues grew by 10.7 per cent (without ARMs) and 34.2 per cent (with ARMs).
- The main findings are that a welcome shift in the quality of spending has occurred from revenue to investment, and towards social sectors. Aggregate public investment has increased by about 0.6 per cent of GDP in the first 8 months of this fiscal year, with contributions from both the Centre (54 per cent) and states (46 per cent).

#### INDIA'S INCREASING IMPORTANCE TO GLOBAL GROWTH

Despite global headwinds and a truant monsoon, India registered robust growth of 7.2 per cent in 2014-15 and 7.6 per cent in 2015-16, thus becoming the fastest growing major economy in the world. As per the estimates of the International Monetary Fund (IMF), global growth averaged 3.1 per cent in 2015, declining from 3.4 per cent registered in 2014. While growth in advanced economies has improved modestly since 2013, the emerging economies have witnessed a consistently declining trend in growth rate since 2010. It is against this background that the recent Indian growth story appears particularly bright.

India has made striking progress in its contribution to the global growth of Gross Domestic Product (GDP) in Purchasing Power Parity (PPP) terms. PPP represents the number of units of a country's currency required to purchase the same amount of goods and services in the domestic market as the US dollar would purchase in the United States, thus adjusting for purchasing power differentials between currencies in relevant markets. India's contribution to global growth in PPP terms increased from an average of 8.3 per cent during the period 2001 to 2007 to 14.4 per cent in 2014. During the 1990s, the US's contribution to the global GDP growth in PPP terms was, on an average, around 16 percentage points higher than India's. The picture changed dramatically in 2013 and 2014 when India's contribution was higher than that of the US by 2.2 and 2.7 percentage points respectively. During 1991-2014, low growth in Japan (0.9 per cent annually) resulted in its low contribution (1.5 per cent) to global growth. India and China constitute 42.5 per cent and 53.2 per cent respectively of the total PPP measure of the lower-middle income countries and upper-middle income countries; and hence those country groups largely reflect India's and China's patterns.

The global economy—in particular the global growth powerhouse, China—is rebalancing, leading to an increasing role for India. After the onset of the multiple crises in different parts of the world, India's contribution has become much more valuable to the global economy.

India's share in world GDP has increased from an average of 4.8 per cent during 2001-07 to 6.1 per cent during 2008-13 and further to an average of 7.0 per cent during 2014 to 2015 in current PPP terms (IMF). India's resilience and current levels of reasonably strong growth should, thus, be appreciated in the light of its increasing contribution to global growth.

#### GLOBAL MANUFACTURING INDUSTRY

#### World manufacturing growth in the fourth quarter of 2015

World manufacturing growth slowed down further in the fourth quarter of 2015, with growth rates in both industrialized and developing economies decreasing. Weak business investment and sluggish consumer demand are among the major causes of the deceleration of global manufacturing output growth.

Growth in major emerging industrial economies has weakened, continuing the trend of the first quarter of 2014. China's slowdown and the sharp decline in manufacturing output of Latin American economies are the primary causes for the country group's weaker growth rate. The fall in commodity prices has affected some key emerging commodity export-dependent countries, namely Brazil and South Africa, and has resulted in currency depreciation.

The upturn in manufacturing growth observed in industrialized economies in the third quarter of 2015 did not continue in the fourth quarter of 2015, and this country group's production output decreased significantly. The slowdown in Europe and North America, along with a further decline in East Asian economies, resulted in a sharp deceleration in the country group's manufacturing output growth. In the United States, manufacturing exports slowed as a result of the strong US dollar and the low oil prices. Continued decline in China has also weakened Chinese demand for imports from Europe.

# (Source: World Manufacturing Production- Statistics for Quarter IV, 2015; United Nations Industrial Development Organisation - <u>www.unido.org</u>)

Global manufacturing output growth rose by merely 1.9 per cent in the fourth quarter of 2015, down from a 2.6 per cent revised growth estimate in the third quarter. Slow investment growth, lower commodity and energy prices, weak global demand and geopolitical tensions are among the main causes of the overall flat-lining growth. However, these factors are having different effects on different economies. For example, favourable oil prices have reduced the business costs in oil importing countries, especially in industrialized economies, while oil exporting economies have been subject to increasing financial pressure.

The manufacturing output of industrialized countries rose by 0.2 per cent in the fourth quarter of 2015. This slow growth is attributable to a mixture of weaker growth figures in the United States and Europe and a decline in East Asia's manufacturing output. The question of the robustness of recovery in industrialized economies has been raised in earlier quarterly reports.

The growth of manufacturing output in developing and emerging industrial economies decreased to 4.6 per cent, down from 5.2 per cent growth in the previous quarter. The growth outlook varies between different developing and emerging regions and groups; e.g. manufacturing output grew by 6.1 per cent in developing countries in Asia and the Pacific compared to the same period of the previous year, while it declined by 4.0 per cent in the Latin America region. Manufacturing output has also declined slightly (0.2 per cent) in Africa.

Despite the slower pace of growth, developing and emerging industrial economies were the main drivers of global manufacturing growth. Their combined contribution to global manufacturing growth was around 80 per cent. This indicates the significance of manufacturing activities within the group for the overall global picture.

#### Key Findings on World Manufacturing Sector

On a year-to-year comparison, world manufacturing production grew in all manufacturing sectors in the fourth quarter 2015, with the exception of the manufacture of machinery and equipment and printing and publishing. The global decline in the production output of the manufacture of machinery is attributable to low energy prices. Higher growth rates have been observed in the manufacture of radio and television and of chemicals and chemical products. Growth was positive across all industries in developing and emerging industrial economies, except a slight decline in the manufacture of motor vehicles. Industrialized countries registered negative growth in eight manufacturing industries.

Among the consumer goods production industries, output of wearing apparel grew by 2.2 per cent in developing and emerging markets and by 0.6 per cent in the industrialized country group. The industry's output grew by 16.9 per cent in the Czech Republic, by 14.6 per cent in the United Kingdom, by 12.8 per cent in Egypt, and by 12.3 per cent in Mexico. However, the manufacturing output of the wearing apparel fell sharply in Brazil and Indonesia, by 12.9 per cent and 16.4 per cent, respectively. A significant decline was also observed in wearing apparel production in Canada and Estonia. The production of textiles grew by 4.1 per cent in developing countries while industrialized countries registered a decline of 0.5 per cent in this production. At country level, impressive growth in textiles production was recorded in Argentina, Estonia and Hungary whereas it dropped sharply in Brazil and Senegal. The production of food and beverages grew at a higher rate (5.2 per cent) in developing countries. As such, output grew by 7.8 per cent in China, by 7.3 per cent in Indonesia and by 5.2 per cent in Romania. Output declined by 10.3 per cent in Tunisia and by 7.0 per cent in Egypt. The food sector was the only manufacturing industry with a positive, albeit poor, growth in Brazil.

The notable growth rate of 10.4 per cent was observed in the manufacture of radio, television and communication equipment in developing and emerging countries, with China, Egypt and India being the leading manufacturers. In industrialized markets, the highest growth rate in this manufacturing sector was seen in France.

The production of motor vehicles fell marginally by 0.4 per cent in developing countries, attributed mainly to the decline in the industry in Latin American economies. The industry's output rose by 4.4 per cent in industrialized countries, with Italy, Spain and Sweden being the top producers worldwide in the fourth quarter of 2015. The manufacturing production of other transport equipment increased at a higher rate in developing countries.

The manufacture of chemicals and chemical products increased considerably in China, Senegal and Tunisia, as well as in Ireland, Netherlands and the Russian Federation. The chemical industry was one of the few industries in the Russian Federation recording a higher growth rate, with a 6.6 per cent increase compared to the previous year.

The production of basic metals, which includes the production of basic iron, basic steel, basic precious and non-ferrous metals, rose by 5.9 per cent in developing countries compared to the same period of the previous year, but dropped by 4.8 per cent in industrialized countries in comparison to the previous year. Manufacturing output grew in China, Indonesia and Macedonia, while it fell in all Latin American economies and in Africa.

In the United States, as the largest driver of growth in industrialized economies, the manufacture of electrical machinery and apparatus and motor vehicles remained strong in the fourth quarter of 2015. However, other industries showed either a decline or a decrease in production output. The combination of low energy prices and expensive currency contributed to the economic slowdown of the United States. Despite its slow economic growth, China's manufacturing output in most industries increased compared to the same period of the previous year. China recorded its highest growth rates in the manufacture of radio and television (10.1 per cent), chemicals and chemical products (9.8 per cent) and the manufacture of basic metals (8.9 per cent).

#### INDIAN MANUFACTURING SECTOR

#### **Introduction**

The Prime Minister of India, Mr Narendra Modi, has launched the 'Make in India' initiative to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. The Government of India has set an ambitious target of increasing the contribution of manufacturing output to 25 per cent of Gross Domestic Product (GDP) by 2025, from 16 per cent currently.

#### <u>Market Size</u>

India's manufacturing sector could touch US\$ 1 trillion by 2025. There is potential for the sector to account for 25-30 per cent of the country's GDP and create up to 90 million domestic jobs by 2025. Business conditions in the Indian manufacturing sector continue to remain positive.

In November 2015, the seasonally adjusted Nikkei India Manufacturing Purchasing Managers' Index (PMI) stood at 50.3, which indicated expansion for twenty-fifth consecutive month. The services PMI was at 50.1 points in November 2015.

#### **Investments**

In a major boost to the 'Make in India' initiative, the Government of India has received investment proposals of over US\$ 3.05 billion till end of August 2015 from various companies.

India has become one of the most attractive destinations for investments in the manufacturing sector. Some of the major investments and developments in this sector in the recent past are:

- Canada's Magna International Incorporated has started production at two facilities in Gujarat's Sanand, which will supply auto parts to Ford Motor Co in India and will employ around 600 people at both units.
- Swedish home furnishing brand Ikea has made a long-term plan of opening 25 stores in India by making an investment worth Rs 12,500 crore (US\$ 1.9 billion).

- Siemens has announced that it will invest € 1 billion (US\$ 1.13 billion) in India to add 4,000 jobs to its existing workforce of 16,000 in the country.
- US-based First Solar Inc and China's Trina Solar have plans to set up manufacturing facilities in India. Clean energy investments in India increased to US\$ 7.9 billion in 2014, helping the country maintain its position as the seventh largest clean energy investor in the world.
- Samsung Electronics has invested Rs 517 crore (US\$ 77.82 million) towards the expansion of its manufacturing plant in Noida, Uttar Pradesh (UP). "Samsung India Electronics is committed to strengthen its manufacturing infrastructure and will gradually expand capacity at this plant to meet the growing domestic demand for mobile handsets, as per the company.
- Shantha Biotechnics Private Limited has started building a facility to manufacture Insuman, an insulin product to treat diabetes. Sanofi SA, which acquired Shantha Biotechnics, will invest Rs 460 crore (US\$ 69.24 million) to build the facility.
- BMW and Mercedes-Benz have intensified their localisation efforts to be part of 'Make in India' initiative. "The localisation efforts will reduce the waiting period and accelerate the servicing process of our cars as we had to (previously) depend on our plants overseas for supply and will help us on the pricing front."
- Suzuki Motor Corp plans to make automobiles for Africa, the company's next big bet, as well as for India at its upcoming factory in Hansalpur, near Ahmedabad, Gujarat.
- Taiwan-based HTC has decided to manufacture products in India. HTC is believed to have partnered GDN Enterprises, which has an assembly set up in Noida.
- Foxconn is planning an aggressive expansion in India, building up to 12 new factories and employing as many as one million workers by 2020
- The State Government of Tamil Nadu has signed investment agreements worth Rs 2, 42,160 crore (US\$ 36.45 billion) during a two-day Global Investors Meet in September 2015.

#### **Government Initiatives**

In a bid to push the 'Make in India' initiative to the global level, Mr Narendra Modi, Prime Minister of India, pitched India as a manufacturing destination at the World International Fair in Germany's Hannover earlier this year. Mr Modi showcased India as a business friendly destination to attract foreign businesses to invest and manufacture in the country.

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- The Government plans to organise a 'Make in India week' in Mumbai between February 13-18, 2016 to boost the 'Make in India' initiative and expects 1,000 companies from 10 key sectors to participate in the exhibition of innovative products and processes, a hackathon and sessions on urban planning, among other events.
- The National Institution for Transforming India Aayog (NITI Aayog) plans to release a blueprint for various technological interventions which need to be incorporated by the Indian manufacturing economy, with a view to have a sustainable edge over competing neighbours like Bangladesh and Vietnam over the long term.
- Ms Nirmala Sitharaman, Minister of State (Independent Charge) for Commerce and Industry, has launched the Technology Acquisition and Development Fund (TADF) under the National Manufacturing Policy (NMP) to facilitate acquisition of Clean, Green and Energy Efficient Technologies, by Micro, Small & Medium Enterprises (MSMEs).
- The Government of India has asked New Delhi's envoys in over 160 countries to focus on economic diplomacy to help government attract investment and transform the 'Make in India' campaign a success to boost growth during the annual heads of mission's conference. Prime Minister, Mr Modi has also utilised the opportunity to brief New Delhi's envoys about the Government's Foreign Policy priority and immediate focus on restoring confidence of foreign investors and augmenting foreign capital inflow to increase growth in manufacturing sector.
- The Government of Uttar Pradesh (UP) has secured investment deals valued at Rs 5,000 crore (US\$ 752.58 million) for setting up mobile manufacturing units in the state.
- The Government of Maharashtra has cleared land allotment for 130 industrial units across the state with an investment of Rs 6,266 crore (US\$ 943.13 million)

- Dr Jitendra Singh, Union Minister of State (Independent Charge) of the Ministry of Development of North Eastern Region (DoNER), MoS PMO, Personnel, Public Grievances & Pensions, Atomic Energy and Space, Government of India, has announced the 'Make in Northeast' initiative beginning with a comprehensive tourism plan for the region.
- Government of India has planned to invest US\$ 10 billion in two semiconductor plants in order to facilitate electronics manufacturing in the country.
- Entrepreneurs of small-scale businesses in India will soon be able to avail loans under Pradhan Mantri MUDRA Yojana (PMMY). The three products available under the PMMY include: Shishu covering loans up to Rs 50,000 (US\$ 752), Kishor covering loans between Rs 50,000 (US\$ 752) to Rs 0.5 million (US\$ 7,520), and Tarun covering loans between Rs 0.5 million (US\$ 7,520) and Rs 1 million (US\$ 15,052).

#### Road Ahead

The Government of India has an ambitious plan to locally manufacture as many as 181 products. The move could help infrastructure sectors such as power, oil and gas, and automobile manufacturing that require large capital expenditure and revive the Rs 1,85,000 crore (US\$ 28.42 billion) Indian capital goods business.

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country.

With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

#### INDIAN TEXTILES INDUSTRY

#### Introduction

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 11 per cent of total exports. The textiles industry is also labour intensive and is one of the largest employers. The industry realised export earnings worth US\$ 41.4 billion in 2014-15, a growth of 5.4 per cent, as per The Cotton Textiles Export Promotion Council (Texprocil). The textile industry has two broad segments. First, the unorganised sector consists of handloom, handicrafts and sericulture, which are operated on a small scale and through traditional tools and methods. The second is the organised sector consisting of spinning, apparel and garments segment which apply modern machinery and techniques such as economies of scale.

The Indian textiles industry is extremely varied, with the hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital intensive sophisticated mills sector at the other end of the spectrum. The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of the textile industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles make the Indian textiles sector unique in comparison to the industries of other countries. The Indian textile industry has the capacity to produce a wide variety of products suitable to different market segments, both within India and across the world.

#### Market Size

The Indian textiles industry, currently estimated at around US\$ 108 billion, is expected to reach US\$ 223 billion by 2021. The industry is the second largest employer after agriculture, providing employment to over 45 million people directly and 60 million people indirectly. The Indian Textile Industry contributes approximately 5 per cent to India's gross domestic product (GDP), and 14 per cent to overall Index of Industrial Production (IIP).

The Indian textile industry has the potential to reach US\$ 500 billion in size according to a study by Wazir Advisors and PCI Xylenes & Polyester. The growth implies domestic sales to rise to US\$ 315 billion from currently US\$ 68 billion. At the same time, exports are implied to increase to US\$ 185 billion from approximately US\$ 41 billion currently.

#### **Investments**

The textiles sector has witnessed a spurt in investment during the last five years. The industry (including dyed and printed) attracted Foreign Direct Investment (FDI) worth US\$ 1.77 billion during April 2000 to September 2015.

Some of the major investments in the Indian textiles industry are as follows:

- Reliance Industries Ltd (RIL) plans to enter into a joint venture (JV) with China-based Shandong Ruyi Science and Technology Group Co. The JV will leverage RIL's existing textile business and distribution network in India and Ruyi's state-of-the-art technology and its global reach.
- Giving Indian sarees a 'green' touch, Dupont has joined hands with RIL and Vipul Sarees for use of its renewable fibre product Sorona to make an 'environment-friendly' version of this ethnic ladies wear.
- Grasim Industries has invested Rs 100 crore (US\$ 15 million) to develop its first fabric brand, Liva', which it will distribute through 1,000 outlets as part of a plan to stay in sync with changing consumer behaviour.
- Snapdeal has partnered with India Post to jointly work on bringing thousands of weavers and artisans from Varanasi through its website. "This is an endeavour by Snapdeal and India Post to empower local artisans, small and medium entrepreneurs to sustain their livelihood by providing a platform to popularise their indigenous products," said Mr Kunal Bahl, CEO and Co-Founder, Snapdeal.

- Welspun India Ltd (WIL), part of the Welspun Group has unveiled its new spinning facility at Anjar, Gujarat the largest under one roof in India. The expansion project reflects the ethos of the Government of Gujarat's recent 'Farm-Factory-Fabric-Fashion-Foreign' Textile Policy, which is aimed at strengthening the entire textile value-chain.
- American casual fashion retailer Aéropostale, Inc. has inked a licensing agreement with Arvind Lifestyle Brands Ltd to open standalone stores in the country. Aéropostale will open 30 stores and 25 shop-in-shop locations over the next three years.

#### **Government Initiatives**

The Indian government has come up with a number of export promotion policies for the textiles sector. It has also allowed 100 per cent FDI in the Indian textiles sector under the automatic route.

Some of initiatives taken by the government to further promote the industry are as under:

- The Government of India has started promotion of its 'India Handloom' initiative on social media like Facebook, Twitter and Instagram with a view to connect with customers, especially youth, in order to promote high quality handloom products.
- The Ministry of Textiles launched Technology Mission on Technical Textiles (TMTT) with two mini-missions for a period of five years (from 2010-11 to 2011-12 in the 11th five year plan and 2012-13 to 2014-15 in 12th five year plan) with a total fund outlay of Rs 200 crore (US\$ 30 million). The objective of TMTT is to promote technical textiles by helping to develop world class testing facilities at eight Centres of Excellence across India, promoting indigenous development of prototypes, providing support for domestic and export market development and encouraging contract research.
- The Government of India is expected to soon announce a new National Textiles Policy. The new policy aims at creating 35 million new jobs by way of increased investments by foreign companies, as per Textiles Secretary Mr S K Panda.
- Subsidies on machinery and infrastructure
  - The Revised Restructured Technology Up gradation Fund Scheme (RRTUFS) covers manufacturing of major machinery for technical textiles for 5 per cent interest reimbursement and 10 per cent capital subsidy in addition to 5 per cent interest reimbursement also provided to the specified technical textile machinery under RRTUFS.
  - Under the Scheme for Integrated Textile Parks (SITP), the Government of India provides assistance for creation of infrastructure in the parks to the extent of 40 per cent with a limit up to Rs 40 crore (US\$ 6 million). Under this scheme the technical textile units can also avail its benefits.
  - The major machinery for production of technical textiles receives a concessional customs duty list of 5 per cent.
  - Specified technical textile products are covered under Focus Product Scheme. Under this scheme, exports of these products are entitled for duty credit scrip equivalent to 2 per cent of freight on board (FOB) value of exports
- The Government of India has implemented several export promotion measures such as Focus Market Scheme, Focus Product Scheme and Market Linked Focus Product Scheme for increasing share of India's textile exports.
- Under the Market Access Initiative (MAI) Scheme, financial assistance is provided for export promotion activities on focus countries and focus product countries.
- Under the Market Development Assistance (MDA) Scheme, financial assistance is provided for a range of export promotion activities implemented by Textiles Export Promotion Councils.
- The government has also proposed to extend 24/7 customs clearance facility at 13 airports and 14 sea ports resulting in faster clearance of import and export cargo.
- The Ministry of Textiles has approved a 'Scheme for promoting usage of geotechnical textiles in North East Region (NER)' in order to capitalise on the benefits of geotechnical textiles. The

scheme has been approved with a financial outlay of Rs 427 crore (US\$ 64.1 million) for five years from 2014-15.

• A Memorandum of Understanding (MoU) has been signed between India and Kyrgyzstan seeking to strengthen bilateral cooperation in three fields -Textiles and Clothing, Silk and Sericulture, Fashion

#### Road Ahead

The future for the Indian textile industry looks promising, buoyed by both strong domestic consumption as well as export demand. With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with the entry of several international players like Marks & Spencer, Guess and Next into the Indian market. The organised apparel segment is expected to grow at a Compound Annual Growth Rate (CAGR) of more than 13 per cent over a 10-year period.

# INDIAN TEXTILE INDUSTRY WILL CONSUME MORE POLYESTER THAN COTTON WITHIN NEXT FIVE YEARS

- Share of manmade fibre in total mill consumption is expected to reach ~65% by 2030. However, the share of cotton is expected to decrease from current level of ~55% to 32% by 2030.
- A drastic change is expected in the mill consumption of polyester fibre, share of which is projected to grow to 53% (9,455,000MT) by 2030.

(Source: Future of Indian MMF Based Textiles Industry, Wazir Advisors - <u>www.wazir.in</u>)

#### MAN MADE FIBRES AND POLYMERS

Man-made fibres (MMF) and man-made filament yarns (MMFY) account for around 40% share of the total fibre consumption in the textile industry as a whole. These fibres form a key raw material for the technical textile industry because of their customizable properties. The key man-made fibres, filaments and polymers used as raw materials in technical textiles are: **Man-Made Fibres and Filaments** – Viscose, Polyester, Nylon, Acrylic/Mod acrylic, Polypropylene and **Polymers** – HDPE, LLDPE, LDPE, PVC

India ranks among one of the world's largest producers of MMF and MMFY, with production of 1284.64 million kg and 1549.80 million kg in 2010-11, respectively. While production of MMF and MMFY registered growth of 1.31% and 1.78%, respectively, over the previous year alone, the last decade has witnessed a steady increase in production and consumption of major synthetic fibres and polymers, resulting in a fair degree of self sufficiency in the domestic MMF and MMFY markets.

(Source: Investor Guide – Driving Growth of Technical Textiles in India Report, January, 2013 – Federation of Indian Chambers of Commerce and Industry (FICCI) - <u>www.ficci.in</u>)

#### MAN MADE FIBRE SECTOR OUTLOOK

Polyester dominates the world fibre consumption contributing more than half of the overall fibre consumption. The rise in share can be attributed to the growing consumption of polyester in the developing countries. On the other hand, the Indian textile industry is predominantly a cotton-based industry. However, limited area under cultivation and erratic rain affects the cotton availability.

Over a longer term view, polyester consumption is expected to pick up gradually with increase in demand for apparels, home textiles and technical textiles as the macro economic scenario recovers. The growth in apparels and home textile segments will be supported by factors such as rise in disposable income, growing consumer class, rising urbanization, increasing retail penetration and increased usage of credit cards etc.

According to CMIE manmade fibre & filament industry sales in FY15 is estimated to have declined by 3.3% on back of subdued demand and fall in realisation. Further, reduction in cotton yarn prices has affected substitution demand for man-made fibre. The operating margin of polyester companies in last couple of years have remained under pressure on account of huge capacity additions taken place in the industry and intense competitive, commoditised and fragmented nature of the industry which limits the pricing flexibility of players operating in the segment.

However, in FY16 sales are expected to increase by 10.6% (Source: CMIE) supported by increase in textile and clothing exports in FY16 (target of \$47.5 billion for textile and clothing export as against \$41.4 billion in FY15), increase in domestic consumption and expected increase in demand for technical textiles on back of pick up in infrastructure sector. The outlook for man-made fibre industry remains stable.

#### ADVANTAGE INDIA

#### Robust demand

- Increased penetration of organised retail, favourable demographics, and rising income levels to drive textile demand.
- Growth in building and construction will continue to drive demand for non clothing textiles.

#### **Increasing investments**

- Huge investments are being made by Government under Scheme for Integrated Textile Parks (SITP)-(USD184.98 Million) and Technology Up gradation Fund Scheme (TUFS)-(term loan sanctioned in Feb, 2015-USD2198.45 Million) to encourage more private equity and to train workforce.

#### **Competitive Advantage**

- Abundant availability of raw materials such as cotton, wool, silk and jute.
- India enjoys a comparative advantage in terms of skilled manpower and in cost of production relative to major textile producers.

#### **Policy support**

- 100 per cent FDI (automatic route) is allowed in the Indian textile sector.
- Under Union Budget 2015-16, government has allocated USD39.81million for integrated parks in India.
- Free trade with ASEAN countries and proposed agreement with European Union will boost exports.

#### **GROWTH DRIVERS**

Factors contributing to growth of the industry and analysed in this study are:

- Rising disposable incomes and evolving lifestyles of India's prospering urban consumer, are broadening their clothing needs. Today, Indians are more inclined to buy apparels for a specific purpose, than consumers in other markets. Family celebrations and weddings in India continue to eat up an enormous share of Indian consumers' clothing budgets.
- Rising urbanisation leads to increase in demand for new designs and fashions to match new lifestyles. The growing participation of women in the workforce is also contributing a great deal to this demand.
- Backed by the enormous capacity to absorb labour, skilled human capital to meet the growing demand is one of the important factors that will drive growth of this industry.

- India may be a major player in traditional textiles, but technical textiles as a segment is growing due to rising demand for specialised fabrics from various sectors of the economy.
- India's cotton and apparel exports are set to climb by around 10% in 2015 as higher wages, political instability and concerns about workplace conditions in other producing markets are likely to push international buyers towards Indian exporters. India has overtaken Germany and Italy to emerge as the world's second largest textile exporter but lags behind China, whose exports are nearly seven times higher.
- The proliferation of digital internet technology in India coupled with wide scale ownership of devices such as smart phones, laptops and tablets that support internet usage, have resulted in an unprecedented growth of e-commerce. As incomes rise and lifestyles change, people have little time to spare. E-commerce has provided consumers with a wide range of apparels, with just a few simple clicks, making their shopping experience easier, faster and more convenient.
- The textile industry, being one of the most significant sectors in the Indian economy, has been a key focus area for the Government of India. A number of initiatives have been taken by the Government to make the industry more competitive.

#### SUMMARY OF BUSINESS

#### **OVERVIEW**

Incorporated in 2008, our Company 'Titanium Ten Enterprise Limited' is engaged in trading of yarn, grey cloth and manufacturing and trading of knitted fabrics. We also undertake job work of yarn and fabrics in our own capacity or on outsource basis. The registered office of our Company is situated at Shop No. 901/914, Rajhans Complex, 9th Floor, Ring Road, Surat, Gujarat- 395002 and the manufacturing plant is situated at Plot No. 660/A, 660/B and 660/C, Village Palsana, District Surat, Gujarat.

Our Company is promoted by Rohitkumar Kapadia and Ilaben Kapadia. Being engaged in the textile industry since last four decades, our Promoter Rohitkumar Kapadia has been the pioneer of the Company's business ideology and growth strategies. The Company's operations are backed by the inventive initiatives and textile knowledge of Tejus Kapadia, the CEO of our Company. Within a short span of time, our Company has created a steady position for itself in the Surat textile market and has been able to generate turnover of around Rs. 100 Crores during the past few years of operations.

Our sales model is divided into 2 parts i.e. i) trading of yarn and grey cloth and ii) supply of knitted fabrics. For the year ended March 31, 2015, our trading and manufacturing operations constituted 85.49% and 14.51% respectively of our total revenue from operations. Our trading operations cater to customers from both domestic and international markets. Our traded materials are mostly used in the process of weaving and knitting of fabrics which is then used for apparels such as sarees, shirtings, suitings, and upholstery such as curtains, etc. For our manufacturing operations, we have a plant set up at Surat which is considered as "The Textile Hub of The Nation". Spread over 2,853.12 square meters, our manufacturing facility is well equipped with requisite plant and machinery such as Warping and Knitting machines. At present we have an installed production capacity of more than 6,00,000 kgs p.a. for knitted fabrics. Our manufacturing process mainly consists of blending and knitting of yarn into beams of cloth which is then converted to fabric. We use different qualities of yarn as raw material of which Bi-Shrinkage Yarn (BSY) and Cationic Yarn are imported and others such as Filament Yarn, Bright Yarn, Nylon Mono Yarn, etc are procured locally. We also undertake jobwork activities to customise the products to suit the clients' requirements.

Customer satisfaction has been one of the key strengths of our Company. Our management and team has enables us to maintain continuing customer relations, ensuring repeat order flows. Similarly we have developed strong bonds with our suppliers. We are the only authorised representative for sales of yarns in Surat. of PT. Asia Pacific Fibers Tbk., a well-known Indonesian yarn manufacturing Company.

We aim to satisfy the needs of customers and give them value for their money by ensuring quality and a wide variety of products accompanied by technology development, involvement of our management team and dedication of our employees. We also desire to expand our business operations on PAN India basis.

Despite the severe competition and slowdown in economy, our Company has been able to maintain a consistent turnover. For the nine months ended as on December 31, 2015, our Company's Total Income and Restated Profit After Tax was Rs. 6,557.45 Lakhs and Rs. 14.94 Lakhs, respectively. For the year ended March 31, 2015, our Company's Total Income and Restated Profit After Tax was Rs. 10,505.09 Lakhs and Rs. 32.10 Lakhs respectively, compared to our Company's Total Income and Restated Profit After Tax of Rs. 10,460.15 Lakhs and Rs. 35.77 Lakhs respectively, over previous year ended i.e. March 31, 2014.

#### **COMPETITIVE STRENGTHS**

#### 1. In depth knowledge of Yarn

Our promoter, Rohitkumar Kapadia has an experience of more than four decades and our CEO Tejus Kapadia has an experience of more than a decade in the textile industry. Further, Tejus Kapadia has completed his Bachelor in Science from South Gujarat University and Postgraduate Diploma in Textile Industries from University of Leeds. With relevant qualifications and backed by experience, our management has believed to gain an in depth knowledge of our primary raw material and traded good i.e. yarn. The textile industry is an extremely competitive industry and there is always a chance of duplication of fabric designs and usage of yarns. The detailed knowledge of our CEO and experience of our management enables us to innovate and develop exclusive yarns, proving to be a distinctive competitive advantage in the industry in which we operate.

#### 2. Technological Advantage

We are in possession of Four-Bar Knitting Machine as against the commonly used Two-Bar Knitting Machine, which is one of the latest technologically forward machines used in knitting industry. The increased number of bars enables increased production capacity of the machines. Further our Company has recently, imported warping and knitting machinery which provides the benefits of latest international technologies in our production process. Our Company consciously dedicate resources to be technologically upgraded and has developed a scalable technology system.

#### 3. Quality and innovation

We procure yarn from domestic as well as from international markets. We take the initiative to approach our suppliers and discuss with them, the ways by which the raw materials can be improved in terms of quality. The suppliers implement our suggestions on yarn properties such as mix of Polymers, variation in deniers, elongation, shrinkage, etc. The synergy of efforts and knowledge between our yarn manufacturers and our team enables us to offer diverse and innovative varieties to our customers. We believe such continuing efforts provide us with a strong platform to build our market share and exclusivity in the textile industry. Further our company is focused on delivering qualitative and customer specific products and has developed in-house check processes at different level of operations.

#### 4. Sole Representative for a well known Indonesian Supplier

We are the sole authorized representative in Surat city for sale of yarns of a well known Indonesian Supplier. The type of yarns imported from this supplier is known as Bi-Shrinkage Yarn which is used in our manufacturing process of knitted fabrics and also supplied to other users. The specialty of this yarn is its ability to increase elongation, withstand shrinkage and immediate breakage. Such exclusive representation gives us an edge in the Surat textile market and makes us stand apart from other traders. It also helps us build a reputation in international market and develop confidence among our suppliers and customers.

#### 5. Customer Centric Business Model

Our Company focuses on attaining highest level of customer satisfaction. The progress achieved by us is largely due to our ability to address and exceed customer satisfaction. Our Company has always believed in assessing the changing consumer preferences from time to time and redesigning our products accordingly by continuously exploring new types of yarn, cloth and fabric.

#### 6. Diversified Product Range

Ever since our initiation, we have been engaged in trading, manufacturing and exporting of fabrics and yarn. We have a comprehensive portfolio of product offerings covering Polyester, Netting Fabrics, Raschel Knitted Fabrics, Viscose, etc. We believe our comprehensive range of products enables ourselves to capitalize on growth opportunities and demand in the textile industry. We also make fabrics according to the client specification. We supply our products across various textile processing entities and to few well-known garment and apparels brand.

#### 7. Locational Advantage

Our manufacturing facility is situated at Surat, Gujarat which is known as 'The Textile Hub of the Nation', thereby resulting in easy availability of transportation and intermediaries of the textile industry. Being situated in textile hub of the nation, we have a better absorbent market for the demand of our products. Further our manufacturing facility is situated at around 300 km away from Nhava Sheva port, Mumbai enabling us to import required goods at pace.

#### **BUSINESS STRATEGY**

Our vision is to provide customer satisfaction, by offering high qualitative products. In line with this vision, our Company is implementing a business strategy with the following key components. Our strategy will be to focus on capitalizing on our core strengths and expanding the operations of our business. We intend to focus on our existing business with specific emphasis on the following factors as business and growth strategy:

#### DETAILS OF THE MARKET MAKING ARRANGEMENT

Our Company and the Lead Manager have entered into a tripartite agreement dated June 3, 2016, with the following Market Maker, duly registered with BSE Limited to fulfil the obligations of Market Making:

#### **Rikhav Securities Limited**

35B, Matru Chhaya, S. N. Road, Mulund (West), Mumbai 400080 Tel: +91 22 2595353 Fax: +9122 25935300 E-mail: info@rikhav.net Website: www.rikhav.net Contact Person: Mr. Vishal Patel SEBI Registration No.: INB011280436 Market Maker Registration No. (SME Segment of BSE): SMEMM0317408052012

Rikhav Securities Limited, registered with SME segment of BSE will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of

three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, as amended from time to time and the circulars issued by BSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

- 1. The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
- 2. The minimum depth of the quote shall be Rs. 1,00,000/-. However, the investors with holdings of value less than Rs. 1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of 15/- the minimum lot size is 8,000 Equity Shares thus minimum depth of the quote shall be Rs. 1,20,000/- until the same, would be revised by BSE.
- 3. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the 96,000 Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2-way quotes.
- 4. There shall be no exemption / threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, BSE may intimate the same to SEBI after due verification.
- 5. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
- 6. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Rikhav Securities Limited is acting as the sole Market Maker.
- 7. The shares of the company will be traded in continuous trading session from the time and day the company gets listed on SME Platform of BSE and market maker will remain present as per the guidelines mentioned under BSE and SEBI circulars.
- 8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
- 9. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations. Further the Company and the Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional

Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particulars point of time. The Market Making Agreement is available for inspection at our Registered Office from 11.00 a.m. to 5.00 p.m. on working days.

- 10. BSE SME Exchange will have all margins which are applicable on the BSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE can impose any other margins as deemed necessary from time-totime.
- 11. BSE SME Exchange will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.

- 12. SEBI Circular bearing reference no: CIR/MRD/DP/02/2012 dated January 20, 2012, has laid down that for issue size up to Rs. 25,000 Lakhs, the applicable price bands for the first day shall be:
  - i. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
  - ii. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the issue price.

Additionally, the trading shall take place in TFT (Trade for Trade) segment for first 10 days from commencement of trading. The following spread will be applicable on the BSE SME Platform:

Sr. No.	Market Price Slab (in Rs.)	Proposed spread (in % to sale price)
1	Up to 50	9%
2	50 to 75	8%
3	75 to 100	6%
4	Above 100	5%

13. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs. 20 Crore	25%	24%
Rs. 20 crore to Rs. 50 crore	20%	19%
Rs. 50 to Rs. 80 crore	15%	14%
Above Rs. 80 crore	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI / BSE from time to time.

#### (ii) Details of Promoters' Contribution locked in for three years:

Pursuant to Regulation 32 and 36 of SEBI (ICDR) Regulations, an aggregate of 20% of the post-Issue capital held by our Promoter shall be considered as Promoters' Contribution ("Promoters Contribution") and locked-in for a period of three years from the date of Allotment. The lock-in of the Promoters' Contribution would be created as per applicable law and procedure and details of the same shall also be provided to the Stock Exchange before listing of the Equity Shares.

Our Promoters have given written consent to include such number of Equity Shares held by them and subscribed by them as a part of Promoters' Contribution constituting 20.51% of the post issue Equity Shares of our Company and have agreed not to sell or transfer or pledge or otherwise dispose of in any manner, the Promoters Contribution, for a period of three years from the date of allotment in the Issue.

Date of Allotment and made fully paid up / Transfer	No. of Shares Allotted / Transferred	Face Issue Value Price		Nature of Allotment	% of Post Issue shareholding	Lock in Period

May 6, 2016	11,20,000	10 15		Further Allotment by way of Conversion of Unsecured Loan	16.65%	3 years
Total	Total 13,80,000					

The minimum Promoters' contribution has been brought in to the extent of not less than the specified minimum lot and from the persons defined as 'promoter' under the SEBI (ICDR) Regulations. The Equity Shares that are being locked in are not ineligible for computation of Promoters' contribution in terms of Regulation 33 of the SEBI ICDR Regulations. In connection, we confirm the following:

- a. The Equity Shares offered for minimum 20% Promoters' contribution have not been acquired in the three years preceding the date of this Draft Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoters' contribution;
- b. The minimum Promoters' contribution does not include Equity Shares acquired during the one year preceding the date of this Draft Prospectus at a price lower than the Issue Price;
- c. Our Company has not been formed by the conversion of a partnership firm into a Company and thus, no Equity Shares have been issued to our Promoters upon conversion of a partnership firm;
- d. The Equity Shares held by the Promoters and offered for minimum Promoters' contribution are not subject to any pledge;
- e. All the Equity Shares of our Company held by the Promoter are in the process of being dematerialized; and
- f. The Equity Shares offered for Promoters' contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoter for inclusion of its subscription in the Promoters' contribution subject to lock-in.

#### (iii) Details of Equity Shares locked-in for one year

Other than the above Equity Shares that are locked in for three years, the entire pre-Issue Equity Share capital of our Company shall be locked-in for a period of one year from the date of allotment in the Public Issue.

#### (iv) Other requirements in respect of lock-in

Pursuant to Regulation 39 of the SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoters, as specified above, can be pledged only with scheduled commercial banks or public financial institutions as collateral security for loans granted by such scheduled commercial banks or public financial institution, provided that the pledge of the Equity Shares is one of the terms of the sanction of the loan.

Provided that securities locked in as Promoters' Contribution for 3 years under Regulation 36(a) of the SEBI (ICDR) Regulations may be pledged only if, in addition to fulfilling the above requirement, the loan has been granted by such scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Further, pursuant to Regulation 40 of the SEBI (ICDR) Regulations, the Equity Shares held by persons other than the Promoters prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 37 of the SEBI (ICDR) Regulations, along with the Equity Shares proposed to be transferred, provided that lock-in on such Equity Shares will continue for the remaining period with the transferee and such transferee shall not be eligible to transfer such Equity Shares till the lock-in period stipulated under the SEBI (ICDR) Regulations has ended, subject to compliance with the Takeover Code, as applicable

We further confirm that our Promoter's Contribution of 20.51% of the post Issue Equity Share capital does not include any contribution from Alternative Investment Fund.

#### **OBJECTS OF THE ISSUE**

Our Company proposes to utilize the net proceeds from the Issue towards funding the following objects and achieve the benefits of listing on the SME platform of BSE.

#### The object to the Issue is:

1. Working Capital requirements;

We believe that the listing of Equity Shares will enhance our Company's corporate image, brand name and create a public market for our Equity Shares in India.

The main objects clause of our Memorandum of Association and the objects incidental and ancillary to the main objects enables us to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the objects clause of our Memorandum of Association.

#### FUND REQUIREMENTS

The fund requirement and deployment is based on internal management estimates and our Company's current business plan and is subject to change in light of changes in external circumstances or costs, other financial conditions, business or strategy. These estimates have not been appraised by any bank or financial institution.

In view of the dynamic nature of the sector and specifically that of our business, we may have to revise our expenditure and fund requirements as a result of variations in cost estimates, exchange rate fluctuations and external factors which may not be within the control of our management. This may entail rescheduling and revising the planned expenditures and fund requirements and increasing or decreasing expenditures for a particular purpose at the discretion of our management, within the objects.

#### Means of Finance

The requirements of the objects detailed above are intended to be funded from the Proceeds of the Issue and Internal Accruals. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the proposed Issue.

#### **Utilisation of Net Proceeds**

The details of the Issue Proceeds are summarised below:

Particulars	Amount
	(Rs in Lakhs)
Issue Proceeds	272.40
Less: Issue related expenses*	45.00
Net Proceeds	227.40

\* As on date of the Draft Prospectus, our Company has incurred Rs. [•] lakhs towards Issue expenses.

We intend to utilise the Net Proceeds from the Issue, in the manner set below:

Sr.	Particulars	Amount	Percentage of net
No.		(Rs in Lakhs)	Issue
1.	Working Capital Requirements	227.40	100.00

While we intend to utilise the Issue Proceeds in the manner provided above, in the event of a surplus, we will use such surplus towards general corporate purposes including meeting future growth

requirements. In case of variations in the actual utilisation of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue. In the event of any shortfall in the Net Proceeds, we may explore a range of options including utilising our internal accruals and seeking additional debt from existing and future lenders.

## Working Capital Requirement

Our business is working capital intensive. We finance our working capital requirements from bank funding, internal accruals and other sources.

As on March 31, 2014 and March 31, 2015 our Company's net working capital consisted of Rs. 2,458.20 lakhs and Rs. 2,464.56 lakhs respectively, based on the restated financial statements.

Our Company proposes to utilize Rs. 222.40 lakhs of Net Proceeds towards working capital requirements for meeting our business requirements.

The incremental working capital requirements are based on historical Company data and estimation of the future requirements in Financial Year 2016-17 considering the growth in activities of our Company. Our Company has assumed raw material inventory of 0.30 month and finished goods inventory of 0.25 month for the Financial Year 2016-2017.

Our Debtors cycle was of about 2.42 months and 4.50 months in Financial Year 2013-14 and 2014-2015. Further, we expect our debtors circle to be 3.79 months in FY 2015-16. We have assumed that our debtor's cycle will be 3.25 months for Financial Year 2016-17. Similarly we have estimated current assets, trade payables, current liabilities and short term provisions in line with working capital employed in past years and expected to be employed in Financial Year 2015-16.

## Justification for "Holding Period" levels

The justifications for the holding levels mentioned in the table above are provided below:

Assets- Current Assets		
In FY 2016-17 we have assumed raw material and finise inventories inventory of around 0.30 month and 0.25 month respectively we similar lines for F.Y. 2015-16. As compared to FY 2014-1 expecting slightly higher inventory levels as the company increase its manufacturing operations.		
Trade receivables	In FY 2016-17 the trade receivable holding period is estimated to decrease from 3.79 months in F.Y. 2015-16 to 3.25 months as we strive to have a stringent debtor management policy.	
Liabilities– Current Liabilities		
Trade Payables	In FY 2016-17, the credit period is expected to be 1.50 months which is on similar lines of FY 2015-16. As compared to FY 2014-15 the Company will strive to adhere to stricter credit policy to achieve better and favourable pricing terms and to ensure continued relation with the existing suppliers.

#### INTRODUCTION: TEXTILE INDUSTRY

The history of textiles in India dates back to around 3000 BC where the use of mordant dyes and printing blocks was prevalent. The diversity of fibres found in India, intricate weaving on its state-of the art manual looms and its organic dyes attracted buyers from all over the world for centuries. However, the industry faced a setback during British colonisation, when the industrial policies destroyed the innovative eco-system and left it technologically impoverished. Independent India saw the building up of textile capabilities, diversification of the product base, and the emergence of the industry, once again, as an important global player.

The Indian textiles and apparels industry is one of the oldest industries in India having evolved impressively from a domestic small scale industry to one of the largest in the world with a massive raw material and textiles manufacturing base. It is also one of the largest and most important sectors of the Indian economy in terms of output, foreign exchange earnings and employment thus contributing greatly to the exchequer. The sector has a unique position as a self-reliant industry, from the production of raw materials to the delivery of finished products, with substantial value-addition at each stage of processing. Its vast potential for creation of employment opportunities in the agricultural, industrial, organised and decentralised sectors & rural and urban areas, particularly for women and the disadvantaged is noteworthy. Thus, the growth and all round development of this sector has a direct bearing on the development of the economy.

In 2013 the Indian textile industry contributed about 14% to the Index of Industrial Production, 4% to the country's GDP and 17% to the country's export earnings. Around 8% of the total excise revenue collection is contributed by the textile industry. The industry currently estimated at around US \$108 billion, is expected to reach US \$ 141 billion by 2021. Given these facts and the strong backward and forward linkages of the sector with other manufacturing industries, the industry is of high focus for the Government and Industry.

# **TEXTILE AND APPAREL INDUSTRY - OVERVIEW**

The textile and apparel industry can be broadly divided into two segments yarn and fibre, and processed fabrics and apparel. India accounts for ~14 per cent of the world's production of textile fibres and yarns (largest producer of jute, second largest producer of silk and cotton, and third largest in cellulosic fibre). India has the highest loom capacity (including hand looms) with 63 per cent of the world's market share.

The domestic textile and apparel industry in India is estimated to reach US\$ 141 billion by 2021 from US\$ 67 billion in 2014. Increased penetration of organised retail, favourable demographics, and rising

income levels are likely to drive demand for textiles. India is the world's second largest exporter of textiles and clothing.

Textile and apparel exports from India are expected to increase to US\$ 82 billion by 2021 from US\$ 40 billion in 2014. Readymade garments remain the largest contributor to total textile and apparel exports from India. In FY15 the segment had a share of 40 per cent of all textile and apparel exports. Cotton and manmade textiles were the other major contributors with shares of 31 per cent and 16 per cent, respectively.

Rising government focus and favourable policies is leading to growth in the textiles and clothing industry. Foreign direct investment (FDI) in textile sector increased to US\$ 1,587.8 million in FY15 from US\$ 1,424.9 million in FY14. The Ministry of Textiles is encouraging investments through increasing focus on schemes such as Technology Up gradation Fund Scheme (TUFS). To promote apparel exports, 12 locations have been approved by the government to set up apparel parks for exports. As per the 12th Five Year Plan, the Government plans to provide a budgetary support of US\$ 4.25 billion to textiles. Free trade with ASEAN countries and proposed agreement with European Union will also help boost exports.

# APPROACH TO INDUSTRY ANALYSIS

Analysis of Synthetic Textile Industry needs to be approached at both macro and micro levels, whether for domestic or global markets. Textile Industry forms part of Manufacturing Sector at a macro level. Hence, broad picture of Manufacturing Sector should be at preface while analysing the Textile Industry.

Manufacturing sector comprises various industries, which in turn, have numerous sub-classes or products. One such major industry in the overall Manufacturing sector is 'Textile Industry', which in turn encompasses various components one of them being "Knitted Fabric Segment".

Thus, Knitted Fabric Segment should be analysed in the light of 'Textile industry' at large. An appropriate view on Knitted Fabric Segment, then, calls for the overall economy outlook, performance and expectations of Manufacturing Sector, position of Textile Industry and micro analysis.

This Approach Note is developed by Pantomath Capital Advisors Private Limited ('Pantomath') and any unauthorized reference or use of this Note, whether in the context of Textile Industry and/or any other industry, may entail legal consequences.

# GLOBAL ECONOMIC ENVIRONMENT

# **INTRODUCTION**

Since the Economic Survey and Budget were presented a year ago, the Indian economy has continued to consolidate the gains achieved in restoring macro-economic stability. Inflation, the fiscal deficit, and the current account deficit have all declined, rendering India a relative haven of macro stability in these turbulent times. Economic growth appears to be recovering, albeit at varying speeds across sectors.

At the same time, the upcoming Budget and 2016-17 (FY-2017) economic policy more broadly, will have to contend with an unusually challenging and weak external environment. Although the major international institutions are yet again predicting that global growth will increase from its current subdued level, they assess that risks remain tilted to the downside. This uncertain and fragile outlook will complicate the task of economic management for India.

The risks merit serious attention not least because major financial crises seem to be occurring more frequently. The Latin American debt crisis of 1982, the Asian Financial crisis of the late 1990s, and the Eastern European crisis of 2008 suggested that crises might be occurring once a decade. But then the rapid succession of crises, starting with Global Financial Crisis of 2008and proceeding to the prolonged European crisis, the mini-crises of 2013, and the China provoked turbulence in 2015 all hinted that the intervals between events are becoming shorter.

This hypothesis could be validated in the immediate future, since identifiable vulnerabilities exist in at least three large emerging economies—China, Brazil, Saudi Arabia—at a time when underlying growth and productivity developments in the advanced economies are soft. More flexible exchange rates, however, could moderate full-blown eruptions into less disruptive but more prolonged volatility.

One tail risk scenario that India must plan for is a major currency re-adjustment in Asia in the wake of a similar adjustment in China; as such an event would spread deflation around the world. Another tail risk scenario could unfold as a consequence of policy actions—say, capital controls taken to respond to curb outflows from large emerging market countries, which would further moderate the growth impulses emanating from them.

In either case, foreign demand is likely to be weak, forcing India—in the short run—to find and activate domestic sources of demand to prevent the growth momentum from weakening. At the very least, a tail risk event would require Indian monetary and fiscal policy not to add to the deflationary impulses from abroad. The consolation would be that weaker oil and commodity prices would help keep inflation and the twin deficits in check.

# GLOBAL ECONOMIC OVERVIEW

The global macroeconomic landscape is currently chartering a rough and uncertain terrain characterized by weak growth of world output. The situation has been exacerbated by; (i) declining prices of a number of commodities, with reduction in crude oil prices being the most visible of them, (ii) turbulent financial markets (more so equity markets), and (iii) volatile exchange rates. These conditions reflect extreme risk-aversion behaviour of global investors, thus putting many, and in particular, commodities exporting economies under considerable stress.

One important positive outcome in 2015 is the modest pickup in the growth of some of the advanced economies. However, growth in emerging market and developing economies declined for the fifth consecutive year. As a result, overall global economic activity remained subdued in 2015. In its latest Update of the World Economic Outlook (WEO), published on 19 January 2016, the IMF projected growth in the global economy to improve from 3.1 per cent in 2015, to 3.4 per cent in 2016 and

further to 3.6 per cent in 2017. Growth in advanced economies is projected at 2.1 per cent in 2016 and to continue through 2017 at the same rate.

The slowdown and rebalancing of the Chinese economy, lower commodity prices, and strains in some large Emerging Market and Developing economies (EMDE) are likely to continue to weigh on their growth prospects in 2016–17. Assessments indicate that mixed inflation developments in the EMDEs reflect the conflicting implications of weak domestic demand and lower commodity prices versus marked currency depreciations over the past year. The WEO update also indicated that India and the rest of emerging Asia are bright spots, with some other countries facing strong headwinds from China's economic rebalancing and global manufacturing weakness. World trade volume growth projections have been placed at 2.6 per cent and 3.4 per cent respectively for 2015 and 2016, which is much lower than what was estimated earlier in WEO in October 2015.

# **GLOBAL OUTLOOK FOR GROWTH**

One important positive outcome in 2015 was the modest pick-up in growth in some of the advanced economies. It might be recalled that after falling in 2009 due to the 2008 global financial crisis, growth in emerging and developing economies rebounded in 2010 and 2011. While advanced economies also exhibited a recovery in 2010 thanks to the large stimuli, global growth continued to be tepid relative to the average of the decade ending 2006, largely on account of the slowdown in advanced economies. Spill over effects of the crisis may have been large, prolonged and bi-directional, given that the global integration is far greater than in the prior decade. This has made the task of projecting global economic outlook arduous. This uncertainty has led to the International Monetary Fund (IMF) revising the global growth outlook in its World Economic Outlook (WEO) four times a year since 2009.

In its latest WEO Update, published on 19 January 2016, the IMF has projected growth in the global economy to go up from 3.1 per cent in 2015 to 3.4 per cent in 2016 and further to 3.6 per cent in 2017, slightly lower than the projection published in October 2015. Growth in advanced economies is revised by 0.2 percentage points in 2016 to 2.1 per cent, to continue through 2017. Growth in the US is expected to remain resilient owing to strengthening of the housing and labour markets. Growth in the euro area is expected to increase due to stronger private consumption supported by lower oil prices and easy financial conditions is expected to outweigh the weakening in net exports. Growth in Japan is also expected to consolidate in 2016, on the back of fiscal support, lower oil prices, accommodative financial conditions, and rising incomes.

Overall global economic activity remained subdued in 2015, as growth in emerging market and developing economies (EMDE) declined for the fifth consecutive year and recovery in advanced economies was modest. This is also attributable to the changing composition of the global economy and relative point contributions to global growth. The fall in the contribution of the EMDEs is not being made good by the advanced economies. A recent feature is that the Chinese economy is gradually slowing down and is transitioning from investment demand to consumption demand and from manufacturing to services. The concern over the spill over's of subdued global growth to other economies through trade channels and weaker commodity prices is manifest in diminishing confidence and increasing volatility in financial markets. In addition, a dual monetary policy-a gradual tightening in monetary policy in the US in the backdrop of its resilient recovery and easy monetary policy in several other major advanced economies has led to continued uncertainties and poses challenges for the year ahead. In the case of EMDEs, growth remained subdued at 4 per cent in 2015, but is projected to increase to 4.3 per cent in 2016 and 4.7 per cent in 2017. The slowdown and rebalancing of the Chinese economy, lower commodity prices, and strains in some large emerging market economies will continue to weigh on growth prospects in 2016-17. Assessments indicate that mixed inflation developments in EMDEs reflect the conflicting implications of weak domestic demand and lower commodity prices versus marked currency depreciations over the past year.

The 19 January WEO Update also indicated that India and the rest of emerging Asia are bright spots, albeit with some countries facing strong headwinds from China's economic rebalancing and global

manufacturing weakness. The IMF's growth forecast for India is 7.5 per cent in 2016 and 2017 and this surpasses the projection of 6.3 per cent and 6.0 per cent respectively for China. The level of global economic activity has a significant and direct bearing on the growth prospects of the emerging economies through trade channels. As per the Update, world trade volume growth projections have been placed at 3.4 per cent and 4.1 per cent respectively for 2016 and 2017 lower by 0.7 percentage points to 0.5 percentage point respectively from WEO, October 2015. The World Bank's Report on Global Economic Prospects (January 2016) also estimated that India will grow by a robust 7.8 per cent in 2016 and 7.9 per cent in the following two years. Compared to other major developing countries, the report maintained that India is well positioned to withstand near-term headwinds and volatility in global financial markets due to reduced external vulnerabilities, a strengthening domestic business cycle, and a supportive policy environment.

# THE INDIAN ECONOMY

The Indian economy has continued to consolidate the gains achieved in restoring macroeconomic stability. A sense of this turnaround is illustrated by a cross-country comparison. In last year's Survey, we had constructed an overall index of macroeconomic vulnerability, which adds a country's fiscal deficit, current account deficit, and inflation. This index showed that in 2012 India was the most vulnerable of the major emerging market countries. Subsequently, India has made the most dramatic strides in reducing its macro-vulnerability. Since 2013, its index has improved by 5.3 percentage points compared with 0.7 percentage points for China, 0.4 percentage points for all countries in India's investment grade (BBB), and a deterioration of 1.9 percentage points in the case of Brazil (Figure 2).

If macro-economic stability is one key element of assessing a country's attractiveness to investors, its growth rate is another. In last year's Survey we had constructed a simple Rational Investor Ratings Index (RIRI) which combined two elements, growth serving as a gauge for rewards and the macro-economic vulnerability index proxying for risks. The RIRI is depicted in Figure 3; higher levels indicate better performance. As can be seen, India performs well not only in terms of the change of the index but also in terms of the level, which compares favourably to its peers in the BBB investment grade and even its "betters" in the A grade1.As an investment proposition, India stands out internationally.

# **REVIEW OF MAJOR DEVELOPMENTS IN INDIAN ECONOMY**

In the Advance Estimates of GDP that the Central Statistics Office (CSO) released recently, the growth rate of GDP at constant market prices is projected to increase to 7.6 per cent in 2015-16 from 7.2 per cent in 2014-15, mainly because private final consumption expenditure has accelerated. Similarly, the growth rate of GVA for 2015-16 is estimated at 7.3 per cent vis-à-vis 7.1 per cent in 2014-15. Although agriculture is likely to register low growth for the second year in a row on account of weak monsoons, it has performed better than last year. Industry has shown significant improvement

primarily on account of the surprising acceleration in manufacturing (9.5 per cent vis-à-vis 5.5 per cent in 2014-15). Meanwhile, services continue to expand rapidly.

- Even as real growth has been accelerating, nominal growth has been falling, to historically low levels, an unusual trend highlighted in the Mid-Year Economic Analysis (MYEA), 2015-16.
- According to the Advance Estimates, nominal GDP (GVA) is likely to increase by just 8.6 (6.8) percent in 2015-16.
- In nominal terms, construction is expected to stagnate, while even the dynamic sectors of trade and finance are projected to grow by only 7 to 73/4 percent.
- Inflation remains under control The CPI-New Series inflation has fluctuated around 51/2 percent, while measures of underlying trends—core inflation, rural wage growth and minimum support price increases—have similarly remained muted. Meanwhile, the WPI has been in negative territory since November 2014, the result of the large falls in international commodity prices, especially oil. As low inflation has taken hold and confidence in price stability has improved, gold imports have largely stabilized, notwithstanding the end of a period of import controls
- Similarly, the external position appears robust. The current account deficit has declined and is at comfortable levels; foreign exchange reserves have risen to US\$351.5 billion in early February 2016, and are well above standard norms for reserve adequacy; net FDI inflows have grown from US\$21.9 billion in April-December 2014-15 to US\$27.7 billion in the same period of 2015-16; and the nominal value of the rupee, measured against a basket of currencies, has been steady. India was consequently well-positioned to absorb the volatility from the U.S. Federal Reserve actions to normalize monetary policy that occurred in December 2015. Although the rupee has declined against the dollar, it has strengthened against the currencies of its other trading partners.
- The fiscal sector registered three striking successes: on-going fiscal consolidation, improved indirect tax collection efficiency; and an improvement in the quality of spending at all levels of government.
- Government tax revenues are expected to be higher than budgeted levels. Direct taxes grew by 10.7 per cent in the first 9 months (9M) of 2015-16. Indirect taxes were also buoyant. In part, this reflected excise taxes on diesel and petrol and an increase in the Swachh Bharat cess. The central excise duty collection from petroleum products during April to December 2015-16 recorded a growth of 90.5 per cent and stood at Rs.1.3 lakh crore as against Rs. 0.7 lakh crore in the same period last year. Tax performance also reflected an improvement in tax administration because revenues increased even after stripping out the additional revenue measures (ARMs). Indirect tax revenues grew by 10.7 per cent (without ARMs) and 34.2 per cent (with ARMs).
- The main findings are that a welcome shift in the quality of spending has occurred from revenue to investment, and towards social sectors. Aggregate public investment has increased by about 0.6 per cent of GDP in the first 8 months of this fiscal year, with contributions from both the Centre (54 per cent) and states (46 per cent).

# DEVELOPMENTS IN THE CAPITAL MARKET

# PRIMARY MARKET

In 2015-16 (April-December), resource mobilization through the public and right issues has surged rapidly as compared to the last financial year. During 2015-16 (April- December), 71 companies have accessed the capital market and raised Rs.51,311 crore, compared to Rs.11,581 crore raised through 61 issues during the corresponding period of 2014-15.

The small and medium enterprises (SME) platform of the stock exchange is intended for small and medium sized companies with high growth potential, whose post issue paid-up capital is less than or equal to Rs. 25 crore. During 2015-16 (April- December), 32 companies were listed on the SME platform, raising a total amount of Rs.278 crore as compared to Rs.229 crore raised through 28 issues in the corresponding period of 2014-15.

Resources mobilized by mutual funds during April-December 2015 also increased substantially to Rs.1,61,696 crore from Rs.87,942 crore mobilized during the same period of the previous year.

# SECONDARY MARKET

During 2015-16 so far, the Indian securities market has remained subdued (Figure 3.9). The Bombay Stock Exchange (BSE) Sensex declined by 8.5 per cent (upto 5 January 2016) over end-March 2015, mainly on account of turmoil in global equity markets in August 2015 following slowdown in China and its currency devaluation and slump in stocks. On 4 January 2016, weak Chinese manufacturing data again led to a global sell-off which caused the BSE Sensex also to decline by 538 points (2.1per cent). The downward trend in the Indian stock market was also guided by mixed corporate earnings for Q1 and Q2 of 2015- 16, FPIs' concern over minimum alternative tax (MAT), weakening of the rupee against the US dollar, investor concern over delay in passage of the Goods and Services Tax(GST) Bill, uncertainty over interest rate hike by US Fed and selling by FPIs. However, the Indian equity market has been relatively resilient during this period compared to the other major EMEs. The Indian stock market withstood the US Fed increase in interest rates in December 2015.

# INDUSTRIAL PERFORMANCE

The Index of Industrial Production (IIP) which provides quick estimates of the performance of key industrial sectors has started showing upward momentum. As per IIP, the industrial sector broadly comprising mining, manufacturing and electricity attained 3.1 per cent growth during April-December 2015-16 as compared to 2.6 per cent during the same period of 2014- 15 due to the higher growth in mining and manufacturing sectors (Table 6.1). The mining, manufacturing and electricity sectors grew by 2.3 per cent, 3.1 per cent, and 4.5 per cent respectively during April-December 2015-16. The mining sector growth was mainly on account of higher coal production. The manufacturing sector was propelled by the higher production by the industry groups like furniture; wearing apparel, dressing and dyeing of fur; motor vehicles, trailers & semitrailers; chemicals and chemical products; refined petroleum products & nuclear fuel; and wood& products of wood. The growth in electricity is mainly contributed by higher growth in generation of thermal and nuclear sector.

In terms of use based classification, consumer durable goods have witnessed a remarkable growth at 12.4 per cent during April-December 2015-16. Basic goods and capital goods have registered 3.4 per cent and 1.7 per cent growth with intermediate goods by 1.9 per cent (Table 6.1).

The eight core infrastructure supportive industries, coal, crude oil, natural gas, refinery products, fertilizers, steel, cement and electricity that have a total weight of nearly 38 per cent in the IIP, registered a cumulative growth of 1.9 per cent during April-December 2015-16 as compared to 5.7 per cent during April-December 2014-15. Month-wise performance of the eight core sectors shows that the production of coal and fertilizers have increased substantially, while that of crude oil, natural gas and steel have mostly been negative. Refinery products, cement and electricity have attained moderate growth. Clearances for coal projects have facilitated production of coal. Crude oil and natural gas production declined because of a fall in production by Oil and Natural Gas Corporation (ONGC), Oil India Limited (OIL) and also private/joint venture (JV) companies in different months. In electricity generation, while the thermal and nuclear sectors have registered higher growth, the hydro sector has not performed well.

Table 6.1 depicts three months moving average month-on-month (M-o-M) growth of the IIP, manufacturing and eight core industries. The growth in industrial production, manufacturing sector and the eight core sectors started picking up again in December 2015. It is expected that the uptick in growth rate will be maintained due to revival in manufacturing production.

While the overall IIP has shown recovery, there is variation in the performance of some of the major industries during April-December 2015. While some sectors like electricity, coal, fertilizers, cement and passenger cars have shown positive growth, sectors like steel and aluminium have shown negative growth during April-December 2015.

# MICRO SMALL AND MEDIUM ENTERPRISES SECTOR

With 3.6 crore units spread across the country, that employ 8.05 crore people, Micro, Small and Medium Enterprises (MSME) have a contribution of 37.5 per cent to the country's GDP. The sector has huge potential for helping address structural problems like unemployment, regional imbalances, unequal distribution of national income and wealth across the country. Due to comparatively low capital costs and their forward-backward linkages with other sectors, MSMEs will play a crucial role in the success of the Make in India initiative.

Realizing the importance of the MSME sector, the government has undertaken a number of schemes/programmes like the Prime Minister's Employment Generation Programme (PMEGP), Credit Guarantee Trust Fund for Micro and Small Enterprises (CGTMSE), Credit Linked Capital Subsidy Scheme (CLCSS) for Technology Up gradation, Scheme of Fund for Regeneration of Traditional Industries (SFURTI), and Micro and Small Enterprises- Cluster Development Programme

(MSECDP) for the establishment of new enterprises and development of existing ones. Some of the new initiatives undertaken by the government for the promotion and development of MSMEs are as follows:

- Udyog Aadhar Memorandum (UAM): The UAM scheme, which was notified in September 2015 under section 8 of the MSME Development Act 2006, is a path-breaking step to promote ease of doing business for MSMEs. Under the scheme, MSME entrepreneurs just need to file an online entrepreneurs' memorandum to instantly get a unique Udyog Aadhaar Number (UAN). The information sought is on self-certification basis and no supporting documents are required. This marks a significant improvement over the earlier complex and cumbersome procedure.
- Employment Exchange for Industries: To facilitate match making between prospective job seekers and employers an employment exchange for industries was launched on June 15, 2015 in line with Digital India. More than 3.42 lakh job seekers have been registered on the portal as on December 30, 2015.
- Framework for Revival and Rehabilitation of MSMEs: Under this framework, which was notified in May 2015, banks have to constitute a Committee for Distressed MSME enterprises at zonal or district level to prepare a Corrective Action Plan (CAP) for these units.
- A scheme for Promoting Innovation and Rural Entrepreneurs (ASPIRE): ASPIRE was launched on March 16, 2015 with the objective of setting up a network of technology centres and incubation centres to accelerate entrepreneurship and promote start-ups for innovation and entrepreneurship in rural and agriculture based industry.

In addition, the government intends to provide more credit to MSME sectors, especially in the rural areas, focusing on skill development, encouraging entrepreneurial activities with optimistic mindset among rural youth and creating job opportunities among rural women, for high, inclusive and sustained industrial growth

# **OUTLOOK FOR GROWTH**

Real GDP growth for 2015-16 is expected to be in the 7 to 7<sup>3/4</sup>range, reflecting various and largely offsetting developments on the demand and supply sides of the Indian economy. Before analysing these factors, however, it is important to step back and note one important point. India's long-run potential GDP growth is substantial, about 8-10 percent. But its actual growth in the short run will also depend upon global growth and demand. After all, India's exports of manufactured goods and services now constitute about 18 percent of GDP, up from about 11 percent a decade ago.

Reflecting India's growing globalization, the correlation between India's growth rate and that of the world has risen sharply to reasonably high levels. For the period 1991-2002 this correlation was 0.2. Since then, the correlation has doubled to 0.42. In other words, a 1 percentage point decrease in the world growth rate is now associated with a 0.42 percentage point decrease in Indian growth rates.

Accordingly, if the world economy remains weak, India's growth will face considerable headwinds. For example, if the world continues to grow at close to 3 percent over the next few years rather than returning to the buoyant  $4-4\frac{1}{2}$  per cent recorded during 2003-2011, India's medium-term growth trajectory could well remain closer to  $7-7\frac{1}{2}$  per cent, notwithstanding the government's reform initiatives, rather than rise to the 8-10 per cent that its long-run potential suggests. In other words, in the current global environment, there needs to be a recalibration of growth expectations and consequently of the standards of assessment.

Turning to the outlook for 2016-17, we need to examine each of the components of aggregate demand: exports, consumption, private investment and government.

• To measure the demand for India's exports, we calculate a proxy-weighted average GDP growth rate of India's export partners. The weights are the shares of partner countries in India's exports of goods and services. We find that this proxy for export demand growth declined from 3.0

percent in 2014 to 2.7 per cent in 2015, which helps explain the deceleration in India's non-oil exports, although the severity of the slowdown—in fact, a decline in export volume—went beyond adverse external developments. Current projections by the IMF indicate that trading partner growth this demand will improve marginally this year to about 2.8 percent. But the considerable downside risks suggest that it would be prudent not to count on a big contribution to GDP growth from improving export performance.

- On the domestic side, two factors could boost consumption. If and to the extent that the Seventh Pay Commission (7th PC) is implemented, increased spending from higher wages and allowances of government workers will start flowing through the economy. If, in addition, the monsoon returns to normal, agricultural incomes will improve, with attendant gains for rural consumption, which over the past two years of weak rains has remained depressed.
- Against this, the disappearance of much of last year's oil windfall would work to reduce consumption growth. Current prospects suggest that oil prices (Indian crude basket) might average US\$ 35 per barrel next fiscal year compared with US\$ 45 per barrel in 2015-16. The resulting income gain would amount roughly equivalent to 1 percentage point of GDP an 18 per cent price decline times a share of net oil imports in GDP of 6 percent. But this would be half the size of last year's gain, so consumption growth would slow on this account next year.
- According to analysis done by Credit Suisse, (non-financial) corporate sector profitability has remained weak, falling by 1 percent in the year to December 2015. This decline reflected a sharp deterioration in the financial health of the metals—primarily steel—companies, which have now joined the ranks of companies under severe financial stress. As a result, the proportion of corporate debt owed by stressed companies, defined as those whose earnings are insufficient to cover their interest obligations, has increased to 41 percent in December 2015, compared to 35 percent in December 2014.3 In response to this stress, companies have once again been compelled to curb their capital expenditures substantially.
- Finally, the path for fiscal consolidation will determine the demand for domestic output from government. The magnitude of the drag on demand and output will be largely equal to the size of consolidation, assuming a multiplier of about 1.
- There are three significant downside risks. Turmoil in the global economy could worsen the outlook for exports and tighter financial conditions significantly. Second, if contrary to expectations oil prices rise more than anticipated, this would increase the drag from consumption, both directly, and owing to reduced prospects for monetary easing. Finally, the most serious risk is a combination of the above two factors. This could arise if oil markets are dominated by supply-related factors such as agreements to restrict output by the major producers.
- The one significant upside possibility is a good monsoon. This would increase rural consumption and, to the extent that it dampens price pressures, open up further space for monetary easing.
- Putting these factors together, we expect real GDP growth to be in the 7 to 7 <sup>3/4</sup> per cent range, with downside risks because of on-going developments in the world economy. The wider range in the forecast this time reflects the range of possibilities for exogenous developments, from a rebound in agriculture to a full-fledged international crisis; it also reflects uncertainty arising from the divergence between growth in nominal and real aggregates of economic activity.

# INDIA'S INCREASING IMPORTANCE TO GLOBAL GROWTH

Despite global headwinds and a truant monsoon, India registered robust growth of 7.2 per cent in 2014-15 and 7.6 per cent in 2015-16, thus becoming the fastest growing major economy in the world. As per the estimates of the International Monetary Fund (IMF), global growth averaged 3.1 per cent in 2015, declining from 3.4 per cent registered in 2014. While growth in advanced economies has improved modestly since 2013, the emerging economies have witnessed a consistently declining trend

in growth rate since 2010. It is against this background that the recent Indian growth story appears particularly bright.

India has made striking progress in its contribution to the global growth of Gross Domestic Product (GDP) in Purchasing Power Parity (PPP) terms. PPP represents the number of units of a country's currency required to purchase the same amount of goods and services in the domestic market as the US dollar would purchase in the United States, thus adjusting for purchasing power differentials between currencies in relevant markets. India's contribution to global growth in PPP terms increased from an average of 8.3 per cent during the period 2001 to 2007 to 14.4 per cent in 2014. During the 1990s, the US's contribution to the global GDP growth in PPP terms was, on an average, around 16 percentage points higher than India's. The picture changed dramatically in 2013 and 2014 when India's contribution was higher than that of the US by 2.2 and 2.7 percentage points respectively. During 1991-2014, low growth in Japan (0.9 per cent annually) resulted in its low contribution (1.5 per cent) to global growth. India and China constitute 42.5 per cent and 53.2 per cent respectively of the total PPP measure of the lower-middle income countries and upper-middle income countries; and hence those country groups largely reflect India's and China's patterns.

The global economy—in particular the global growth powerhouse, China—is rebalancing, leading to an increasing role for India. After the onset of the multiple crises in different parts of the world, India's contribution has become much more valuable to the global economy.

India's share in world GDP has increased from an average of 4.8 per cent during 2001-07 to 6.1 per cent during 2008-13 and further to an average of 7.0 per cent during 2014 to 2015 in current PPP terms (IMF). India's resilience and current levels of reasonably strong growth should, thus, be appreciated in the light of its increasing contribution to global growth.

# GLOBAL MANUFACTURING SECTOR

#### World manufacturing growth in the fourth quarter of 2015

World manufacturing growth slowed down further in the fourth quarter of 2015, with growth rates in both industrialized and developing economies decreasing. Weak business investment and sluggish consumer demand are among the major causes of the deceleration of global manufacturing output growth.

Growth in major emerging industrial economies has weakened, continuing the trend of the first quarter of 2014. China's slowdown and the sharp decline in manufacturing output of Latin American economies are the primary causes for the country group's weaker growth rate. The fall in commodity prices has affected some key emerging commodity export-dependent countries, namely Brazil and South Africa, and has resulted in currency depreciation.

The upturn in manufacturing growth observed in industrialized economies in the third quarter of 2015 did not continue in the fourth quarter of 2015, and this country group's production output decreased significantly. The slowdown in Europe and North America, along with a further decline in East Asian economies, resulted in a sharp deceleration in the country group's manufacturing output growth. In the United States, manufacturing exports slowed as a result of the strong US dollar and the low oil prices. Continued decline in China has also weakened Chinese demand for imports from Europe.

Global manufacturing output growth rose by merely 1.9 per cent in the fourth quarter of 2015, down from a 2.6 per cent revised growth estimate in the third quarter. Slow investment growth, lower commodity and energy prices, weak global demand and geopolitical tensions are among the main causes of the overall flat-lining growth. However, these factors are having different effects on different economies. For example, favourable oil prices have reduced the business costs in oil importing countries, especially in industrialized economies, while oil exporting economies have been subject to increasing financial pressure.

The manufacturing output of industrialized countries rose by 0.2 per cent in the fourth quarter of 2015. This slow growth is attributable to a mixture of weaker growth figures in the United States and Europe and a decline in East Asia's manufacturing output. The question of the robustness of recovery in industrialized economies has been raised in earlier quarterly reports.

The growth of manufacturing output in developing and emerging industrial economies decreased to 4.6 per cent, down from 5.2 per cent growth in the previous quarter. The growth outlook varies between different developing and emerging regions and groups; e.g. manufacturing output grew by 6.1 per cent in developing countries in Asia and the Pacific compared to the same period of the previous year, while it declined by 4.0 per cent in the Latin America region. Manufacturing output has also declined slightly (0.2 per cent) in Africa.

Despite the slower pace of growth, developing and emerging industrial economies were the main drivers of global manufacturing growth. Their combined contribution to global manufacturing growth was around 80 per cent. This indicates the significance of manufacturing activities within the group for the overall global picture.

#### **Industrialized economies**

The overall growth trend of industrialized countries decelerated significantly in the last quarter of 2015. Manufacturing output rose by a mere 0.2 per cent compared to the same period of the previous year, down from 1.0 per cent growth observed in the previous quarter.

The European economy grew by 0.6 per cent in the fourth quarter of 2015 compared to the same quarter of the previous year. Yet, the manufacturing output of the euro zone economies rose by 1.5 per cent. As revealed by the figures, Switzerland recorded a 14.7 per cent decline in manufacturing output and dragged down the overall growth rate of industrialized Europe. The consequences of the Swiss franc-euro exchange rate became more visible in the last two quarters of 2015 and have affected the country's exports, which have become more expensive for consumers.

The industrial production index in North America rose by 0.9 per cent in the fourth quarter of 2015 on account of the growth of manufacturing output in the Unites States. Despite this, the growth of the US manufacturing sector has weakened, rising by only 1.1 per cent as overseas demand remained slow. A strong US dollar hit exports and domestic sales of American manufactured products, indicating a loss in competitiveness to cheaper imported goods. In addition, demand for machinery goods from the energy sector declined due to lower oil prices. Manufacturing output dropped by 1.0 per cent in Canada due to the decline in petroleum and coal prices.

In East Asia, negative growth rates were observed in the major economies, namely Japan, the Republic of Korea and Singapore, in the fourth quarter of 2015, declining by 0.6 per cent, 0.6 per cent and 6.8 per cent, respectively. On the other hand, manufacturing output rose by 4.9 per cent in Malaysia compared to the same period of the previous year.

As already mentioned, Europe's overall growth rate was dragged down by a significant decline in the Swiss economy. This has increased the gap between the output growth of the euro zone and of Europe as a whole, with euro zone countries registering a much higher manufacturing growth due to lower energy prices and a weaker euro. Growth was especially strong in Ireland (15.7 per cent), in Slovakia (7.3 per cent) and in Spain (5.8 per cent).

Across non-euro countries, manufacturing output declined in Norway, Switzerland and the United Kingdom. The downturn in Norway by 7.6 per cent is attributed to a decrease in the production of oiland gas-related industries. The setback in the UK's manufacturing sector by 1.0 per cent resulted from a strong currency and weak global demand. At the same time, the output of manufacturing activities increased by 3.9 per cent in the Czech Republic, by 9.4 per cent in Hungary, and 3.7 per cent in Sweden in the fourth quarter of 2015. The manufacture of motor vehicles was the main driver of growth in Hungary's manufacturing sector.

The decline in the Russian Federation's manufacturing sector continued, with output decreasing by 5.7 per cent and currency depreciation deteriorating.

Despite the overall positive growth in industrialized economies as a whole, growth rates remained low. Appropriate monetary policies are required that can boost demand and increase investment.

#### **Developing and emerging industrial economies**

A decrease in the growth rate of manufacturing output in developing and emerging industrial economies continued in the fourth quarter of 2015. Industrial production rose by 4.6 per cent as a result of the relatively lower growth in Asian economies (mainly China) and a notable decline in Latin America. Growth in emerging economies, excluding China, continued to decelerate.

As mentioned in earlier reports, China is in a transition period of shifting its economy from the manufacturing sector towards the services sector. As a result of the structural change in the economy, China's manufacturing output rose by 6.5 per cent in the fourth quarter of 2015, the slowest growth rate since 2005 and down from 7.0 per cent in the previous quarter. Recently, the Government of China announced the two-child policy, which could accelerate economic growth in the near future. This will significantly boost internal demand for consumer goods within the country.

The Latin America region is struggling to overcome a deep recession as demonstrated by the decline in manufacturing output by 4.0 per cent in the fourth quarter, lower than the 2.9 per cent drop recorded in the previous quarter. The industrial production index decreased in nearly all economies with the exception of Mexico, where output grew by 2.2 per cent on a year-to-year basis. In Brazil, the recession continued and manufacturing output fell by 12.4 per cent in the fourth quarter of 2015 as

the internal political crisis remained unresolved and commodity prices declined. Among the other major economies in the region, manufacturing output dropped by 0.9 per cent in Argentina, by 1.5 per cent in Chile, by 0.4 per cent in Columbia and by 0.8 per cent in Peru.

Manufacturing output fell slightly in Africa (by 0.2 per cent); however, negative growth has only been observed in one country in the region while the rest of the region registered positive growth figures. Manufacturing output grew by 1.1 per cent in Egypt, by 0.4 per cent in Morocco, by 5.8 per cent in Senegal and by 0.8 per cent in Tunisia. A decline of 1.4 per cent was registered in South Africa where the economy—as an exporter—has been hit by the low commodity prices.

Among other developing countries, a strong growth of 12.4 per cent was registered by Viet Nam. Industrial production also grew by 5.3 per cent in Bosnia and Herzegovina in the fourth quarter of 2015 on a year-to-year basis.

# Key Findings on World Manufacturing Sector

On a year-to-year comparison, world manufacturing production grew in all manufacturing sectors in the fourth quarter 2015, with the exception of the manufacture of machinery and equipment and printing and publishing. The global decline in the production output of the manufacture of machinery is attributable to low energy prices. Higher growth rates have been observed in the manufacture of radio and television and of chemicals and chemical products. Growth was positive across all industries in developing and emerging industrial economies, except a slight decline in the manufacture of motor vehicles. Industrialized countries registered negative growth in eight manufacturing industries.

Among the consumer goods production industries, output of wearing apparel grew by 2.2 per cent in developing and emerging markets and by 0.6 per cent in the industrialized country group. The industry's output grew by 16.9 per cent in the Czech Republic, by 14.6 per cent in the United Kingdom, by 12.8 per cent in Egypt, and by 12.3 per cent in Mexico. However, the manufacturing output of the wearing apparel fell sharply in Brazil and Indonesia, by 12.9 per cent and 16.4 per cent, respectively. A significant decline was also observed in wearing apparel production in Canada and Estonia. The production of textiles grew by 4.1 per cent in developing countries while industrialized countries registered a decline of 0.5 per cent in this production. At country level, impressive growth in textiles production was recorded in Argentina, Estonia and Hungary whereas it dropped sharply in Brazil and Senegal. The production of food and beverages grew at a higher rate (5.2 per cent) in developing countries. As such, output grew by 7.8 per cent in China, by 7.3 per cent in Indonesia and by 5.2 per cent in Romania. Output declined by 10.3 per cent in Tunisia and by 7.0 per cent in Egypt. The food sector was the only manufacturing industry with a positive, albeit poor, growth in Brazil.

The notable growth rate of 10.4 per cent was observed in the manufacture of radio, television and communication equipment in developing and emerging countries, with China, Egypt and India being the leading manufacturers. In industrialized markets, the highest growth rate in this manufacturing sector was seen in France.

The production of motor vehicles fell marginally by 0.4 per cent in developing countries, attributed mainly to the decline in the industry in Latin American economies. The industry's output rose by 4.4 per cent in industrialized countries, with Italy, Spain and Sweden being the top producers worldwide in the fourth quarter of 2015. The manufacturing production of other transport equipment increased at a higher rate in developing countries.

The manufacture of chemicals and chemical products increased considerably in China, Senegal and Tunisia, as well as in Ireland, Netherlands and the Russian Federation. The chemical industry was one of the few industries in the Russian Federation recording a higher growth rate, with a 6.6 per cent increase compared to the previous year.

The production of basic metals, which includes the production of basic iron, basic steel, basic precious and non-ferrous metals, rose by 5.9 per cent in developing countries compared to the same period of the previous year, but dropped by 4.8 per cent in industrialized countries in comparison to

the previous year. Manufacturing output grew in China, Indonesia and Macedonia, while it fell in all Latin American economies and in Africa.

In the United States, as the largest driver of growth in industrialized economies, the manufacture of electrical machinery and apparatus and motor vehicles remained strong in the fourth quarter of 2015. However, other industries showed either a decline or a decrease in production output. The combination of low energy prices and expensive currency contributed to the economic slowdown of the United States. Despite its slow economic growth, China's manufacturing output in most industries increased compared to the same period of the previous year. China recorded its highest growth rates in the manufacture of radio and television (10.1 per cent), chemicals and chemical products (9.8 per cent) and the manufacture of basic metals (8.9 per cent).

# INDIAN MANUFACTURING SECTOR

#### **Introduction**

The Prime Minister of India, Mr Narendra Modi, has launched the 'Make in India' initiative to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. The Government of India has set an ambitious target of increasing the contribution of manufacturing output to 25 per cent of Gross Domestic Product (GDP) by 2025, from 16 per cent currently.

# Market Size

India's manufacturing sector could touch US\$ 1 trillion by 2025. There is potential for the sector to account for 25-30 per cent of the country's GDP and create up to 90 million domestic jobs by 2025. Business conditions in the Indian manufacturing sector continue to remain positive.

In November 2015, the seasonally adjusted Nikkei India Manufacturing Purchasing Managers' Index (PMI) stood at 50.3, which indicated expansion for twenty-fifth consecutive month. The services PMI was at 50.1 points in November 2015.

# Investments

In a major boost to the 'Make in India' initiative, the Government of India has received investment proposals of over US\$ 3.05 billion till end of August 2015 from various companies.

India has become one of the most attractive destinations for investments in the manufacturing sector. Some of the major investments and developments in this sector in the recent past are:

- Canada's Magna International Incorporated has started production at two facilities in Gujarat's Sanand, which will supply auto parts to Ford Motor Co in India and will employ around 600 people at both units.
- Swedish home furnishing brand Ikea has made a long-term plan of opening 25 stores in India by making an investment worth Rs 12,500 crore (US\$ 1.9 billion).
- Siemens has announced that it will invest € 1 billion (US\$ 1.13 billion) in India to add 4,000 jobs to its existing workforce of 16,000 in the country.
- US-based First Solar Inc and China's Trina Solar have plans to set up manufacturing facilities in India. Clean energy investments in India increased to US\$ 7.9 billion in 2014, helping the country maintain its position as the seventh largest clean energy investor in the world.
- Samsung Electronics has invested Rs 517 crore (US\$ 77.82 million) towards the expansion of its manufacturing plant in Noida, Uttar Pradesh (UP). "Samsung India Electronics is committed to strengthen its manufacturing infrastructure and will gradually expand capacity at this plant to meet the growing domestic demand for mobile handsets, as per the company.
- Shantha Biotechnics Private Limited has started building a facility to manufacture Insuman, an insulin product to treat diabetes. Sanofi SA, which acquired Shantha Biotechnics, will invest Rs 460 crore (US\$ 69.24 million) to build the facility.
- BMW and Mercedes-Benz have intensified their localisation efforts to be part of 'Make in India' initiative. "The localisation efforts will reduce the waiting period and accelerate the servicing process of our cars as we had to (previously) depend on our plants overseas for supply and will help us on the pricing front."
- Suzuki Motor Corp plans to make automobiles for Africa, the company's next big bet, as well as for India at its upcoming factory in Hansalpur, near Ahmedabad, Gujarat.
- Taiwan-based HTC has decided to manufacture products in India. HTC is believed to have partnered GDN Enterprises, which has an assembly set up in Noida.
- Foxconn is planning an aggressive expansion in India, building up to 12 new factories and employing as many as one million workers by 2020
- The State Government of Tamil Nadu has signed investment agreements worth Rs 2, 42,160 crore (US\$ 36.45 billion) during a two-day Global Investors Meet in September 2015.

#### **Government Initiatives**

In a bid to push the 'Make in India' initiative to the global level, Mr Narendra Modi, Prime Minister of India, pitched India as a manufacturing destination at the World International Fair in Germany's Hannover earlier this year. Mr Modi showcased India as a business friendly destination to attract foreign businesses to invest and manufacture in the country.

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- The Government plans to organise a 'Make in India week' in Mumbai between February 13-18, 2016 to boost the 'Make in India' initiative and expects 1,000 companies from 10 key sectors to participate in the exhibition of innovative products and processes, a hackathon and sessions on urban planning, among other events.
- The National Institution for Transforming India Aayog (NITI Aayog) plans to release a blueprint for various technological interventions which need to be incorporated by the Indian manufacturing economy, with a view to have a sustainable edge over competing neighbours like Bangladesh and Vietnam over the long term.
- Ms Nirmala Sitharaman, Minister of State (Independent Charge) for Commerce and Industry, has launched the Technology Acquisition and Development Fund (TADF) under the National Manufacturing Policy (NMP) to facilitate acquisition of Clean, Green and Energy Efficient Technologies, by Micro, Small & Medium Enterprises (MSMEs).
- The Government of India has asked New Delhi's envoys in over 160 countries to focus on economic diplomacy to help government attract investment and transform the 'Make in India' campaign a success to boost growth during the annual heads of mission's conference. Prime Minister, Mr Modi has also utilised the opportunity to brief New Delhi's envoys about the Government's Foreign Policy priority and immediate focus on restoring confidence of foreign investors and augmenting foreign capital inflow to increase growth in manufacturing sector.
- The Government of Uttar Pradesh (UP) has secured investment deals valued at Rs 5,000 crore (US\$ 752.58 million) for setting up mobile manufacturing units in the state.
- The Government of Maharashtra has cleared land allotment for 130 industrial units across the state with an investment of Rs 6,266 crore (US\$ 943.13 million)
- Dr Jitendra Singh, Union Minister of State (Independent Charge) of the Ministry of Development of North Eastern Region (DoNER), MoS PMO, Personnel, Public Grievances & Pensions, Atomic Energy and Space, Government of India, has announced the 'Make in Northeast' initiative beginning with a comprehensive tourism plan for the region.
- Government of India has planned to invest US\$ 10 billion in two semiconductor plants in order to facilitate electronics manufacturing in the country.
- Entrepreneurs of small-scale businesses in India will soon be able to avail loans under Pradhan Mantri MUDRA Yojana (PMMY). The three products available under the PMMY include: Shishu covering loans up to Rs 50,000 (US\$ 752), Kishor covering loans between Rs 50,000 (US\$ 752) to Rs 0.5 million (US\$ 7,520), and Tarun- covering loans between Rs 0.5 million (US\$ 7,520) and Rs 1 million (US\$ 15,052).

# Road Ahead

The Government of India has an ambitious plan to locally manufacture as many as 181 products. The move could help infrastructure sectors such as power, oil and gas, and automobile manufacturing that require large capital expenditure and revive the Rs 1,85,000 crore (US\$ 28.42 billion) Indian capital goods business.

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country.

With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

# FIBRE SECTOR OF TEXTILE INDUSTRY

# **Global Fibre Consumption Trend**

- Globally, Consumption of polyester will increase further.
- Till 2000, fibre consumption at global level was majorly cotton focussed.
- By 2030, it is expected that consumption of polyester will be more than double to that of the cotton fibre.

# INDIAN TEXTILES INDUSTRY

#### **Introduction**

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 11 per cent of total exports. The textiles industry is also labour intensive and is one of the largest employers. The industry realised export earnings worth US\$ 41.4 billion in 2014-15, a growth of 5.4 per cent, as per The Cotton Textiles Export Promotion Council (Texprocil). The textile industry has two broad segments. First, the unorganised sector consists of handloom, handicrafts and sericulture, which are operated on a small scale and through traditional tools and methods. The second is the organised sector consisting of spinning, apparel and garments segment which apply modern machinery and techniques such as economies of scale.

The Indian textiles industry is extremely varied, with the hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital intensive sophisticated mills sector at the other end of the spectrum. The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of the textile industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles make the Indian textiles sector unique in comparison to the industries of other countries. The Indian textile industry has the capacity to produce a wide variety of products suitable to different market segments, both within India and across the world.

# Market Size

The Indian textiles industry, currently estimated at around US\$ 108 billion, is expected to reach US\$ 223 billion by 2021. The industry is the second largest employer after agriculture, providing employment to over 45 million people directly and 60 million people indirectly. The Indian Textile Industry contributes approximately 5 per cent to India's gross domestic product (GDP), and 14 per cent to overall Index of Industrial Production (IIP).

The Indian textile industry has the potential to reach US\$ 500 billion in size according to a study by Wazir Advisors and PCI Xylenes & Polyester. The growth implies domestic sales to rise to US\$ 315 billion from currently US\$ 68 billion. At the same time, exports are implied to increase to US\$ 185 billion from approximately US\$ 41 billion currently.

# Investments

The textiles sector has witnessed a spurt in investment during the last five years. The industry (including dyed and printed) attracted Foreign Direct Investment (FDI) worth US\$ 1.77 billion during April 2000 to September 2015.

Some of the major investments in the Indian textiles industry are as follows:

- Reliance Industries Ltd (RIL) plans to enter into a joint venture (JV) with China-based Shandong Ruyi Science and Technology Group Co. The JV will leverage RIL's existing textile business and distribution network in India and Ruyi's state-of-the-art technology and its global reach.
- Giving Indian sarees a 'green' touch, Dupont has joined hands with RIL and Vipul Sarees for use of its renewable fibre product Sorona to make an 'environment-friendly' version of this ethnic ladies wear.
- Grasim Industries has invested Rs 100 crore (US\$ 15 million) to develop its first fabric brand, Liva', which it will distribute through 1,000 outlets as part of a plan to stay in sync with changing consumer behaviour.
- Snapdeal has partnered with India Post to jointly work on bringing thousands of weavers and artisans from Varanasi through its website. "This is an endeavour by Snapdeal and India Post to empower local artisans, small and medium entrepreneurs to sustain their livelihood by providing a platform to popularise their indigenous products," said Mr Kunal Bahl, CEO and Co-Founder, Snapdeal.
- Welspun India Ltd (WIL), part of the Welspun Group has unveiled its new spinning facility at Anjar, Gujarat the largest under one roof in India. The expansion project reflects the ethos of the Government of Gujarat's recent 'Farm-Factory-Fabric-Fashion-Foreign' Textile Policy, which is aimed at strengthening the entire textile value-chain.
- American casual fashion retailer Aéropostale, Inc. has inked a licensing agreement with Arvind Lifestyle Brands Ltd to open standalone stores in the country. Aéropostale will open 30 stores and 25 shop-in-shop locations over the next three years.

# **Government Initiatives**

The Indian government has come up with a number of export promotion policies for the textiles sector. It has also allowed 100 per cent FDI in the Indian textiles sector under the automatic route.

Some of initiatives taken by the government to further promote the industry are as under:

- The Government of India has started promotion of its 'India Handloom' initiative on social media like Facebook, Twitter and Instagram with a view to connect with customers, especially youth, in order to promote high quality handloom products.
- The Ministry of Textiles launched Technology Mission on Technical Textiles (TMTT) with two mini-missions for a period of five years (from 2010-11 to 2011-12 in the 11th five year plan and 2012-13 to 2014-15 in 12th five year plan) with a total fund outlay of Rs 200 crore (US\$ 30 million). The objective of TMTT is to promote technical textiles by helping to develop world class testing facilities at eight Centres of Excellence across India, promoting indigenous development of prototypes, providing support for domestic and export market development and encouraging contract research.
- The Government of India is expected to soon announce a new National Textiles Policy. The new policy aims at creating 35 million new jobs by way of increased investments by foreign companies, as per Textiles Secretary Mr S K Panda.
- Subsidies on machinery and infrastructure:
  - The Revised Restructured Technology Up gradation Fund Scheme (RRTUFS) covers manufacturing of major machinery for technical textiles for 5 per cent interest reimbursement

and 10 per cent capital subsidy in addition to 5 per cent interest reimbursement also provided to the specified technical textile machinery under RRTUFS.

- Under the Scheme for Integrated Textile Parks (SITP), the Government of India provides assistance for creation of infrastructure in the parks to the extent of 40 per cent with a limit up to Rs 40 crore (US\$ 6 million). Under this scheme the technical textile units can also avail its benefits.
- The major machinery for production of technical textiles receives a concessional customs duty list of 5 per cent.
- Specified technical textile products are covered under Focus Product Scheme. Under this scheme, exports of these products are entitled for duty credit scrip equivalent to 2 per cent of freight on board (FOB) value of exports
- The Government of India has implemented several export promotion measures such as Focus Market Scheme, Focus Product Scheme and Market Linked Focus Product Scheme for increasing share of India's textile exports.
- Under the Market Access Initiative (MAI) Scheme, financial assistance is provided for export promotion activities on focus countries and focus product countries.
- Under the Market Development Assistance (MDA) Scheme, financial assistance is provided for a range of export promotion activities implemented by Textiles Export Promotion Councils.
- The government has also proposed to extend 24/7 customs clearance facility at 13 airports and 14 sea ports resulting in faster clearance of import and export cargo.
- The Ministry of Textiles has approved a 'Scheme for promoting usage of geotechnical textiles in North East Region (NER)' in order to capitalise on the benefits of geotechnical textiles. The scheme has been approved with a financial outlay of Rs 427 crore (US\$ 64.1 million) for five years from 2014-15.
- A Memorandum of Understanding (MoU) has been signed between India and Kyrgyzstan seeking to strengthen bilateral cooperation in three fields -Textiles and Clothing, Silk and Sericulture, Fashion

#### Road Ahead

The future for the Indian textile industry looks promising, buoyed by both strong domestic consumption as well as export demand. With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with the entry of several international players like Marks & Spencer, Guess and Next into the Indian market. The organised apparel segment is expected to grow at a Compound Annual Growth Rate (CAGR) of more than 13 per cent over a 10-year period.

#### DEMAND DRIVERS

Indian textile industry will consume more polyester than cotton within next five years as depicted below:

- Share of manmade fibre in total mill consumption is expected to reach ~65% by 2030. However, the share of cotton is expected to decrease from current level of ~55% to 32% by 2030.
- A drastic change is expected in the mill consumption of polyester fibre, share of which is projected to grow to 53% (9,455,000MT) by 2030.

(Source: Future of Indian MMF Based Textiles Industry, Wazir Advisors - <u>www.wazir.in</u>)

#### STRUCTURE OF INDIAN TEXTILE INDUSTRY

The Indian textile industry mostly comprises small-scale, non-integrated spinning, weaving and knitting, fabric finishing, and apparel-making enterprises. Other textile-producing countries mainly

have large scale mills with modern technology and machinery, that integrate spinning, weaving and, sometimes, fabric finishing. This unique industry structure in India is primarily a result of government policies on tax, labour and other regulations that have promoted labour-intensive, small-scale operations often discriminating against larger scale firms.

<u>**Composite Mills:**</u> Relatively large-scale mills that integrate spinning, weaving and, sometimes, fabric finishing now account for about only 3 percent of output in the textile sector in India. About 276 composite mills are now operating in India, most owned by the public sector and many deemed financially "sick."

**Spinning:** Spinning is the process of converting cotton or manmade fibre into yarn to be used for weaving and knitting. Largely due to deregulation that began in the mid-1980s, spinning is to date considered the most consolidated and technically efficient segment of the industry. However average plant sizes remain small and technology is out-dated, relative to other major producers.

**Weaving and Knitting:** Weaving and knitting converts cotton, manmade, or blended yarns into woven or knitted fabrics. This segment is highly unorganised with mostly small-scale and labour-intensive enterprises. The organised sector contributes only 5% of the total production. The segment has about 3.9 million hand looms and 1.8 million power-looms in India.

**Fabric Finishing:** Fabric finishing also called processing includes dyeing, printing, and other cloth preparation prior to the manufacture of apparels. This segment is dominated by a large number of independent, small scale enterprises. Overall, about 2,300 processors are operating in India, including about 2,100 independent units and 200 units that are integrated with spinning, weaving, or knitting units.

**Apparels:** Apparels are produced by about 77,000 small-scale units classified as domestic manufacturers, manufacturer exporters, and fabricators (subcontractors). According to a report by Wazir Advisors, the size of the Indian apparel market in 2012 was \$ 45 billion. The report estimates India and China to be the fastest growing markets, growing in double digits and becoming the biggest consumer market with a mammoth share of 27% in the world's apparel market.

(Source: The Textile & Apparels Industry – Contributing to "Make in India" October, 2015 - The Associated Chambers of Commerce and Industry of India – <u>www.assocham.org</u>)

#### PRODUCT CLASSES AND USES

The textiles and apparels industry is broadly classified into the following segments according to products:

#### **Cotton and Cotton textiles**

The Indian textile industry which has a diverse range of fibres and yarn is predominantly cotton based. Hence, growth and all around development of cotton and cotton industry has a vital bearing on the development of the sector and the economy as a whole. According to the Ministry of Textiles, 9 the consumption of cotton is more than 400 lakh bales (of 170 kg each) per year. The Cotton Corporation of India reports that the total production in 2013-14 rose to 375 lakh bales from 365 lakh bales in 2012-13.

#### Jute and Jute Textiles

Jute, the golden fibre, is considered to be a natural, renewable, biodegradable and eco-friendly product. According to the Ministry of Textiles, the jute industry provides direct employment to about 0.37 million workers in organised mills and in diversified units including the tertiary sector and supports the livelihoods of around 4 million farm families. There are 89 composite jute mills in India and about 49,500 looms installed in the jute industry including Hessian looms, sacking looms, C.B.C looms and others. The maximum installed capacity in jute mills is estimated to be more than 2.64 million tonnes per annum.

# Silk and Silk Textiles

India is the second largest producer of silk in the world. According to the Central Silk Board,10 26,480 MT of raw silk was produced in India in 2013-14, 74% of which (or 19,476 MT) was mulberry raw silk. The remaining 26% was wild silk (vanyasilk). Mulberry sericulture is mainly practiced in five states namely, Karnataka, Andhra Pradesh, West Bengal, Tamil Nadu and Jammu & Kashmir which jointly account for about 96% of the total mulberry silk production in the country. As the consumption of raw silk (around 29,740 MT) exceeds production, the additional requirement (particularly bivoltine mulberry silk of international quality) is imported mainly from China.

# **Wool and Woollen Textiles**

The woollen industry is small and widely scattered. It is basically located in the states of Punjab, Haryana, Rajasthan, U.P., Maharashtra and Gujarat. 40% of the woollen units are located in Punjab, 27% in Haryana, 10% in Rajasthan, while the rest of the states account for the remaining 23%.

# Hand crafted Textiles

The tradition of weaving by hand is one of the richest and most vibrant aspects of Indian cultural heritage. The level of artistry and intricacy achieved in handloom fabrics is unparalleled and beyond the scope of modern machines. The strength of the sector lies in its uniqueness, flexibility of production, openness to innovations, adaptability to the suppliers' requirements and the wealth of its tradition. Indian handlooms have been famous throughout the world for centuries and have been exported across the world.

# **Technical textiles**

Technical textiles are defined as textile material and products manufactured primarily for their technical performance and functional properties rather than aesthetic and decorative characteristics. It has applications across various industries including automobiles, civil engineering and construction, agriculture, healthcare, industrial safety, personal protection etc. The technical textiles segment is a high technology segment which is steadily gaining importance in India. Some of the properties of technical textiles that may be attributed to its increasing popularity are cost effectiveness, durability, lightweight, high strength and user and eco friendliness. Based on usage, there are 12 technical textile segments, viz., Agrotech, Buildtech, Clothtech, Geotech, Hometech, Meditech, Mobiltech, Oekotech, Protech, Packtech, Indutech, Sporttech.

In India the sector registered a compounded annual growth rate of 11% during 11th Five Year Plan. According to the Planning Commission's Working Subgroup on Technical Textiles, its market size is estimated to grow at a CAGR of 20% to reach `1,58,540 crores by 2016-17 from `70,151 crores in 2012-13. The market for 2014-15 is projected to be `1,09,659 crores.

#### **Readymade Garments**

Readymade garments (RMG) manufacturing being the least capital intensive segment of the textile value chain is characterised by low entry barriers and is hence highly fragmented. It is also labour-intensive and requires skilled, unskilled and semi-skilled manpower. A study by CARE Research12 says the domestic apparel industry in India grew at a CAGR of 9% from ` 1,360 billion in FY08 to ` 2,115 billion in FY13 and is expected to continue this growth trend to FY16. In 2012, apparels had a 69% share of the overall market; textiles contributed the remaining 31%. At the inauguration of the 55th India International Garment Fair, 2015 the Textiles Minister, supporting the apparel industry said that it plays a significant role in realising the 'Make in India' vision, given its employment and export intensity.

(Source: The Textile & Apparels Industry – Contributing to "Make in India" October, 2015 - The Associated Chambers of Commerce and Industry of India – <u>www.assocham.org</u>)

# MAN MADE FIBRES AND POLYMERS

Man-made fibres (MMF) and man-made filament yarns (MMFY) account for around 40% share of the total fibre consumption in the textile industry as a whole. These fibres form a key raw material for

the technical textile industry because of their customizable properties. The key man-made fibres, filaments and polymers used as raw materials in technical textiles are: **Man-Made Fibres and Filaments** – Viscose, Polyester, Nylon, Acrylic/Mod acrylic, Polypropylene and **Polymers** – HDPE, LLDPE, LDPE, PVC

India ranks among one of the world's largest producers of MMF and MMFY, with production of 1284.64 million kg and 1549.80 million kg in 2010-11, respectively. While production of MMF and MMFY registered growth of 1.31% and 1.78%, respectively, over the previous year alone, the last decade has witnessed a steady increase in production and consumption of major synthetic fibres and polymers, resulting in a fair degree of self sufficiency in the domestic MMF and MMFY markets.

Technical Textiles are manufactured from a variety of fibres and filaments based on the desired properties of the end product. The fibres and filaments can be broadly classified as natural and manmade.

Natural fiber	Man Made Fibres and Polymers				
	Synthetic fiber	High performance fiber			
Cotton	Viscose	Aramid			
• Silk	Polyamide	UMHW Polyethylene			
Sisal	Polyolefin	Carbon			
• Flax	• Flax	• Glass, etc.			
• Wool, etc.	Polyester, etc				

(Source: Investor Guide – Driving Growth of Technical Textiles in India Report, January, 2013 – Federation of Indian Chambers of Commerce and Industry (FICCI) - <u>www.ficci.in</u>)

(Source: Textile and Apparel Report January 2016 - India Brand Equity Foundation <u>www.ibef.org</u>)

#### MAN MADE FIBRE SECTOR OUTLOOK

Polyester dominates the world fibre consumption contributing more than half of the overall fibre consumption. The rise in share can be attributed to the growing consumption of polyester in the developing countries. On the other hand, the Indian textile industry is predominantly a cotton-based industry. However, limited area under cultivation and erratic rain affects the cotton availability.

Over a longer term view, polyester consumption is expected to pick up gradually with increase in demand for apparels, home textiles and technical textiles as the macro economic scenario recovers. The growth in apparels and home textile segments will be supported by factors such as rise in

disposable income, growing consumer class, rising urbanization, increasing retail penetration and increased usage of credit cards etc.

According to CMIE manmade fibre & filament industry sales in FY15 is estimated to have declined by 3.3% on back of subdued demand and fall in realisation. Further, reduction in cotton yarn prices has affected substitution demand for man-made fibre. The operating margin of polyester companies in last couple of years have remained under pressure on account of huge capacity additions taken place in the industry and intense competitive, commoditised and fragmented nature of the industry which limits the pricing flexibility of players operating in the segment.

However, in FY16 sales are expected to increase by 10.6% (Source: CMIE) supported by increase in textile and clothing exports in FY16 (target of \$47.5 billion for textile and clothing export as against \$41.4 billion in FY15), increase in domestic consumption and expected increase in demand for technical textiles on back of pick up in infrastructure sector. The outlook for man-made fibre industry remains stable.

# **OPPORTUNITIES IN TEXTILE INDUSTRY**

#### **Immense growth potential**

The Indian textile industry is set for strong growth, buoyed by both strong domestic consumption as well as export demand. The sector is expected to be reached to USD226 billion by FY2023. Population is expected to reach to 1.34 billion by FY2019. Urbanisation is expected to support higher growth due to change in fashion and trends

#### Private sector participation in silk Production

The Central Silk Board sets targets for raw silk production and encourages farmers and private players to grow silk. To achieve these targets, alliances with the private sector, especially major agro-based industries in pre-cocoon and post-cocoon segments has been encouraged

#### **Proposed FDI in multi-brand retail**

For the textile industry, the proposed hike in FDI limit in multi-brand retail will bring in more players, thereby providing more options to consumers. It will also bring in greater investments along the entire value chain – from agricultural production to final manufactured goods. With global retail brands assured of a domestic foothold, outsourcing will also rise significantly

#### **Retail sector offers growth Potential**

With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with several international players like Marks & Spencer, Guess and Next having entered Indian market. The organised apparel segment is expected to grow at a Compound Annual Growth Rate (CAGR) of more than 13 per cent over a 10-year period.

#### Centers of Excellence (CoE) for research and technical training

The CoEs are aimed at creating testing and evaluation facilities as well as developing resource centres and training facilities. Existing four CoEs, BTRA for Geotech, SITRA for Meditech, NITRA for Protech and SASMIRA for Agrotech, would be upgraded in terms of development of incubation centre and support for development of prototypes. Fund support would be provided for appointing experts to develop these facilities

# **Foreign investments**

The government is taking initiatives to attract foreign investments in the textile sector through promotional visits to countries such as Japan, Germany, Italy and France. According to the new Draft of the National Textile Policy, the government is planning to attract foreign investments thereby creating employment opportunities to 35 million people

(Source: Textile and Apparel Report January 2016 - India Brand Equity Foundation <u>www.ibef.org</u>)

# POLICY SUPPORT HAS BEEN A KEY INGREDIENT TO GROWTH

#### **Technology Up gradation Fund Scheme (TUFS)**

- Investment was made to promote modernisation and up-gradation of the textile industry by providing credit at reduced rates.
- USD 0.39 billion has been allocated for TUFS scheme for FY15

#### <u>National Textile Policy – 2000</u>

- The policy was introduced for the overall development of textile industry.
- Key areas of focus include technological upgrades, enhancement of productivity, product diversification and financing arrangements. New draft for this policy ensures to employ 35 million by attracting foreign investments. It also focuses on establishing a modern apparel garment manufacturing centre in every.
- North Eastern state for which Government has invested an amount of USD3.27 million.

#### **Foreign Direct Investment**

- FDI of up to 100 per cent is allowed in the textile sector through the automatic route.

# **Scheme for Integrated Textiles Parks (SITP)**

- SITP was set up in 2005 to provide necessary infrastructure to new textile units; under SITP, 40 projects (worth USD678 million) have been sanctioned.
- Out of these 40 projects, 27 have started production. 16 projects has been completed and as on November 2014, Government has invested a total of USD21.96 million for 21 new textile parks and the remaining 13 textile parks has been given the in-principle approval under SITP

#### **Technical textile industry**

- Government of India has planned an increase in the fund outlay for technical textiles industry to more than USD117 million during the current 12th Five Year Plan (2012-17)

(Source: Textile and Apparel Report January 2016 - India Brand Equity Foundation <u>www.ibef.org</u>)

#### ADVANTAGE INDIA

#### Robust demand

- Increased penetration of organised retail, favourable demographics, and rising income levels to drive textile demand.
- Growth in building and construction will continue to drive demand for non clothing textiles.

#### **Increasing investments**

- Huge investments are being made by Government under Scheme for Integrated Textile Parks (SITP)-(USD184.98 Million) and Technology Up gradation Fund Scheme (TUFS)-(term loan sanctioned in Feb, 2015-USD2198.45 Million) to encourage more private equity and to train workforce.

#### **Competitive Advantage**

- Abundant availability of raw materials such as cotton, wool, silk and jute.
- India enjoys a comparative advantage in terms of skilled manpower and in cost of production relative to major textile producers.

#### **Policy support**

- 100 per cent FDI (automatic route) is allowed in the Indian textile sector.
- Under Union Budget 2015-16, government has allocated USD39.81million for integrated parks in India.

- Free trade with ASEAN countries and proposed agreement with European Union will boost exports.

Market Value: USD 108.5 Billion 2015E Market Value: USD 226 Billion 2023F

# **GROWTH DRIVERS**

Factors contributing to growth of the industry and analysed in this study are:

Rising disposable incomes and evolving lifestyles of India's prospering urban consumer, are broadening their clothing needs. Today, Indians are more inclined to buy apparels for a specific purpose, than consumers in other markets. Family celebrations and weddings in India continue to eat up an enormous share of Indian consumers' clothing budgets.

Rising urbanisation leads to increase in demand for new designs and fashions to match new lifestyles. The growing participation of women in the workforce is also contributing a great deal to this demand.

Backed by the enormous capacity to absorb labour, skilled human capital to meet the growing demand is one of the important factors that will drive growth of this industry.

India may be a major player in traditional textiles, but technical textiles as a segment is growing due to rising demand for specialised fabrics from various sectors of the economy.

India's cotton and apparel exports are set to climb by around 10% in 2015 as higher wages, political instability and concerns about workplace conditions in other producing markets are likely to push international buyers towards Indian exporters. India has overtaken Germany and Italy to emerge as the world's second largest textile exporter but lags behind China, whose exports are nearly seven times higher.

The proliferation of digital internet technology in India coupled with wide scale ownership of devices such as smart phones, laptops and tablets that support internet usage, have resulted in an unprecedented growth of e-commerce. As incomes rise and lifestyles change, people have little time to spare. E-commerce has provided consumers with a wide range of apparels, with just a few simple clicks, making their shopping experience easier, faster and more convenient.

The textile industry, being one of the most significant sectors in the Indian economy, has been a key focus area for the Government of India. A number of initiatives have been taken by the Government to make the industry more competitive.

# CHALLENGES FACED BY THE INDIAN TEXTILE INDUSTRY

The Indian textiles and apparels industry plays a crucial role in contributing to employment generation, industrial output and export earnings. However, in its race towards becoming the second largest producer of textiles and apparels in the world, it has faced several challenges and continues to battle them to not only retain its position in the global map but also to improve it.

Some of the major challenges faced by the industry in India that could potentially come in the way of its contribution to the Government's 'Make in India' programme, including:

- Paucity of domestic producers of shuttle-less looms and spindles greatly affects the industry with the waiting time per order being as much as 2 to 3 years. Obsolete machinery leads to low efficiency and poor quality products. Lack of investment and research in the area of textile machinery, is forcing imports to compete with other textile producing countries.
- Stiff competition from mechanised mills, changing consumer preferences and the pursuit of less demanding means of livelihood have threatened the vibrancy of the handloom industry. Traditional hand woven products are in danger of becoming obsolete and weaving skills face

threat of dilution. The lack of credit facilities extended to the handloom sector adds to its woes.

- Textile mills face acute power shortage. Frequent electricity cuts and load shedding lead to loss of man hours and low production in the mills. Textile SMEs are severely affected by power shortage and are forced to use manual machines, which produce lower quality products and are more costly to maintain.
- Manufacturers of original products, face enormous losses due to counterfeit products which are often sold at prices, usually 40% to 45% lower than original value. Anti-counterfeiting measures in India are not effectively implemented, further aggravating the problem.
- Labour related issues such as threat to safety and health of workers, poor working environment, and exploitation of children, strict labour laws and skills gap pose a major challenge to the industry.
- India has differential tax treatments for cotton and man-made fibres, thus creating needless distortions within the industry. While excise duty on natural fibres like cotton, wool and flax is nil, manmade fibre, filament and yarn attract duty as high as 12.5%.
- The Indian textiles industry faces acute shortage of raw materials in the form of cotton and raw silk. Fluctuating prices and uncertainties in the availability of raw materials leads to low production and sickness of mills.
- The manufacturing activities of the textiles and apparels industry greatly impact the environment in the form of air and water emissions. Alternative process solutions that are eco-friendly and cost effective are therefore necessary, to meet increasing demands of the ever-growing and competitive market, in a sustainable manner.

# **OUR BUSINESS**

#### **OVERVIEW**

Incorporated in 2008, our Company 'Titanium Ten Enterprise Limited' is engaged in trading of yarn, grey cloth and manufacturing and trading of knitted fabrics. We also undertake job work of yarn and fabrics in our own capacity or on outsource basis. The registered office of our Company is situated at Shop No. 901/914, Rajhans Complex, 9th Floor, Ring Road, Surat, Gujarat- 395002 and the manufacturing plant is situated at Plot No. 660/A, 660/B and 660/C, Village Palsana, District Surat, Gujarat.

Our Company is promoted by Rohitkumar Kapadia and Ilaben Kapadia. Being engaged in the textile industry since last four decades, our Promoter Rohitkumar Kapadia has been the pioneer of the Company's business ideology and growth strategies. The Company's operations are backed by the inventive initiatives and textile knowledge of Tejus Kapadia, the CEO of our Company. Within a short span of time, our Company has created a steady position for itself in the Surat textile market and has been able to generate turnover of around Rs. 100 Crores during the past few years of operations.

Our sales model is divided into 2 parts i.e. i) trading of yarn and grey cloth and ii) supply of knitted fabrics. For the year ended March 31, 2015, our trading and manufacturing operations constituted 85.49% and 14.51% respectively of our total revenue from operations. Our trading operations cater to customers from both domestic and international markets. Our traded materials are mostly used in the process of weaving and knitting of fabrics which is then used for apparels such as sarees, shirtings, suitings, and upholstery such as curtains, etc. For our manufacturing operations, we have a plant set up at Surat which is considered as "The Textile Hub of The Nation". Spread over 2,853.12 square meters, our manufacturing facility is well equipped with requisite plant and machinery such as Warping and Knitting machines. At present we have an installed production capacity of more than 6,00,000 kgs p.a. for knitted fabrics. Our manufacturing process mainly consists of blending and knitting of yarn into beams of cloth which is then converted to fabric. We use different qualities of yarn as raw material of which Bi-Shrinkage Yarn (BSY) and Cationic Yarn are imported and others such as Filament Yarn, Bright Yarn, Nylon Mono Yarn, etc are procured locally. We also undertake jobwork activities to customise the products to suit the clients' requirements.

Customer satisfaction has been one of the key strengths of our Company. Our management and team has enables us to maintain continuing customer relations, ensuring repeat order flows. Similarly we have developed strong bonds with our suppliers. We are the only authorised representative for sales of yarns in Surat. of PT. Asia Pacific Fibers Tbk., a well-known Indonesian yarn manufacturing Company.

We aim to satisfy the needs of customers and give them value for their money by ensuring quality and a wide variety of products accompanied by technology development, involvement of our management team and dedication of our employees. We also desire to expand our business operations on PAN India basis.

Despite the severe competition and slowdown in economy, our Company has been able to maintain a consistent turnover. For the nine months ended as on December 31, 2015, our Company's Total Income and Restated Profit After Tax was Rs. 6,557.45 Lakhs and Rs. 14.94 Lakhs, respectively. For the year ended March 31, 2015, our Company's Total Income and Restated Profit After Tax was Rs. 10,505.09 Lakhs and Rs. 32.10 Lakhs respectively, compared to our Company's Total Income and Restated Profit After Tax of Rs. 10,460.15 Lakhs and Rs. 35.77 Lakhs respectively, over previous year ended i.e. March 31, 2014.

# OUR MANUFACTURING PROCESS

Our manufacturing process depends on a supply of various types of yarn depending upon the quality and specifications of fabric required by our customers. We procure raw materials both from domestic and international markets. Post procurement of raw materials, the manufacturing process is expedited in the following manner:

# Warp Knitting Process

# Warping

Warping is the first step of the fabric manufacturing process. This is a process of winding yarns into warp beams. The rolls of Polyester and Nylon yarn are loaded on the creel stand of the warping machines with latest tension control device which enables warp stoppage. The threads from the rolls are passed through the reed to the warping drum as per the desired quality combinations. Thereafter, the ends of the yarn are withdrawn from warping creel, evenly spaced in a sheet form and wound onto a beam of substantial length.

The beams of the merged yarns are then transferred to the knitting machines by way of a pulley. The beams are then fed into the knitting machines where adjustments for size and of patterns are made. The number of beams to be inserted for production of final fabric is decided according to customers' size specifications. Once the beams are fed and pattern is set, the process is an automated process and does not require any manual interference. Warp knit fabric consists of a series of wales, or parallel ridges, running lengthwise through the material. The front of the fabric contains angled vertical stitches. while the back consists of horizontal floats. Knitted fabric is majorly used for end products such as Curtains, Bright Polyester Cloth, Viscose and Jersey Material.

**Folding & Inspection** 

The Knitted Fabrics are then extricated from the knitting machines and tied into manageable lengths. These clusters of fabrics are collected in the folding room. Here, the fabrics are manually mounted on folding structures which aids in speedy folding of the fabrics. Such fabrics are simultaneously inspected by checkers for defects and irregularities. Defects or tears in cloth, if any, are mended by sewing up such irregularities meticulously. During inspection, if is noticed that the fabric is severely damaged or not upto the quality required, the same is put aside as scrap.

**Packing of Final Product for Dispatch** 

Finished goods are packed in synthetic bags in sets of such number of units as the clients specify. These packages are loaded into trucks and dispatched to customer's place by using third party transportation.

## **Raschel Knitting Process**

This machine is specially used for producing stretch and non-stretch fabrics. The patterning facility enables a virtually unlimited range of designs to be worked. This is a high-end machine with electronic guide bar control which permits rapid lapping changes and enables changes and variations to be incorporated. These warp knit fabrics resemble crochet and lace fabrics but are more open and with a coarser texture. Warp knit fabrics have good dimensional stability and are less likely to sag, nor do they ravel easily. Raschel warp knit machines generate fabrics in more diverse textures and designs than other warp knit machines. They tend to have little stretch and hold their shapes well. It is to be noted that we are required to maintain the room temperature at around 24°C to ensure smooth working of the machinery.

#### **Raw Materials**

The yarn required for production of knitted fabric is fed into the Raschel machine by way of pulleys. The choice of yarn to be used for production is as per customer requirements as to finish product. Our Company generally uses this machine to manufacture net materials using zari and nylon yarn as main raw materials.

## Knitting

The design is then fed into the computer system of the machine. There is a variety of designs to choose from depending on customer requirement and choice. In raschel knitting, the fabric is formed in line with the movement of the needles. Our machine is called a Multibar Raschel Machine where the needle bar is a row of needles which work in synergy to form loops and net designs.

These compound needles are mounted on a bar in the machine. The sinker performs the function of holding down the fabric during the upward journey of the needles and to assist in casting-off, the trick plate is employed. The fabric, coming out of the knitting zone, is taken down over the trick plate at a very low angle such that the fabric and needle axis are nearly parallel to each other. During the downward motion of needle, the new yarn is bent across the arms of the cast-off loop.

The yarn sheet fed to the needles and the resultant knitted fabric are nearly in the same plane, a very high take down tension can be applied on the fabric without loading the needles excessively. This maintains very straight and rigid lines on the machine, a necessary condition for producing nets with large openings. As the fabric is pulled in the downward direction by the take-up motion, it is conceivable that two sets of needle bed and trick plate can be easily arranged back to back for the production of a double layered knitted fabric.

## Folding & Inspection, Packing of Final Product for Dispatch

These processes are same as explained for Warp Knitting Process.

**COMPETITIVE STRENGTHS** 

## 8. In depth knowledge of Yarn

Our promoter, Rohitkumar Kapadia has an experience of more than four decades and our CEO Tejus Kapadia has an experience of more than a decade in the textile industry. Further, Tejus Kapadia has completed his Bachelor in Science from South Gujarat University and Postgraduate Diploma in Textile Industries from University of Leeds. With relevant qualifications and backed by experience, our management has believed to gain an in depth knowledge of our primary raw material and traded good i.e. yarn. The textile industry is an extremely competitive industry and there is always a chance of duplication of fabric designs and usage of yarns. The detailed knowledge of our CEO and experience of our management enables us to innovate and develop exclusive yarns, proving to be a distinctive competitive advantage in the industry in which we operate.

## 9. Technological Advantage

We are in possession of Four-Bar Knitting Machine as against the commonly used Two-Bar Knitting Machine, which is one of the latest technologically forward machines used in knitting industry. The increased number of bars enables increased production capacity of the machines. Further our Company has recently, imported warping and knitting machinery which provides the benefits of latest international technologies in our production process. Our Company consciously dedicate resources to be technologically upgraded and has developed a scalable technology system.

## **10. Quality and innovation**

We procure yarn from domestic as well as from international markets. We take the initiative to approach our suppliers and discuss with them, the ways by which the raw materials can be improved in terms of quality. The suppliers implement our suggestions on yarn properties such as mix of Polymers, variation in deniers, elongation, shrinkage, etc. The synergy of efforts and knowledge between our yarn manufacturers and our team enables us to offer diverse and innovative varieties to our customers. We believe such continuing efforts provide us with a strong platform to build our market share and exclusivity in the textile industry.

Further our company is focused on delivering qualitative and customer specific products and has developed in-house check processes at different level of operations.

## 11. Sole Representative for a well known Indonesian Supplier

We are the sole authorized representative in Surat city for sale of yarns of a well known Indonesian Supplier. The type of yarns imported from this supplier is known as Bi-Shrinkage Yarn which is used in our manufacturing process of knitted fabrics and also supplied to other users. The specialty of this yarn is its ability to increase elongation, withstand shrinkage and immediate breakage. Such exclusive representation gives us an edge in the Surat textile market and makes us stand apart from other traders. It also helps us build a reputation in international market and develop confidence among our suppliers and customers.

## 12. Customer Centric Business Model

Our Company focuses on attaining highest level of customer satisfaction. The progress achieved by us is largely due to our ability to address and exceed customer satisfaction. Our Company has always believed in assessing the changing consumer preferences from time to time and redesigning our products accordingly by continuously exploring new types of yarn, cloth and fabric.

# **13. Diversified Product Range**

Ever since our initiation, we have been engaged in trading, manufacturing and exporting of fabrics and yarn. We have a comprehensive portfolio of product offerings covering Polyester, Netting Fabrics, Raschel Knitted Fabrics, Viscose, etc. We believe our comprehensive range of products enables ourselves to capitalize on growth opportunities and demand in the textile industry. We also make fabrics according to the client specification. We supply our products across various textile processing entities and to few well-known garment and apparels brand.

## **14. Locational Advantage**

Our manufacturing facility is situated at Surat, Gujarat which is known as 'The Textile Hub of the Nation', thereby resulting in easy availability of transportation and intermediaries of the textile industry. Being situated in textile hub of the nation, we have a better absorbent market for the demand of our products. Further our manufacturing facility is situated at around 300 km away from Nhava Sheva port, Mumbai enabling us to import required goods at pace.

## COLLABORATIONS

As on date of the Draft Prospectus, our Company has not entered into any collabration agreements.

## OUR RAW MATERIALS

The major raw material used in our manufacturing process is Yarn. For manufacturing of knitted fabrics, we use different types of yarn to suit customer's requirements. The major types of Yarns include:

Filament Yarn	Bright Yarn	Bright Viscose	Tex Nim	Nylon Mono Yarn
Spun Yarn	SD Poly Yarn	Cationic Yarn- Imported	Bi-Shrinkage Yarn- Imported	Oil for maintenance

# UTILITIES & INFRASTRUCTURE FACILITIES

## Infrastructure Facilities

Our registered office at Ring Road, Surat and manufacturing unit at Palsana, Surat are well equiped with computer systems, internet connectivity, other communications equipment, security and other

facilities, which are required for our business operations to function smoothly. It is equipped with requisite utilities and modern facilities including the following:

## Power

Our Company meets its power requirements for our manufacturing process by purchasing electricity from Dakshin Gujarat Vij Company Limited. The power requirements for our registered office is purchased from Torrent Power Limited.

## Water

We meet our water requirements for our manufacturing process and our registered office by purchasing the same from Palsana Taluka Panchayat.

Our Company has not yet undertaken or fulfilled any export obligation of the above manufactured products. We are in the process of expanding of business operations and begin to export the above manufactured products in addition to the traded goods that are lready being exported.

## HUMAN RESOURCE

We believe that our employees are key contributors to our busienss success. We focus on attracting and retaining the best posible talent. Our Company looks for specific skill-sets, interests and background that would be an asset for our business.

As on the date of this Draft Prospectus, our manufacturing facilities has 41 employees who looks after our business operations and factory management. Apart from these employees, we also employ casual labour or temporary labour on need basis. Further at our registered office, we have 18 employees in addition to our management. These employees looks after administrative, secreterial, legal,marketing and accounting functions. Our manpower is a prudent mix of the experienced and youth which gives us the dual advantage of stability and growth. Our work processes and skilled/ semi-skilled/ unskilled resources together with our strong management team have enabled us to successfully implement our growth plans.

## **BUSINESS STRATEGY**

Our vision is to provide customer satisfaction, by offering high qualitative products. In line with this vision, our Company is implementing a business strategy with the following key components. Our strategy will be to focus on capitalizing on our core strengths and expanding the operations of our business. We intend to focus on our existing business with specific emphasis on the following factors as business and growth strategy:

## 1. Enhancing utilization of existing production capacity

Our current business model comprises more of trading and less of manufacturing activities, resulting into under utilization of our installed production capacity. We intend to increase our manufacturing activities simultaneously with our trading activities by offering our customer base qualitative and reliable range of products. In this direction, our Company has recently increased its installed capacity as well by importing new machineries. Our management believes that it shall be able to expand its existing market for its manufactured products in a smooth manner. Further with our widespread customer base built over the years, we seek to capitalize this base for increasing our manufacturing activities.

## 2. Improving functional efficiency

Our Company intends to improve operating efficiencies to achieve cost reductions to have a competitive edge over the peers. We believe that this can be done through continuous process improvement, customer service and technology development.

## 3. Expand our Product Range

Currently our reveune is largely driven from trading of yarns, grey cloth and manufacturing of knitted fabrics. We have a well equipped plant capable of manufacturing various types of Fabrics. We plan to utilise our manufacturing plant for expanding our products range to include self manufactured woven fabrics, processed fabrics and ready made garments and fabrics in a bid to serve the retail market as well.

## 4. Brand Image

We would continue to associate ourselves with good quality customers and execute projects to their utmost satisfaction. We are highly conscious about our brand image and intend to continue our brand building exercise by providing excellent services to the satisfaction of the customers.

## 5. Leveraging our market skills and relationship

Leveraging our market skills and relationships is a continuous process in our organization and the skills that we impart in our people give importance to customers. We aim to do this by leveraging our marketing skills and relationships and further enhancing customer satisfaction.

# 6. Broadbase our distribution network and customer base

Our Company intends to expand our distribution network and increase the geographical reach of our products, both manufactured and traded, across India and abroad. We also intend to venture into woven fabrics, inhouse processing of fabrics and manufacture of ready made garments. This shall enable us to target the retail textile and apparels market and broadbase our customer base. We also aim to expand our export operations down the line.

## CAPACITY UTILIZATION

\*Above data Includes figures for capacity utilised for job-work contracts as well.

## Note:

The Company intends to achieve higher production by utilising its existing unutilising installed capacity and increase its installed capacity by purchasing/hiring new machineries in the future years. The Projected capacity for the next three years cannot be accurately estimated as the production depends upon the demand of the products and various other factors.

## COMPETITION

Textile being a large and global industry, we face competition from various domestic and international players. The industry is largely unorganized and fragmented with many small and medium-sized companies and entities. Among listed companies, we face competition from the below:

## The Micro, Small and Medium Enterprises Development Act, 2006

The Micro, Small and Medium Enterprises Development Act, 2006 as amended from time to time ("MSMED Act") seeks to facilitate the development of micro, small and medium enterprises. The MSMED Act provides that where an enterprise is engaged in the manufacturing and production of goods pertaining to any industry specified in the first schedule to the Industries (Development and Regulation) Act, 1951, the classification of an enterprise will be as follows:

- a. where the investment in plant and machinery does not exceed twenty-five lakh rupees shall be regarded as a micro enterprise;
- b. where the investment in plant and machinery is more than twenty-five lakh rupees but does not exceed five crore rupees shall be regarded as a small enterprise;
- c. Where the investment in plant and machinery is more than five crore rupees but does not exceed ten crore rupees shall be regarded as a medium enterprise.

The MSMED Act provides for the memorandum of micro, small and medium enterprises to be submitted by the relevant enterprises to the prescribed authority. While it is compulsory for medium enterprises engaged in manufacturing to submit the memorandum, the submission of the memorandum by micro and small enterprises engaged in manufacturing is optional. The MSMED Act defines a supplier to mean a micro or small enterprise that has filed a memorandum with the concerned authorities. The MSMED Act ensures that the buyer of goods makes payment for the goods supplied to him immediately or before the date agreed upon between the buyer and supplier. The MSMED Act provides that the agreed period cannot exceed forty five days from the day of acceptance of goods. The MSMED Act also stipulates that in case the buyer fails to make payment to the supplier within the agreed period, then the buyer will be liable to pay compound interest at three times of the bank rated notified by the Reserve Bank of India from the date immediately following the date agreed upon. The MSMED Act also provides for the establishment of the Micro and Small Enterprises Facilitation Council ("Council"). The Council has jurisdiction to act as an arbitrator or conciliator in a dispute between the supplier located within its jurisdiction and a buyer located anywhere in India.

The MSMED act provides for appointment and establishment of National Board by the Central Government for MSME enterprise with its head office at Delhi. The Central Government may from time to time for the purpose of promotion and development of the MSME and to enhance the competitiveness in the sector organise such programmes, guidelines or instructions, as it may deem fit. In case of any offences under this act, no court inferior to that of Metropolitan Magistrate or Chief Metropolitan Magistrate shall try the offence under this act.

## Competition Act, 2002

The Competition Act, 2002 (the "Competition Act") prohibits anti competitive agreements, abuse of dominant positions by enterprises and regulates "combinations" in India. The Competition Act also established the Competition Commission of India (the "CCI") as the authority mandated to implement the Competition Act. The provisions of the Competition Act relating to combinations were notified recently on March 04, 2011 and came into effect on June 01, 2011. Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act. A combination is defined under Section 5 of the Competition Act as an acquisition, merger or amalgamation of enterprise(s) that meets certain asset or turnover thresholds. There are also different thresholds for those categorized as 'Individuals' and 'Group'. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India. Effective June 01, 2011, all combinations have to be notified to the CCI within 30 days of the execution of any agreement or other document for any acquisition of assets, shares, voting rights or control of an enterprise under Section 5(a) and (b) of the Competition Act (including any binding document conveying an agreement or decision to acquire control, shares, voting rights or assets of an enterprise); or the board of directors of

a company (or an equivalent authority in case of other entities) approving a proposal for a merger or amalgamation under Section 5(c) of the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

An act to prevent practices having adverse effect on competition, to promote and sustain competition in markets, to protect interest of consumer and to ensure freedom of trade in India. The act deals with prohibition of agreements and Anti-competitive agreements. No enterprise or group shall abuse its dominant position in various circumstances as mentioned under the Act.

A Competition Fund shall be constituted and there shall be credited all government grants of such sum of money as the Government may think fit. The Central Government may by notification in the official gazette establish an Appellate Tribunal known as Competition Appellate Tribunal. The tribunal shall hear and dispose of appeal and adjudicate to claim for compensation that may arise from the findings of the commission.

# **B. GENERAL CORPORATE COMPLIANCE**

## The Companies Act 1956 and The Companies Act, 2013

The Companies act 1956 is still applicable to the extent not repealed and the Companies Act, 2013 is applicable to the extent notified. The act deals with incorporation of companies and the procedure for incorporation and post incorporation. The conversion of private company into public company and vice versa is also laid down under the Companies Act, 2013. The procedure relating to winding up, voluntary winding up, appointment of liquidator also forms part of the act. The provision of this act shall apply to all the companies incorporated either under this act or under any other previous law. It shall also apply to banking companies, companies engaged in generation or supply of electricity and any other company governed by any special act for the time being in force. A company can be formed by seven or more persons in case of public company and by two or more persons in case of private company. A company can even be formed by one person i.e., a One Person Company. The provisions relating to forming and allied procedures of One Person Company are mentioned in the act.

Further, Schedule V (read with sections 196 and 197), Part I lay down conditions to be fulfilled for the appointment of a managing or whole time director or manager. It provides the list of acts under which if a person is prosecuted he cannot be appointed as the director or Managing Director or Manager of the firm. The provisions relating to remuneration of the director's payable by the companies is under Part II of the said schedule.

# APPROVALS FROM LOCAL AUTHORITIES

Setting up of a factory or a manufacturing or housing unit entails that the requisite planning approvals are obtained from the relevant local panchayat(s) outside the city limits and the appropriate metropolitan development authority within the city limits. Consents from the State Pollution Control Board(s), the relevant State Electricity Board(s) and the State Excise Authorities (Sales Tax) are required to be obtained before commencing the building of a factory or the start of manufacturing operations.

## C. ENVIRONMENTAL LEGISLATIONS

The Company is subject to Indian laws and regulations concerning environmental protection, in particular, the discharge of effluent water and solid particulate matter during its manufacturing processes. The principal environmental regulations applicable to industries in India are the Water (Prevention and Control of Pollution) Act, 1974, the Water (Prevention and Control of pollution) Cess Act, 1977, the Air (Prevention and Control of Pollution) Act, 1981, the Environment Protection Act, 1986 and the Hazardous Wastes (Management and Handling) Rules, 1989. Further, environmental regulations require a company to file an Environmental Impact Assessment ("EIA") with the State Pollution Control Board ("PCB") and the Ministry of Environment and Forests ("MEF") before undertaking a project entailing the construction, development or modification of any plant, system or structure. If the PCB approves the project, the matter is referred to the MEF for its final determination. The estimated impact that a particular project might have on the environment is

carefully evaluated before granting clearances. When granting clearance, conditions may be imposed and the approving authorities may direct variations to the proposed project. The PCBs located across the various states in India monitor compliance with the applicable environmental regulations. No industrial or production facility may operate without a valid authorisation or consent from the jurisdictional PCB. PCBs routinely inspect industrial and production facilities, to monitor compliance with applicable environmental standards and regulations, including the provisions of the Water Act and the Water Access Act. PCBs are also empowered to grant authorisation for the collection, treatment, storage and disposal of hazardous waste, either to the occupier or the operator of the facility. Violations of relevant environmental regulations are punishable by monetary fines and imprisonment for company officers and controlling persons. The authorities are further empowered to shut down operations of a defaulting concern.

# The Environment Protection Act, 1986 ("Environment Protection Act")

The purpose of the Environment Protection Act is to act as an "umbrella" legislation designed to provide a frame work for Central government co-ordination of the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

#### Annexure IV

# SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON RESTATED SUMMARY STATEMENTS

#### SIGNIFICANT ACCOUNTING POLICIES

#### **Basis of Accounting**

The Restated Financial Statements of the company have been prepared in accordance with generally accepted accounting principles in India. The company has prepared these financial statements to comply in all material respects with the Accounting Standards notified under the Companies (Accounting Standard) Rules, 2006 (as amended) and the relevant provision of the Companies Act, 2013. The financial statements have been prepared on accrual basis and under the historical cost convention method. The accounting policies adopted in the preparation of financial statements are consistently followed by the company.

#### **B)** Use of Estimates

The preparation of the financial statement in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that effect the reported amounts of revenues, expenses, assets and liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustments to the carrying amounts of assets or liabilities in future period.

#### (c) Fixed Assets

Fixed Assets are stated at cost of acquisition less depreciation. Depreciation on fixed assets is calculated on Written Down Value Method upto March 31, 2014, depreciation has been provided under Written Down Value method at the rates prescribed under Schedule XIV of the Companies Act, 1956. From April 1, 2014, the depreciation for the respective assets has been computed on the basis of their useful life as specified in Schedule II to the Companies Act, 2013, in accordance with the information and explanations as provided to us by the management of the company. The carrying amounts of the company's assets are reviewed at each balance sheet date. If any indication of impairment exists, an impairment loss is recognized to the extent of the excess of the carrying amount over the estimated recoverable amount.

## (d) Inventories

Inventories of raw materials is valued at cost whereas, inventories of finished goods are valued at lower of cost or market value basis.

#### (e) Prior period Items

Previous years adjustments are on account of payment of taxes, duties, interest etc., of earlier years due to short / excess provision thereof etc. which has been shown under the head 'Exceptional Items/ Extraordinary Items.'

## (f) Recognition of Income and Expenditure

All incomes and expenditures are accounted on accrual basis as per the guidelines as stated in AS-9 (Revenue Recognition) i.e. once it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

## (g) Borrowing Cost

The total borrowing cost on the acquisition of fixed assets if pertaining to the period up to the date on which the said fixed assets have been put-to-use, has been capitalized in the respective fixed assets and the cost for the period after the said fixed assets have been put-to-use has been debited to the Profit and Loss Account.

## (h) Related Party Disclosure

As per Accounting Standard 18, the disclosures of transactions with the related parties are enclosed herewith in ANNEXURE-XXIII

## (i) Calculation of Earning per Share

Basic earning per share is computed by dividing the net profit for the year after prior period adjustments attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

## (j) Taxation

Tax comprises of Current tax and Deferred tax. Current tax in the books is recognised as per the provisions of Income Tax Act, 1961. Deferred Tax Liability / Asset is recognised as per AS-22 (Accounting for Taxes on Income) arising out of temporary timing differences. As per AS-22 "Accounting for Taxes and Income" issued by ICAI, company has created the deferred tax liability on account of timing difference attributable to the claim of depreciation which has been adjusted against the deferred tax liability of the earlier years.

## (k) Impairment of Assets

The carrying amounts of the company's assets are reviewed at each balance sheet date. If any indication of impairment exists, an impairment loss is recognized to the extent of the excess of the carrying amount over the estimated recoverable amount.

## (l) Foreign Exchange Transactions

Transactions in foreign currency are recorded at the rate of exchange prevailing on the date of respective transactions. However, as at year end the outstanding balances of foreign currency assets and liabilities are translated at the year end rates. Exchane differences arising on such exercise are charged to profit & loss account.

## (m) Provisions, Contingent Liabilities and Contingent Assets

The Company claims to have no Contingent liability and hence, it is not provided for in the books of accounts.

## (n) Employee Benefits Expense

Provision for gratuity is assessed on actuarial basis and is provided accordingly.

## (o) Previous Year's Figures

Previous year's figures have been regrouped/reclassified wherever necessary to correspond with the current year's classification/ disclosure.

## CHANGES IN ACCOUNTING POLICIES N THE YEARS/ PERIODS COVERED IN THE RESTATED FINANCIALS

There is no change in significant accounting policies during the reporting period except, as and when Accounting Standards issued by the Institute of Chartered Accountants of India/ Companies

(Accounting Standard) Rules, 2006 were made applicable on the relevant dates

## NOTES ON RESTATED SUMMARY STATEMENTS

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion of our financial condition and results of operations should be read in conjunction with our restated financial statements for the financial period ended December 2015 and for the financial years ended March 2015, 2014, 2013, 2012 and 2011 prepared in accordance with the Companies Act and Indian GAAP and restated in accordance with the SEBI (ICDR) Regulations, including the schedules, annexure and notes thereto and the reports thereon, included in the section titled *"Financial Statements"* on page 194 of this Draft Prospectus.

Indian GAAP differs in certain material aspects from U.S. GAAP and IFRS. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Draft Prospectus, nor do we provide reconciliation of our financial statements to those under U.S. GAAP or IFRS. Accordingly, the degree to which the Indian GAAP financial statements included in this Draft Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with the Companies Act, Indian GAAP and SEBI (ICDR) Regulations.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those set forth in *"Risk Factors"* and *"Forward-Looking Statements"* on pages 17 and 16 respectively, of this Draft Prospectus beginning respectively.

Our Company was incorporated on September 18, 2008 and has completed about seven years since incorporation. The Management's Discussion and Analysis of Financial Condition and Results of Operations, reflects the analysis and discussion of our financial condition and results of operations for the financial period ended December 2015 and for the financial years ended March 2015, 2014, 2013, 2012 and 2011.

## **OVERVIEW**

Incorporated in 2008, our Company 'Titanium Ten Enterprise Limited' is engaged in trading of yarn, grey cloth and manufacturing and trading of knitted fabrics. We also undertake job work of yarn and fabrics in our own capacity or on outsource basis. The registered office of our Company is situated at Shop No. 901/914, Rajhans Complex, 9th Floor, Ring Road, Surat, Gujarat- 395002 and the manufacturing plant is situated at Plot No. 660/A, 660/B and 660/C, Village Palsana, District Surat, Gujarat.

Our Company is promoted by Rohitkumar Kapadia and Ilaben Kapadia. Being engaged in the textile industry since last four decades, our Promoter Rohitkumar Kapadia has been the pioneer of the Company's business ideology and growth strategies. The Company's operations are backed by the inventive initiatives and textile knowledge of Tejus Kapadia, the CEO of our Company. Within a short span of time, our Company has created a steady position for itself in the Surat textile market and has been able to generate turnover of around Rs. 100 Crores during the past few years of operations.

Our sales model is divided into 2 parts i.e. i) trading of yarn and grey cloth and ii) supply of knitted fabrics. For the year ended March 31, 2015, our trading and manufacturing operations constituted 85.49% and 14.51% respectively of our total revenue from operations. Our trading operations cater to customers from both domestic and international markets. Our traded materials are mostly used in the process of weaving and knitting of fabrics which is then used for apparels such as sarees, shirtings, suitings, and upholstery such as curtains, etc. For our manufacturing operations, we have a plant set up at Surat which is considered as "The Textile Hub of The Nation". Spread over 2,853.12 square meters, our manufacturing facility is well equipped with requisite plant and machinery such as Warping and Knitting machines. At present we have an installed production capacity of more than 6,00,000 kgs p.a. for knitted fabrics. Our manufacturing process mainly consists of blending and knitting of yarn into beams of cloth

which is then converted to fabric. We use different qualities of yarn as raw material of which Bi-Shrinkage Yarn (BSY) and Cationic Yarn are imported and others such as Filament Yarn, Bright Yarn, Nylon Mono Yarn, etc are procured locally. We also undertake jobwork activities to customise the products to suit the clients' requirements.

Customer satisfaction has been one of the key strengths of our Company. Our management and team has enables us to maintain continuing customer relations, ensuring repeat order flows. Similarly we have developed strong bonds with our suppliers. We are the only authorised representative for sales of yarns in Surat. of PT. Asia Pacific Fibers Tbk., a well-known Indonesian yarn manufacturing Company.

We aim to satisfy the needs of customers and give them value for their money by ensuring quality and a wide variety of products accompanied by technology development, involvement of our management team and dedication of our employees. We also desire to expand our business operations on PAN India basis.

Despite the severe competition and slowdown in economy, our Company has been able to maintain a consistent turnover. For the nine months ended as on December 31, 2015, our Company's Total Income and Restated Profit After Tax was Rs. 6,557.45 Lakhs and Rs. 14.94 Lakhs, respectively. ## PROCEEDINGS UNDER CUSTOMS ACT, 1962

## M/s Tejus v/s Commissioner of Customs (Import), Nhavasheva

Additional Director, Directorate of Revenue Intelligence (hereinafter referred to as "DRI"), Ahmedabad has issued a Show-Cause Notice dated November 30, 2007 under Section 124 of the Customs Act, 1962 to Mr. Tejus Kapadia proprietor of M/s Tejus (hereinafter referred to as "Appellant"), CEO of Titanium Ten Enterprise Limited. M/s Rajasthan Textile Industries, M/s Ashok Weaving Industries and M/s Tulsi Udvog, Surat (hereinafter collectively referred to as "Other Parties") were dealing in imports of various grades of yarn. They had imported 119232 kgs of PFY 80D/48F declaring value of Rs. 71,53,481/- from M/s Global Trade Well Pte Ltd., Singapore and M/s Qingdao Kohap of China, 19440 kgs of PFY 80D/48F declaring value of Rs. 10,86,312/- from M/s Global Trade Well PTE, Singapore and 19,440 kgs of PFY 80D/48F declaring value of Rs. 11,06,673/- from M/s Global Trade Well PTE, Singapore respectively during the year 2006 on payment of Customs Duty. The said goods were of Indonesian Origin manufactured by M/s S K Keris and M/s S K Fiber of Indonesia and of Chinese origin manufactured by M/s Qingdao Kohap, China the same were cleared from Nhava Sheva Port. The Appellant sold two consignments of 19940 kgs on High Seas Sale (hereinafter referred to as "HSS") basis to M/s Rajasthan Textile Industries, Surat, procured by them from M/s S. K. Fiber, Indonesia. Attempts were made to examine the contemporary imports of the said BSY made by other importers of Surat from the same overseas suppliers of Indonesia. On scrutiny of the imports of PSY 80D/48F made by M/s Tejus, Surat, it was noticed that even M/s Tejus has cleared one consignment of 8640 kgs of PSY 80D/48F supplied by M/s S K Fiber, Indonesia at the rate of US\$ 2.00 per kg from Nhava Sheva port under B/E No. 987473 dated July 12, 2006 bearing Invoice Number E 11064 dated September 29, 2006 (RUD 10). In terms of Rule 5 of the Customs Rules 1988 the value of imported goods shall be the transaction value of identical goods sold for export to India and imported at or about the same time as the goods being valued. The goods imported by the Appellant fall under the strict parameter of Rule 5 for computation of the transaction value in respect of all other consignments of BSY imported from Indonesia. The DRI has alleged that M/s Rajasthan Textile Industries, M/s Ashok Weaving Industries, M/s Tulsi Udyog and M/s Goenka

Industries while importing the different quantities of PSY (BSY) as mentioned above from Indonesia in connivance with the Appellant has hatched conspiracy to evade payment of Custom Duty by concealing the actual transaction value from the customs. The Appellant procured the goods at undervalued rates from overseas suppliers and sold the same on HSS basis to M/s Tulsi Udyog and prepared HSS Agreements at under-valued rates. The Appellant also admitted that he collected additional amount of money from HSS buyers in cash which was passed on through the supplier's representative Shri Raj Kishore Sharma, Surat. It appears to the DRI that the Appellant was actively involved in the undervaluation of the said goods i.e. PFY 80D/48F imported/cleared by M/s Tulsi Udyog, Surat in the year 2006 in violation of the provisions of Section 46 (4) of the Customs Act, 1962. It also appears that the Appellant had reason to believe that the goods are liable to confiscation under Section 111 of the Customs Act, 1962 and hence is also liable to penal action under Section 112 (b) of the Customs Act, 1962. Therefore, the Appellant and other parties were called-upon to showcause to the DRI within 30 days from the receipt of this notice, reason for non-imposition of penalty under Section 112 (b) of the Customs Act, 1962. The Deputy Commissioner of Customs has passed an Order-In-Original (hereinafter referred to as the "Impugned Order") number 140/2009/CC(I) JNCH dated September 14, 2009 passed by the Commissioner of Customs Import Mumbai under Section 35 (1) of the Central Excise Act, 1944, Section 129 (B) of the Customs Act, 1962 and Finance Act, 1994. M/s Tejus has filed an application dated July 13, 2015 for Restoration of Appeal (hereinafter referred to as "ROA") number C/1251/09-Mum with Customs, Excise and Service Tax Appellate Tribunal, West Zonal Bench at Mumbai (hereinafter referred to as "CESTAT") against the Impugned Order consequent to dismissal of Appeal under order of the Tribunal dated June 20, 2012 for failure to deposit Rs. 30,00,000/- in addition to the amount deposited of Rs. 8,00,000/- dated August 16, 2007 vide Challan number 08/2007 and Rs. 12.00.000/- dated August 28, 2007 vide Challan number 09/2007 towards custom duty against under-valued imports and yarn 80D/48F and report compliance on April 27, 2012. 1. The application for ROA was dismissed. However, the appellant is granted liberty to approach CESTAT after depositing Rs. 30,00,000/- within eight weeks. The appellant has deposited the amount of Rs. 10,00,000/-on May 4, 2015 and balance Rs. 20,00,000/- on August 28, 2015 to the Office of the Commissioner of Customs, Raigad. As per the ROA, appellant can again file an appeal against the impugned order on payment of Rs. 30,00,000/-. Company is planning to file appeal in High Court or Tribunal.

# MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

In terms of Section 29 of the Companies Act, 2013, the Equity Shares shall be allotted only in dematerialised form. As per the existing SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form for all investors.

The trading of the Equity Shares will happen in the minimum contract size of 8,000 Equity Shares and the same may be modified by BSE from time to time by giving prior notice to investors at large. Allocation and allotment of Equity Shares through this Offer will be done in multiples of 8,000 Equity Shares subject to a minimum allotment of 8,000 Equity Shares to the successful applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

Allocation and allotment of Equity Shares through this Offer will be done in multiples of 8,000 Equity Share subject to a minimum allotment of 8,000 Equity Shares to the successful applicants.

# MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 106R of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 4 working days of closure of issue.

# JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts / authorities in Mumbai, Maharashtra, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be offered or sold within the United States or to, or for the account or benefit of, "U.S. persons" (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the

jurisdiction where those offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

# JOINT HOLDER

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint – tenants with benefits of survivorship.

# NOMINATION FACILITY TO INVESTOR

In accordance with Section 72 of the Companies Act, 2013 the sole applicant, or the first applicant along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the Applicant, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or with the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

Our Company may migrate to the Main Board of BSE from the SME Stock Exchange on a later date subject to the following:

a) If the Paid up Capital of our Company is likely to increase above Rs. 2,500 lakhs by virtue of any further issue of capital by way of rights issue, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoters in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the Main Board), our Company shall apply to BSE for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.

OR

b) If the Paid up Capital of our company is more than Rs. 1,000 lakhs but below Rs. 2,500 lakhs, our Company may still apply for migration to the Main Board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoters in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

# MARKET MAKING

The shares offered through this Issue are proposed to be listed on the SME Platform of BSE (SME Exchange) with compulsory market making through the registered Market Maker of the SME Exchange for a minimum period of three years or such other time as may be prescribed by the Stock Exchange, from the date of listing of shares offered through the Draft Prospectus. For further details of the market making arrangement please refer to chapter titled "General Information" beginning on page 67 of this Draft Prospectus.

# ARRANGEMENT FOR DISPOSAL OF ODD LOT

The trading of the equity shares will happen in the minimum contract size of 8,000 shares in terms of the SEBI circular no. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, the market maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on the SME Platform of BSE.

# AS PER THE EXTANT POLICY OF THE GOVERNMENT OF INDIA, OCBs CANNOT PARTICIPATE IN THIS ISSUE.

The current provisions of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FIIs and foreign venture capital investors registered with SEBI to invest in shares of Indian companies by

way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, RBI and/or SEBI regulations as may be applicable to such investors. Overseas Corporate Bodies (OCBs) have been de-recognised as a class of investor in India with effect from September 16, 2003. However, erstwhile OCBs which are incorporated outside India and are not under adverse notice of the RBI can make fresh investments under the FDI Scheme as incorporated non-resident entities, with the prior approval of the Government of India, if the investment is through the Government Route; and with the prior approval of the Reserve Bank, if the investment is through the Automatic Route.

The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India/RBI while granting such approvals.

# **OPTION TO RECEIVE SECURITIES IN DEMATERIALISED FORM**

In accordance with the SEBI ICDR Regulations, Allotment of Equity Shares to successful applicants will only be in the dematerialized form. Applicants will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only on the dematerialized segment of the Stock Exchange. - (c) In accordance with Regulation 106(O) the SEBI (ICDR) Regulations, Company is not required to file any Offer Document with SEBI nor has SEBI issued any observations on the Offer Document. The Lead Manager shall submit the copy of Prospectus along with a Due Diligence Certificate including additional confirmations as required to SEBI at the time of filing the Prospectus with Stock Exchange and the Registrar of Companies.
- (d) In accordance with Regulation 106(V) of the SEBI ICDR Regulations, the LM has to ensure compulsory market making for a minimum period of three years from the date of listing of Equity Shares offered in the Issue.
- (e) The Issuer shall have Net Tangible assets of at least Rs. 3 crore as per the latest audited financial results.
- (f) The Net worth (excluding revaluation reserves) of the Issuer shall be at least Rs. 3 crore as per the latest audited financial results.
- (g) The Issuer should have a track record of distributable profits in terms of section 123 of Companies Act, 2013 for two out of immediately preceding three financial years or it should have net worth of at least Rs. 5 Crores.
- (h) The Post-issue paid up capital of the Issuer shall be at least Rs. 3 Crore. The post –issue paid up capital of our company will be Rs. 6.73 Crore.
- (i) The Issuer shall mandatorily facilitate trading in demat securities.
- (j) The Issuer should not been referred to Board for Industrial and Financial Reconstruction.
- (k) No petition for winding up is admitted by a court or a liquidator has not been appointed of competent jurisdiction against the Company.
- (1) No material regulatory or disciplinary action should have been taken by any stock exchange or regulatory authority in the past three years against the Issuer.
- (m) The Company should have a website.
- (n) There has been no change in the promoter of the Company in the one year preceding the date of filing application to BSE for listing on SME segment. Issuer shall also comply with all the other requirements as laid down for such an Issue under Chapter XB of SEBI

(ICDR) Regulations and subsequent circulars and guidelines issued by SEBI and the Stock Exchange.

As per Regulation 106(M)(3) of SEBI (ICDR) Regulations, 2009, the provisions of Regulations 6(1), 6(2), 6(3), Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI (ICDR) Regulations, 2009 shall not apply to this Issue.

Thus Company is eligible for the Issue in accordance with regulation 106M (1) and other provisions of chapter XB of the SEBI (ICDR) Regulations as the post issue face value capital does not exceed Rs. 1,000 lakhs. Company also complies with the eligibility conditions laid by the SME Platform of BSE for listing of our Equity Shares.

# 2.3 TYPES OF PUBLIC ISSUES – FIXED PRICE ISSUES AND BOOK BUILT ISSUES

In accordance with the provisions of the SEBI ICDR Regulations, 2009, an Issuer can either determine the Issue Price through the Book Building Process ("Book Built Issue") or undertake a Fixed Price Issue ("Fixed Price Issue"). An Issuer may mention Floor Price or Price Band in the RHP (in case of a Book Built Issue) and a Price or Price Band in the Draft Prospectus (in case of a fixed price Issue) and determine the price at a later date before registering the Prospectus with the Registrar of Companies.

The cap on the Price Band should be less than or equal to 120% of the Floor Price. The Issuer shall announce the Price or the Floor Price or the Price Band through advertisement in all newspapers in which the pre-issue advertisement was given at least five Working Days before the Issue Opening Date, in case of an IPO and at least one Working Day before the Issue Opening Date, in case of an FPO.

The Floor Price or the Issue price cannot be lesser than the face value of the securities. Applicants should refer to the Prospectus or Issue advertisements to check whether the Issue is a Book Built Issue or a Fixed Price Issue.

#### 2.4 ISSUE PERIOD

The Issue shall be kept open for a minimum of three Working Days (for all category of Applicants) and not more than ten Working Days. Applicants are advised to refer to the Application Form and Abridged Prospectus or Prospectus for details of the Issue Period.

Details of Issue Period are also available on the website of Stock Exchange(s).

#### 2.5 MIGRATION TO MAIN BOARD

In accordance with the BSE Circular dated November 26, 2012, our Company will have to be mandatorily listed and traded on the SME Platform of the BSE for a minimum period of two years from the date of listing and only after that it can migrate to the Main Board of the BSE as per the guidelines specified by SEBI and as per the procedures laid down under Chapter XB of the SEBI (ICDR) Regulations. Our Company may migrate to the Main board of BSE from the SME Exchange on a later date subject to the following

(a) If the Paid up Capital of the Company is likely to increase above Rs. 25 crores by virtue of any further issue of capital by way of rights, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principle approval from the main board), the Company shall apply to SE for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.

OR

(b) If the Paid up Capital of the company is more than 10 crores but below Rs. 25 crores, the

Company may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

# 4.1.1 FIELD NUMBER 1: NAME AND CONTACT DETAILS OF THE SOLE/ FIRST APPLICANT

Applicants should ensure that the name provided in this field is exactly the same as the name in which the Depository Account is held.

- (a) **Mandatory Fields:** Applicants should note that the name and address fields are compulsory and e-mail and/or telephone number/ mobile number fields are optional. Applicants should note that the contact details mentioned in the Application Form may be used to dispatch communications) in case the communication sent to the address available with the Depositories are returned undelivered or are not available. The contact details provided in the Application Form may be used by the Issuer, the members of the Syndicate, the Registered Broker and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- (b) **Joint Applications:** In the case of Joint Applications, the Applications should be made in the name of the Applicant whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Applicant would be required in the Application Form and such first Applicant would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Applicant whose name appears in the Application Form or the Revision Form and all communications may be addressed to such Applicant and may be dispatched to his or her address as per the Demographic Details received from the Depositories.
- (c) **Impersonation:** Attention of the Applicants is specifically drawn to the provisions of sub section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:
  - 'Any person who:
  - makes or abets making of an application in a fictitious name to a Company for acquiring, or subscribing for, its securities; or
  - makes or abets making of multiple applications to a Company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or
  - otherwise induces directly or indirectly a Company to allot, or register any transfer of securities to him, or to any other person in a fictitious name,
    - Shall be liable for action under section 447 of the said Act.
- (d) **Nomination Facility to Applicant:** Nomination facility is available in accordance with the provisions of Section 109A of the Companies Act. In case of allotment of the Equity Shares in dematerialized form, there is no need to make a separate nomination as the nomination registered with the Depository may prevail. For changing nominations, the Applicants should inform their respective DP.

#### 4.1.2 FIELD NUMBER 2: PAN NUMBER OF SOLE /FIRST APPLICANT

- (a) PAN (of the sole/ first Applicant) provided in the Application Form should be exactly the same as the PAN of the person(s) in whose name the relevant beneficiary account is held as per the Depositories' records.
- (b) PAN is the sole identification number for participants transacting in the securities market irrespective of the amount of transaction except for Applications on behalf of the Central or State Government, Applications by officials appointed by the courts and Applications by Applicants residing in Sikkim ("PAN Exempted Applicants"). Consequently, all Applicants, other than the PAN Exempted Applicants, are required to disclose their PAN in the Application Form, irrespective of the Application Amount. An Application Form without PAN, except in case of Exempted Applicants, is liable to be rejected. Applications by the Applicants whose PAN is not available as per the Demographic Details available in their Depository records, are liable to be

rejected.

- (c) The exemption for the PAN Exempted Applicants is subject to (a) the Demographic Details received from the respective Depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in "active status"; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same.
- (d) Application Forms which provide the General Index Register Number instead of PAN may be rejected.
- (e) Applications by Applicants whose demat accounts have been 'suspended for credit' are liable to be rejected pursuant to the circular issued by SEBI on July 29, 2010, bearing number CIR/MRD/DP/22/2010. Such accounts are classified as "Inactive demat accounts" and demographic details are not provided by depositories.

# 4.1.3 FIELD NUMBER 3: APPLICANTS DEPOSITORY ACCOUNT DETAILS

- (a) Applicants should ensure that DP ID and the Client ID are correctly filled in the Application Form. The DP ID and Client ID provided in the Application Form should match with the DP ID and Client ID available in the Depository database, <u>otherwise, the Application Form is liable to</u> <u>be rejected</u>.
- (b) Applicants should ensure that the beneficiary account provided in the Application Form is active.
- (c) Applicants should note that on the basis of DP ID and Client ID as provided in the Application Form, the Applicant may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the Applicant as available on the records of the depositories. These Demographic Details may be used, among other things, for sending allocation advice and for other correspondence(s) related to an Issue.
- (d) Applicants are, advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Applicants' sole risk.

# 4.1.4 FIELD NUMBER 4: APPLICATION DETAILS

- (a) The Issuer may mention Price in the Draft Prospectus. However a prospectus registered with RoC contains one price.
- (b) Minimum And Maximum Application Size

#### i. For Retail Individual Applicants

The Application must be for a minimum of 8,000 Equity Shares. As the Application Price payable by the Retail Individual Applicants cannot exceed Rs. 2,00,000, they can make Application for only minimum Application size i.e. for 8,000 Equity Shares.

#### ii. For Other Applicants (Non Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares such that the Application Amount exceeds Rs. 2,00,000 and in multiples of 8,000 Equity Shares thereafter. An Application cannot be submitted for more than the Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application. In case of revision in Applications, the Non Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than Rs. 2,00,000 for being considered for allocation in the Non Institutional Portion. Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in the Prospectus.

- (c) **Multiple Applications:** An Applicant should submit only one Application Form. Submission of a second Application Form to either the same or to any other Application Collecting Intermediary and duplicate copies of Application Forms bearing the same application number shall be treated as multiple applications and are liable to be rejected.
- (d) Applicants are requested to note the following procedures may be followed by the Registrar to the Issue to detect multiple applications:
- i. All applications may be checked for common PAN as per the records of the Depository. For Applicants other than Mutual Funds and FPI sub-accounts, Applications bearing the same PAN may be treated as multiple applications by an Applicant and may be rejected.
- ii. For applications from Mutual Funds and FPI sub-accounts, submitted under the same PAN, as well as Applications on behalf of the PAN Exempted Applicants, the Application Forms may be checked for common DP ID and Client ID. In any such applications which have the same DP ID and Client ID, these may be treated as multiple applications and may be rejected.
- (e) The following applications may not be treated as multiple Applications:
- i. Applications by Reserved Categories in their respective reservation portion as well as that made by them in the Net Issue portion in public category.
- ii. Separate applications by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Applications clearly indicate the scheme for which the Application has been made.
- iii. Applications by Mutual Funds, and sub-accounts of FPIs (or FPIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.

#### 4.1.5 FIELD NUMBER 5: CATEGORY OF APPLICANTS

- i. The categories of applicants identified as per the SEBI ICDR Regulations, 2009 for the purpose of Application, allocation and allotment in the Issue are RIIs, individual applicants other than RII's and other investors (including corporate bodies or institutions, irrespective of the number of specified securities applied for).
- ii. An Issuer can make reservation for certain categories of Applicants permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, applicants may refer to the Prospectus.
- iii. The SEBI ICDR Regulations, 2009 specify the allocation or allotment that may be made to various categories of applicants in an Issue depending upon compliance with the eligibility conditions. For details pertaining to allocation and Issue specific details in relation to allocation, applicant may refer to the Prospectus.

#### 4.1.6 FIELD NUMBER 6: INVESTOR STATUS

- (a) Each Applicant should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.
- (b) Certain categories of Applicants, such as NRIs, FPIs and FVCIs may not be allowed to apply in the Issue or hold Equity Shares exceeding certain limits specified under applicable law. Applicants are requested to refer to the Prospectus for more details.
- (c) Applicants should check whether they are eligible to apply on non-repatriation basis or repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Application Form and Non-Resident Application Form.
- (d) Applicants should ensure that their investor status is updated in the Depository records.

# 4.1.7 FIELD 7: PAYMENT DETAILS

(a) Please note that, providing bank account details in the space provided in the Application Form is mandatory and Applications that do not contain such details are liable to be rejected.

#### **4.1.7.1** Payment instructions for Applicants

- (a) Applicants may submit the Application Form in physical mode to the Application Collecting Intermediaries.
- (b) Applicants should specify the Bank Account number in the Application Form.
- (c) Applicants should ensure that the Application Form is also signed by the ASBA Account holder(s) if the Applicant is not the ASBA Account holder;
- (d) Applicants shall note that that for the purpose of blocking funds under ASBA facility clearly demarcated funds shall be available in the account.
- (e) From one Bank Account, a maximum of five Application Forms can be submitted.
- (f) Applicants applying directly through the SCSBs should ensure that the Application Form is submitted to a Designated Branch of a SCSB where the ASBA Account is maintained. Incase Applicant applying through Application Collecting Intermediary other than SCSB, after verification and upload, the Application Collecting Intermediary shall send to SCSB for blocking of fund.
- (g) Upon receipt of the Application Form, the Designated Branch of the SCSB may verify if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form.
- (h) If sufficient funds are available in the ASBA Account, the SCSB may block an amount equivalent to the Application Amount mentioned in the Application Form and may upload the details on the Stock Exchange Platform.
- (i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB may not upload such Applications on the Stock Exchange platform and such Applications are liable to be rejected.
- (j) Upon submission of a completed Application Form each ASBA Applicant may be deemed to have agreed to block the entire Application Amount and authorized the Designated Branch of the SCSB to block the Application Amount specified in the Application Form in the ASBA Account maintained with the SCSBs.
- (k) The Application Amount may remain blocked in the aforesaid ASBA Account until finalisation of the Basis of allotment and subsequent transfer of the Application Amount against the Allotted Equity Shares, if any, to the Public Issue Account, or until withdrawal or failure of the Issue, or until withdrawal or rejection of the Application, as the case may be.
- (1) SCSBs applying in the Issue must apply through an ASBA Account maintained with any other SCSB; else their Applications are liable to be rejected.

#### 4.1.8 Unblocking of ASBA Account

- (a) Once the Basis of Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue may provide the following details to the controlling branches of each SCSB, along with instructions to unblock the relevant bank accounts and for successful applications transfer the requisite money to the Public Issue Account designated for this purpose, within the specified timelines: (i) the number of Equity Shares to be Allotted against each Application, (ii) the amount to be transferred from the relevant bank account to the Public Issue Account, for each Application, (iii) the date by which funds referred to in (ii) above may be transferred to the Public Issue Account, and (iv) details of rejected/ partial/ non allotment ASBA Applications, if any, along with reasons for rejection and details of withdrawn or unsuccessful Applications, if any, to enable the SCSBs to unblock the respective bank accounts.
- (b) On the basis of instructions from the Registrar to the Issue, the SCSBs may transfer the requisite

amount against each successful ASBA Application to the Public Issue Account and may unblock the excess amount, if any, in the ASBA Account.

(c) In the event of withdrawal or rejection of the Application Form and for unsuccessful Applications, the Registrar to the Issue may give instructions to the SCSB to unblock the Application Amount in the relevant ASBA Account within 6 Working Days of the Issue Closing Date.

#### **4.1.8.1 Discount** (if applicable)

- (a) The Discount is stated in absolute rupee terms.
- (b) RIIs, Employees and Retail Individual Shareholders are only eligible for discount. For Discounts offered in the Issue, applicants may refer to the Prospectus.
- (c) The Applicants entitled to the applicable Discount in the Issue may make payment for an amount i.e. the Application Amount less Discount (if applicable).

# 4.1.8.2 Additional Payment Instructions for NRIs

The Non-Resident Indians who intend to block funds in their Non-Resident Ordinary (NRO) accounts shall use the form meant for Resident Indians (non-repatriation basis). In the case of applications by NRIs applying on a repatriation basis, payment shall not be accepted out of NRO Account.

# 4.1.9 FIELD NUMBER 8: SIGNATURES AND OTHER AUTHORISATIONS

- (a) Only the First Applicant is required to sign the Application Form. Applicants should ensure that signatures are in one of the languages specified in the Eighth Schedule to the Constitution of India.
- (b) If the ASBA Account is held by a person or persons other than the Applicant, then the Signature of the ASBA Account holder(s) is also required.
- (c) In relation to the Applications, signature has to be correctly affixed in the authorization/undertaking box in the Application Form, or an authorisation has to be provided to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the application amount mentioned in the Application Form.
- (d) Applicants must note that Application Form without signature of Applicant and /or ASBA Account holder is liable to be rejected.

# 4.1.10 ACKNOWLEDGEMENT AND FUTURE COMMUNICATION

Applicants should ensure that they receive the acknowledgment duly signed and stamped by Application Collecting Intermediaries, as applicable, for submission of the Application Form.

- (a) All communications in connection with Applications made in the Issue should be addressed as under:
  - i. In case of queries related to Allotment, non-receipt of Allotment Advice, credit of allotted equity shares, unblocking of funds, the Applicants should contact the Registrar to the Issue.
  - ii. In case of applications submitted to the Designated Branches of the SCSBs, the Applicants should contact the relevant Designated Branch of the SCSB.
  - iii. Applicant may contact the Company Secretary and Compliance Officer or LM(s) in case of any other complaints in relation to the Issue.
- (b) The following details (as applicable) should be quoted while making any queries
  - i. Full name of the sole or First Applicant, Application Form number, Applicants' DP ID, Client ID, PAN, number of Equity Shares applied for, amount blocked on application And ASBA Account Number and Name.
  - ii. In case of ASBA applications, ASBA Account number in which the amount

equivalent to the application amount was blocked.

For further details, Applicant may refer to the Prospectus and the Application Form.

#### 4.2 INSTRUCTIONS FOR FILING THE REVISION FORM

- (a) During the Issue Period, any Applicant (other than QIBs and NIIs, who can only revise their application amount upwards) who has registered his or her interest in the Equity Shares for a particular number of shares is free to revise number of shares applied using revision forms available separately.
- (b) RII may revise/withdraw their applications till closure of the Issue period
- (c) Revisions can be made only in the desired number of Equity Shares by using the Revision Form.
- (d) The Applicant can make this revision any number of times during the Issue Period. However, for any revision(s) in the Application, the Applicants will have to use the services of the SCSB through which such Applicant had placed the original Application.

A sample Revision form is reproduced below:

Other than instructions already highlighted at paragraph 4.1 above, point wise instructions regarding filling up various fields of the Revision Form are provided below:

#### SECTION 6: ISSUE PROCEDURE IN BOOK BUILT ISSUE

This being Fixed Price Issue, this section is not applicable for this Issue.

# SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

#### 7.1 BASIS OF ALLOTMENT

Allotment will be made in consultation with the SME Platform of BSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- (a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for).
- (b) The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- (c) For applications where the proportionate allotment works out to less than 8,000 equity shares the allotment will be made as follows:
  - i. Each successful Applicant shall be allotted 8,000 equity shares; and
  - ii. The successful Applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
- (d) If the proportionate allotment to an Applicant works out to a number that is not a multiple of 8,000 equity shares, the Applicant would be allotted Shares by rounding off to the nearest multiple of 8,000 equity shares subject to a minimum allotment of 8,000 equity shares.
- (e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Applicants in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 8,000 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this Draft Prospectus.
- (f) The above proportionate allotment of Shares in an Issue that is oversubscribed shall be subject to the reservation for Retail individual Applicants as described below:

- i. As per Regulation 43 (4) of SEBI (ICDR), as the retail individual investor category is entitled to more than fifty per cent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
- ii. The balance net offer of shares to the public shall be made available for allotment to
  - individual applicants other than retails individual investors and
  - other investors, including corporate bodies/ institutions irrespective of number of shares applied for.
- iii. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

'Retail Individual Investor' means an investor who applies for shares of value of not more than Rs. 2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with BSE.

The Executive Director / Managing Director of BSE - the Designated Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

#### 7.2 DESIGNATED DATE AND ALLOTMENT OF EQUITY SHARES

- (a) **Designated Date:** On the Designated Date, the SCSBs shall transfer the funds represented by allocation of Equity Shares into the Public Issue Account with the Bankers to the Issue.
- (b) Issuance of Allotment Advice: Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall upload the same on its website. On the basis of the approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the Allotment and credit of Equity Shares. Applicants are advised to instruct their Depository Participant to accept the Equity Shares that may be allotted to them pursuant to the Issue.

Pursuant to confirmation of such corporate actions, the Registrar will dispatch Allotment Advice to the Applicants who have been Allotted Equity Shares in the Issue.

- (c) The dispatch of Allotment Advice shall be deemed a valid, binding and irrevocable contract.
- (d) Issuer will ensure that: (i) the Allotment of Equity Shares; and (ii) initiate corporate action for credit of shares to the successful Applicants Depository Account will be completed within 4 Working Days of the Issue Closing Date. The Issuer also ensures the credit of shares to the successful Applicant's depository account is completed within one Working Day from the date of Allotment, after the funds are transferred from the Public Issue Account on the Designated Date.

#### **RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES**

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment.

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("FDI") through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP"), has issued consolidated FDI Policy Circular of 2015 ("FDI Policy 2015"), which with effect from May 12, 2015, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force and effect as on May 11, 2015. However, press note 4 of (2015 Series), dated April 24, 2015, regarding policy on foreign investment in pension sector, will remain effective. Further, DIPP has issued a press note No. 12 (2015 Series) dated November 24, 2015 which introduces a few changes in the consolidated FDI Policy issued on May 12, 2015, and as amended from time to time. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, the consolidated FDI Policy 2015 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India ("**RBI**") also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who are eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian Company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current consolidated FDI Policy of 2015, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include (i) the activities of the investee Company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended ("U.S. Securities Act") or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of "U.S. Persons" as defined in Regulation S of the U.S. Securities Act), except pursuant to exemption from, or in a transaction not subject to, the registration requirements of U.S. Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sale occur. Further, no offer to the public (as defined under Directive 20003/71/EC, together with any amendments) and implementing measures thereto, (the "Prospectus Directive") has been or will be made in respect of the Issue or otherwise in respect of the Bonds, in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Issue or otherwise in respect of the Bonds.

Any forwarding, distribution or reproduction of this document in whole or in part is unauthorised. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions of the Bonds and the information contained in this Draft Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.
